**John Gribbin**

## **Geopolitics A Very Short Introduction Very Short Introductions:**

Geopolitics Klaus Dodds, 2019-07-25 Geopolitics is a slippery term From great power politics and speculation about resource scrambles to everyday encounters and objects such as smart phones it affects citizens corporations international bodies social movements and governments Geopolitics is far more than simply the impact of geographical features such as rivers mountains and climate on political developments Geography matters but not necessarily in the way that pundits and presidents assume In this Very Short Introduction Klaus Dodds tours the field of geopolitics encompassing both its intellectual historical origins and its current concerns As people struggle to cross borders moving a few feet either side of a territorial boundary can be a matter of life or death dramatically highlighting the connections between place and politics Even far away from the front lines of states geopolitics remains an important part of everyday life A country's connectivity location size and resources all affect how the people that live there understand and interact with the wider world In this third edition Dodds includes new sections considering the rise of populism and economic nationalism as examples of how states people and corporations manage territorial frames for political projects such as Make America Great Again One Belt One Road and Brexit ABOUT THE SERIES The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area These pocket sized books are the perfect way to get ahead in a new subject quickly Our expert authors combine facts analysis perspective new ideas and enthusiasm to make interesting and challenging topics highly readable *Geopolitics: A Very Short Introduction* Klaus Dodds, 2014-06-26 Geopolitics is a way of looking at the world one that considers the links between political power geography and cultural diversity In certain places such as Iraq Lebanon or Israel moving a few feet either side of a territorial boundary can be a matter of life or death dramatically highlighting the connections between place and politics Even far away from these danger zones in Europe or the US for example geopolitics remains an important part of everyday life For a country's location and size as well as its sovereignty and resources all affect how the people that live there understand and interact with the wider world In this new edition Klaus Dodds takes into account several world developments that have occurred since original publication including the Arab Spring the worldwide economic crisis and the developing role of China in international politics Using wide ranging examples from historical maps to James Bond films and the rhetoric of political leaders both past and present this Very Short Introduction shows why for a full understanding of contemporary global politics it is not just smart it is essential to be geopolitical ABOUT THE SERIES The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area These pocket sized books are the perfect way to get ahead in a new subject quickly Our expert authors combine facts analysis perspective new ideas and enthusiasm to make interesting and challenging topics highly readable

**Geopolitics** Klaus Dodds, 2019 Encompassing everything from great power politics to everyday objects such as smart phones geopolitics affects citizens governments and international bodies and is far more than simply the impact of

geographical features on political developments This book considers both geopolitics intellectual historical origins and its current concerns     **The Very Short Introductions Blog Book** Oxford University Press,2014-09-01 In this free Very Short Introductions Blog Book we ve gathered 30 of our VSI authors very best blog posts on topics including history politics science and more We hope you enjoy this glimpse into the passion insight and great writing that characterizes these authors and the Very Short Introductions series     Borders Alexander C. Diener,Joshua Hagen,2024 This second edition of Borders A Very Short Introduction challenges the perception of borders as passive lines on a map revealing them instead to be integral forces in the economic social political and environmental processes that shape our lives     **Environment, Space, Place: Volume 7, Issue 2 (Fall 2015)** ,2016-05-16     Geopolitical Landscapes of Renewable Energy and Urban Growth Özsungur, Fahri,Chaychi Semsari, Mortaza,Küçük Bayraktar, Hülya,2025-02-21 The growing emphasis on energy economics and renewable energy highlights critical challenges and opportunities in global sustainability Fossil and renewable energy sources significantly influence political stability urbanization and climate change making their management essential for energy security and environmental health Renewable energy though still secondary to fossil fuels in consumption is rapidly gaining importance as countries invest in clean energy to reduce dependency and environmental impact Developing policies that promote renewable energy use is vital to addressing poverty fostering equality and achieving sustainable development Geopolitical Landscapes of Renewable Energy and Urban Growth examines the intersection of renewable energy policies geopolitical chokepoints and their influence on urbanization and global energy security It highlights the importance of transitioning to renewable energy to address environmental challenges reduce dependency on fossil fuels and promote sustainable development across diverse regions Covering topics such as artificial intelligence AI human capital and wave energy this book is an excellent resource for policymakers energy economists urban planners environmental researchers professionals and more     **The United Nations: A Very Short Introduction** Jussi M. Hanhimaki,2008-10-28 The United Nations has been called everything from the best hope of mankind to irrelevant and obsolete With this much needed introduction to the UN Jussi Hanhim ki engages the current debate over the organizations effectiveness as he provides a clear understanding of how it was originally conceived how it has come to its present form and how it must confront new challenges in a rapidly changing world After a brief history of the United Nations and its predecessor the League of Nations the author examines the UN s successes and failures as a guardian of international peace and security as a promoter of human rights as a protector of international law and as an engineer of socio economic development Hanhim ki stresses that the UN s greatest problem has been the impossibly wide gap between its ambitions and capabilities In the area of international security for instance the UN has to settle conflicts be they between or within states without offending the national sovereignty of its member states and without being sidelined by strong countries as happened in the 2003 intervention of Iraq Hanhim ki also provides a clear accounting of the UN and its various arms and organizations such as

