

Quick Start Guide for the Futures Trading Secrets Program

The Futures Trading Secrets system is broken into three parts. It is designed to build a basic understanding of how and why we chose the indicators and approach we did. It will also help you build belief in the system. And finally you will learn how to trade the system..

How to Use the Futures Trading Secrets Manual

I know as traders or potential traders all you want is the **perfect signal** that leads you to massive profits. But, the signals described here are only 10% of a complete trading system.

We designed this manual to give you a very complete program on how to become a successful trader. So here is what you need to know first: The philosophy, mental and money management and finally the signals and how to execute them.

I know you just want to cut to the chase, and I know you will not follow the advice above, because I didn't. So if you think you can execute this program without proper preparation, jump directly to the Futures Trading Approach Section and have at it. If you start losing money, you will probably need to go through the course in the order presented.

It should be obvious that you cannot learn to swim by reading a book. You need to watch someone else swim and then get in the pool. The major portion of this course is based on watching how signals develop and then learning how to take probabilistic trades. That is what the videos are all about.

How to Use the Videos

Part One covers all the basic indicators, techniques and principals of trading, money management and mental preparation using standard indicators. You will want to study this manual and refer to it for detailed information

Part Two, covers our special indicator system using the Pesavento Patterns and the Dual Ergodic Indicator system. Part two is introduced on the first disk using a combination of the Triple Stochastic and Dual Ergodic System.

Finally, you need to practice using the system, understand the charting program you are using and understand the trading platform of you broker.

Part One

1. Play the first CD and read the NFA Disclosure
2. Read the Setup Instructions that gives you an overview of how to use Ensign
3. Watch the FTS Basic Training Video that shows you our settings and individual parts of the system
4. Next review the 3 practice videos of how all the parts work together.
5. Review the Ergodic Combo Videos as a preview to disk two
