Nightmare Envy and Other Stories is a study of Americanist writing and institutions in the 20th century. Four chapters trace four routes through the mid twentieth century. The first chapter is the hidden history of American Studies in the United States, Europe, and Japan. The second is the strange career of national character in anthropology. The third is a contest between military occupation and cultural diplomacy in Europe. The fourth is the emergence and fate of the American Renaissance as the scholar and literary critic F. O. Matthiessen carried a canon of radical literature across the Iron Curtain. Each chapter culminates in the postwar period when the ruin of postwar Europe led writers and intellectuals on both sides of the Atlantic to understand America in new ways. Many of our modern myths of the United States and Europe were formed in this moment. Some saw the United States assume the mantle of cultural redeemer. Others saw a stereotypical America rich in civilization but poor in culture overtake a stereotypical Europe rich in culture and equally rich in disaster. Drawing on American and European archives, the book weaves cultural, intellectual, and diplomatic history with portraits of Matthiessen, Margaret Mead, Ruth Benedict, David Riesman, Alfred Kazin, and Ralph Ellison. It excavates the history of the Salzburg Seminar in American Civilization where displaced persons, former Nazis, budding Communists, and glad-handing Americans met on the common ground of American culture. Others found keys to their own contexts in American books, reading Moby Dick in the ruins. *Nightmare Envy and Other Stories* chronicles American encounters with European disaster, European encounters with American fiction, and the chasms over which culture had to reach.

Jewish American Literature Jules Chametzky, 2001. A collection of Jewish American literature written by various authors between 1656 and 1990. [A Manual of American Literature](#) Theodore Stanton, 1909. This book has been prepared for publication as No. 4000, a Memorial Volume of the Tauchnitz Edition. Perhaps it may be well to explain to American readers what the Tauchnitz Edition is and what a Memorial Volume is in this collection. The Collection of British Authors, or as it is more popularly known on the European Continent, the Tauchnitz Edition, was instituted in 1841 at Leipsic by one of the most distinguished of German publishers, the late Baron Bernhard Tauchnitz, whose son is now at the head of the house. The father records that he was incited to the undertaking by the high opinion and enthusiastic fondness which I have ever entertained for English literature, a literature springing from the selfsame root as the literature of Germany and cultivated in the beginning by the same Saxon race. As a German Saxon, it gave me particular pleasure to promote the literary interest of my Anglo-Saxon cousins by rendering English literature as universally known as possible beyond the limits of the British Empire. In another place, Baron Tauchnitz describes the mission of his Collection to be the spreading and strengthening the love for English literature outside of England and her Colonies.

Telling America's Story to the World Harilaos Stecopoulos, 2022-10-06 Telling America's Story to the World argues that state and state affiliated cultural diplomacy contributed to the making of postwar US literature Highlighting the role of liberal internationalism in US cultural outreach Harilaos Stecopoulos contends that the state mainly sent authors like Ralph Ellison Robert Frost William Faulkner Langston Hughes and Maxine Hong Kingston overseas not just to demonstrate the achievements of US civilization but also to broadcast an American commitment to international cross cultural connection Those writers cum ambassadors may not have helped the state achieve its propaganda goals indeed this rarely proved the case but they did find their assignments an opportunity to ponder the international meanings and possibilities of US literature For many of those figures courting foreign publics inspired a reevaluation of the scope and form of their own literary projects Testifying to the inadvertent yet integral role of cultural diplomacy in the worlding of US letters works like *The Mansion* 1959 *Life Studies* 1959 *Cultural Exchange* 1961 1967 *Tripmaster Monkey* His Fake Book 1989 and *Three Days Before the Shooting* 2010 reimagine US literature in a mobile global and distinctly political register

In Marx's Shadow Costica Bradatan,Serguei Oushakine,2010-03-19 Despite its key role in the intellectual shaping of state socialism Communist ideas are often dismissed as mere propaganda or as a rhetorical exercise aimed at advancing socialist intellectuals on their way to power By drawing attention to unknown and unexplored areas trends and ways of thinking under socialism the volume examines Eastern Europe and Russian histories of intellectual movements inspired negatively as well as positively by Communist arguments and dogmas Through an interdisciplinary dialogue the collection demonstrates how various bodies of theoretical knowledge philosophical social political aesthetic even theological were used not only to justify dominant political views but also to frame oppositional and unofficial discourses and practices The examination of the underlying structures of Communism as an intellectual project provides convincing evidence for questioning a dominant approach that routinely frames the post Communist intellectual development as a revival or at least as a return of the repressed intellectual traditions As the book shows the logic of a radical break suggested by this approach is in contradiction with historical evidence a significant number of philosophical theoretical and ideological debates in post Communist world are in fact the logical continuation of intellectual conversations and confrontations initiated long before 1989