UNESCO and UNICEF and he offers a critical overview of how effective it has been in the recent crises in Rwanda and the former Yugoslavia for example and how likely it is to meet its overall goals in the future The United Nations Hanhim ki concludes is an indispensable organization that has made the world a better place But it is also a deeply flawed institution in need of constant reform About the Series Oxford's Very Short Introductions series offers concise and original introductions to a wide range of subjects from Islam to Sociology Politics to Classics Literary Theory to History and Archaeology to the Bible Not simply a textbook of definitions each volume in this series provides trenchant and provocative yet always balanced and complete discussions of the central issues in a given discipline or field Every Very Short Introduction gives a readable evolution of the subject in question demonstrating how the subject has developed and how it has influenced society Eventually the series will encompass every major academic discipline offering all students an accessible and abundant reference library Whatever the area of study that one deems important or appealing whatever the topic that fascinates the general reader the Very Short Introductions series has a handy and affordable guide that will likely prove indispensable

**Puritanism: A Very Short Introduction** Francis J. Bremer, 2009-07-24 Written by a leading expert on the Puritans this brief informative volume offers a wealth of background on this key religious movement This book traces the shaping triumph and decline of the Puritan world while also examining the role of religion in the shaping of American society and the role of the Puritan legacy in American history Francis J. Bremer discusses the rise of Puritanism in the English Reformation the struggle of the reformers to purge what they viewed as the corruptions of Roman Catholicism from the Elizabethan church and the struggle with the Stuart monarchs that led to a brief Puritan triumph under Oliver Cromwell It also examines the effort of Puritans who left England to establish a godly kingdom in America Bremer examines puritan theology views on family and community their beliefs about the proper relationship between religion and public life the limits of toleration the balance between individual rights and one's obligation to others and the extent to which public character should be shaped by private religious belief About the Series Combining authority with wit accessibility and style Very Short Introductions offer an introduction to some of life's most interesting topics Written by experts for the newcomer they demonstrate the finest contemporary thinking about the central problems and issues in hundreds of key topics from philosophy to Freud quantum theory to Islam

**The Sleeper Agent in Post-9/11 Media** Vanessa Ossa, 2023-01-01 This book examines the figure of the sleeper agent as part of post 9/11 political journalistic and fictional discourse There is a tendency to discuss the terroristic threat after 9/11 as either a faraway enemy to be hunted down by military force or on the other hand as a ubiquitous intangible threat that required constant alertness at home The missing link between these two is the sleeper agent the foreign enemy hiding among US citizens By analyzing popular television shows several US comic books and a broad variety of Hollywood films that depict sleeper agents direct or allegorically this book explores how a shift in perspective from terrorist to sleeper agent brings new insights into our understanding of post 9/11 representations of

terrorism The book's interdisciplinary focus between media studies cultural studies and American studies suggests that it will find an audience in a variety of fields including historical research narratology popular culture as well as media and terrorism studies

**Human Evolution** Bernard A. Wood, 2019 The study of human evolution is advancing rapidly New fossil evidence is adding ever more pieces to the puzzle of our past the new science of ancient DNA is completely reshaping theories of early human populations and migrations Bernard Wood traces the field of palaeoanthropology from its beginnings in the eighteenth century to the present

**The New Testament as Literature: A Very Short Introduction** Kyle Keefer, 2008-10-24 The words phrases and stories of the New Testament permeate the English language Indeed this relatively small group of twenty seven works written during the height of the Roman Empire not only helped create and sustain a vast world religion but also have been integral to the larger cultural dynamics of the West above and beyond particular religious expressions Looking at the New Testament through the lens of literary study Kyle Keefer offers an engrossing exploration of this revered religious text as a work of literature but also keeps in focus its theological ramifications Unique among books that examine the Bible as literature this brilliantly compact introduction offers an intriguing double edged look at this universal text a religiously informed literary analysis The book first explores the major sections of the New Testament the gospels Paul's letters and Revelation as individual literary documents Keefer shows how in such familiar stories as the parable of the Good Samaritan a literary analysis can uncover an unexpected complexity to what seems a simple straightforward tale At the conclusion of the book Keefer steps back and asks questions about the New Testament as a whole He reveals that whether read as a single document or as a collection of works the New Testament presents readers with a wide variety of forms and viewpoints and a literary exploration helps bring this richness to light A fascinating investigation of the New Testament as a classic literary work this Very Short Introduction uses a literary framework plot character narrative arc genre to illuminate the language structure and the crafting of this venerable text About the Series Combining authority with wit accessibility and style Very Short Introductions offer an introduction to some of life's most interesting topics Written by experts for the newcomer they demonstrate the finest contemporary thinking about the central problems and issues in hundreds of key topics from philosophy to Freud quantum theory to Islam

**Mormonism: A Very Short Introduction** Richard Lyman Bushman, 2008-04-22 Beginning with a handful of members in 1830 the church that Joseph Smith founded has grown into a world wide organization with over 12 million adherents playing prominent roles in politics sports entertainment and business Yet they are an oddity They are considered wholesome conservative and friendly on one hand and clannish weird and self righteous on the other Mormonism A Very Short Introduction explains who Mormons are what they believe and how they live their lives Written by Richard Lyman Bushman an eminent historian and practicing Mormon this compact informative volume ranges from the history of the Church of Jesus Christ of Latter day Saints to the contentious issues of contemporary Mormonism Bushman argues that Joseph Smith still

serves as the Mormons Moses Their everyday religious lives are still rooted in his conceptions of true Christianity They seek revelation to solve life s problems just as he did They believe the authority to seal families together for eternity was restored through him They understand their lives as part of a spiritual journey that started in a council in heaven before the world began just as he taught Bushman s account also describes the tensions and sorrows of Mormon life How are Mormons to hold on to their children in a world of declining moral standards and rampant disbelief How do rational educated Mormons stand up to criticisms of their faith How do single Mormons fare in a church that emphasizes family life The book also examines polygamy the various Mormon scriptures and the renegade fundamentalists who tarnish the LDS image when in fact they re not members In a time when Mormons such as Mitt Romney and Harry Reid are playing prominent roles in American society this engaging introduction enables readers to judge for themselves how Mormon teachings shape the character of believers

About the Series Oxford s Very Short Introductions series offers concise and original introductions to a wide range of subjects from Islam to Sociology Politics to Classics Literary Theory to History and Archaeology to the Bible Not simply a textbook of definitions each volume in this series provides trenchant and provocative yet always balanced and complete discussions of the central issues in a given discipline or field Every Very Short Introduction gives a readable evolution of the subject in question demonstrating how the subject has developed and how it has influenced society Eventually the series will encompass every major academic discipline offering all students an accessible and abundant reference library Whatever the area of study that one deems important or appealing whatever the topic that fascinates the general reader the Very Short Introductions series has a handy and affordable guide that will likely prove indispensable

*Documentary Film: A Very Short Introduction* Patricia Aufderheide, 2007-11-28 Documentary film can encompass anything from Robert Flaherty s pioneering ethnography *Nanook of the North* to Michael Moore s anti Iraq War polemic *Fahrenheit 9 11* from Dziga Vertov s artful Soviet propaganda piece *Man with a Movie Camera* to Luc Jacquet s heart tugging wildlife epic *March of the Penguins* In this concise crisply written guide Patricia Aufderheide takes readers along the diverse paths of documentary history and charts the lively often fierce debates among filmmakers and scholars about the best ways to represent reality and to tell the truths worth telling Beginning with an overview of the central issues of documentary filmmaking its definitions and purposes its forms and founders Aufderheide focuses on several of its key subgenres including public affairs films government propaganda particularly the works produced during World War II historical documentaries and nature films Her thematic approach allows readers to enter the subject matter through the kinds of films that first attracted them to documentaries and it permits her to make connections between eras as well as revealing the ongoing nature of documentary s core controversies involving objectivity advocacy and bias Interwoven throughout are discussions of the ethical and practical considerations that arise with every aspect of documentary production A particularly useful feature of the book is an appended list of 100 great documentaries that anyone with a serious interest in the genre should see Drawing on the author s four decades of

experience as a film scholar and critic this book is the perfect introduction not just for teachers and students but also for all thoughtful filmgoers and for those who aspire to make documentaries themselves About the Series Combining authority with wit accessibility and style Very Short Introductions offer an introduction to some of life s most interesting topics Written by experts for the newcomer they demonstrate the finest contemporary thinking about the central problems and issues in hundreds of key topics from philosophy to Freud quantum theory to Islam

Galaxies: A Very Short Introduction John Gribbin,2008-03-27 In this fascinating Very Short Introduction popular science writer John Gribben tells the story of our growing understanding of galaxies from the days before Galileo to our present day observations of our many hundreds of millions of galactic neighbors Not only are galaxies fascinating astronomical structures in themselves but their study has revealed much of what we know today about the cosmos providing a window on the Big Bang and the origins of the Universe Gribben looks at our own Milky Way Galaxy in detail from the different kinds of stars that are born within it to the origins of its magnificent spiral structure Perhaps most interesting Gribben describes the many exciting discoveries have been made about our own galaxy and about those beyond how a supermassive black hole lurks at the center of every galaxy how enormous forces are released when galaxies collide how distant galaxies provide a window on the early Universe and how the formation of young galaxies shed needed light on the mysteries of Cold Dark Matter John Gribbin is one of the best known current popular science writers His many books include the acclaimed *The Universe A Biography* *In Search of Schrodinger s Cat* and *Science A History* He has written for many newspapers and regularly contributes to radio and television documentaries and debates and also writes science fiction novels He formerly worked for *Nature* and *New Scientist* and is presently a Visiting Fellow in Astronomy at the University of Sussex

*Organizations: A Very Short Introduction* Mary Jo Hatch,2011-03-24 Organization happens in the act of working with others to accomplish a desired future state It can happen through intentionally designed activity spontaneous improvisation or some combination of the two but it always requires coordinated effort This Very Short Introduction provides a lively and thought provoking introduction to the topic

**Frozen Empires** Adrian Howkins,2017 *Frozen Empires* is a study of the ways in which imperial powers American European and South American have used and continue to use the environment and the value of scientific research to support their political claims in the Antarctic Peninsula region In making a case for imperial continuity this book offers a new perspective on Antarctic history and on global environmental politics more broadly

Science and Religion: A Very Short Introduction Thomas Dixon,2008-07-24 The debate between science and religion is never out of the news emotions run high fuelled by polemical bestsellers like *The God Delusion* and at the other end of the spectrum high profile campaigns to teach Intelligent Design in schools Yet there is much more to the debate than the clash of these extremes As Thomas Dixon shows in this balanced and thought provoking introduction many have seen

harmony rather than conflict between faith and science He explores not only the key philosophical questions that underlie the debate but also the social political and ethical contexts that have made science and religion such a fraught and interesting topic in the modern world offering perspectives from non Christian religions and examples from across the physical biological and social sciences Along the way he examines landmark historical episodes such as the trial of Galileo by the Inquisition in 1633 and the famous debate between Darwin s bulldog Thomas Huxley and Bishop Wilberforce in Oxford in 1860 The Scopes Monkey Trial in Tennessee in 1925 and the Dover Area School Board case of 2005 are explained with reference to the interaction between religion law and education in modern America ABOUT THE SERIES The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area These pocket sized books are the perfect way to get ahead in a new subject quickly Our expert authors combine facts analysis perspective new ideas and enthusiasm to make interesting and challenging topics highly readable , Fathers of the Lega George Newth,2023-08-25 This book investigates the historical roots of the Italian Republic s oldest surviving political party the populist far right Lega Nord tracing its origins to post war Italy The author examines two main case studies the Movements for Regional Autonomy MRAs the Piedmontese Movement for Regional Autonomy the MARP and the Bergamascan Movement for Autonomy the MAB both of which formed a first wave of post war populist regionalism from 1955 until 1960 The regionalist leagues which later emerged in both Piedmont and Lombardy in the 1980s and which would later form part of the Lega Nord represented in many ways a revival of the MRAs populist regionalist discourse and ideology and therefore a second wave of post war populist regionalism Despite this neither the MRAs nor the twenty year gap between these waves of activism have received the attention they deserve Drawing on a series of archival and secondary sources this book takes an innovative approach which blends concepts and theories from historical sociology and political science It also provides a nuanced examination of the continuities and discontinuities between the MRAs and the Lega from the 1950s until time of publication This contributes to debates not only in contemporary Italian history but also populism and the far right While rooted in historical approaches the book s interdisciplinarity makes it suitable for students and researchers across a variety of subject areas including European history modern history and political history
