The Georgics and Eclogues of Virgil; Virgil, Theodore Chickering Williams, George Herbert Palmer, 2017-08-31 **P. Vergili Maronis opera: The Eclogues and Georgics** Virgil, 1881 *Eclogues and Georgics* Virgil, 1898 *The Eclogues and Georgics* Virgil, 1881 *A Commentary on Virgil's Eclogues* Andrea Cucchiarelli, 2023-08-24 Virgil's Eclogues are a fundamental text of Western literature that served as a model for the nascent poetry of the Augustan and later of the Imperial Age Inspired by the bucolic poetry of Theocritus the work uses the apparent simplicity of rural settings to explore complex elements of poetic literary philosophical and even figurative culture and to express the drama of civil war and expropriations In this commentary accompanied by a detailed introduction Andrea Cucchiarelli analyses the Eclogues in depth establishing comparisons with both Greek and Roman poetic models with philosophical texts and with significant later texts from the Roman poetic tradition The commentary is the first to offer a systematic account of the poem in its historical context between the end of the Republic and the Age of Augustus particular attention is also paid to the language of the figurative arts which for Roman readers constituted an important complement to literary knowledge of myths and stories The volume offers the reader a reliable and concise interpretation of the text which is systematically lemmatized and annotated throughout each eclogue is additionally accompanied by an introductory overview and a detailed bibliography to direct further reading **Nature's Ideological Landscape** Kenneth Olwig, 2021-09-23 Originally published in 1984 *Nature's Ideological Language* examines the common ideological roots of environmental reclamation and nature preservation In the general context of European British and American historical experience the Jutland heaths of Denmark are taken as a concrete example for a general critique of European and American policy concerning the use of landscape Two sets of contradictions are highlighted ideological and practical between development and preservation and those between scientific historical aesthetic and recreational motivation for preservation The book is based on a study of the Jutland heath from 1750 to the present focusing on the Danish perception of the area as expressed in literary art and in economic journals topographies and government reports Against this background the development of the modern conception of nature is traced and its ideological implications and planning consequences discussed As a study of humanistic geography this book will be of interest to geographers conservationists and planners **The Eclogues and Georgics of Virgil** Virgil, George Stuart, 1925 *The eclogues, georgics, and moretum of Virgil* Virgil, 1878 *The Georgics of Virgil*, ed. by S.E. Winbolt Virgil, 1902 *The Protean Virgil* Craig Kallendorf, 2015-03-26 The Protean Virgil argues that when we try to understand how and why different readers have responded differently to the same text over time we should take into account the physical form in which they read the text as well as the text itself Using Virgil's poetry as a case study in book history the volume shows that a succession of material forms manuscript printed book illustrated edition and computer file undermines the drive toward textual and interpretive stability This stability is the traditional goal of classical scholarship which seeks to recover what

Virgil wrote and how he intended it to be understood The manuscript form served to embed Virgil's poetry into Christian culture which attempted to anchor the content into a compatible theological truth Readers of early printed material proceeded differently breaking Virgil's text into memorable moral and stylistic fragments and collecting those fragments into commonplace books Furthermore early illustrated editions present a progression of re-envisionings in which Virgil's poetry was situated within a succession of receiving cultures In each case however the material form helped to generate a method of reading Virgil which worked with this form but which failed to survive the transition to a new union of the textual and the physical This form induced instability reaches its climax with computerization which allows the reader new power to edit the text and to challenge the traditional association of Virgil's poetry with elite culture

Virgil and his Translators Susanna Braund, Zara Martirosova Torlone, 2018-09-13 This is the first volume to offer a critical overview of the long and complicated history of translations of Virgil from the early modern period to the present day transcending traditional studies of single translations or particular national traditions in isolation to offer an insightful comparative perspective The twenty nine essays in the collection cover numerous European languages from English French and German to Greek Irish Italian Norwegian Slovenian and Spanish but also look well beyond Europe to include discussion of Brazilian Chinese Esperanto Russian and Turkish translations of Virgil While the opening two contributions lay down a broad theoretical and comparative framework the majority conduct comparisons within a particular language and combine detailed case studies with in depth contextualization and theoretical background showing how the translations discussed are embedded in their own cultures and historical moments The final two essays are written from the perspective of contemporary translators closing out the volume with a profound assessment not only of the influence exerted by the major Roman poet on later literature but also why translation of a canonical author such as Virgil matters not only as a national and transnational cultural phenomenon but as a personal engagement with a literature of enduring power and relevance

The Eclogues and Georgics of Virgil Publius Vergilius Maro, 1882

Imitative Series and Clusters from Classical to Early Modern Literature Colin Burrow, Stephen J. Harrison, Martin McLaughlin, Elisabetta Tarantino, 2020-09-07 This volume shows the pervasiveness over a millennium and a half of the little studied phenomenon of multi tier intertextuality whether as linear window reference where author C simultaneously imitates or alludes to a text by author A and its imitation by author B or as multi directional imitative clusters It begins with essays on classical literature from Homer to the high Roman empire where the feature first becomes prominent then comes late antiquity a lively area of research at present and after a series of essays on European neo Latin literature from Petrarch to 1600 another area where developments are moving rapidly the volume concludes with early modern vernacular literatures Italian French Portuguese and English Most papers concern verse but prose is not ignored The introduction to the volume discusses the relevant methodological issues An Afterword outlines the critical history of window reference and includes a short essay by Professor Richard Thomas of Harvard University who coined the term in the 1980s

The works of Virgil rendered into English prose Publius Vergilius Maro,1898 *Transactions and Proceedings of the American Philological Association* American Philological Association,1925 Bibliographical record of works published by members of the Association in v 28 1897 Homosexuality and Literature: 1890-1930 Jeffrey Meyers,2016-10-06 Although artists are nowadays able to be openly gay and to address homosexuality explicitly in their work this book argues that it was the harsh climate of 1890 1930 that produced the most outstanding explorations of homosexuality To support his argument Meyers illuminates the character and creative process of a range of authors of the period including Wilde Gide Proust E M Forster and T E Lawrence and analyses the sexual problems that were sublimated and transcended in their art

Preposterous Virgil Juan Christian Pellicer,2022-06-02 This study in reception develops close readings of English literature as means of interrogating Virgil s texts Through four case studies bookended by wide ranging introductory and concluding chapters this book shows how interpreting the Eclogues Georgics and Aeneid through modern responses can serve to focus on aspects of Virgil that would otherwise be differently perceived or else escape notice altogether Juan Christian Pellicer probes our perceptions of the three Virgilian genres pastoral georgic and epic and analyzes the ways in which modern reconfigurations of these genres can inform our readings of Virgil s works as well as help us realize how our own ideas about Virgil reflect the literary receptions through which we approach his texts This book offers a practical demonstration of classical reception and its value as a critical procedure By testing the value of modern responses to Virgil as means by which to read his texts Pellicer critically examines a central tenet of reception studies of classical authors namely that our understanding of their work can benefit from the receptions through which we perceive them The reader will find Virgil s texts reconfigured in challenging new ways and will find new appreciations of the classical traditions that inform key texts in the English canon *Early Journals and Letters of Fanny Burney, Volume 1* Lars E. Troide,1988-05-01 Volume One is the first of a projected twelve volume edition of Burney s early journals and letters and covers the years 1768 73 This edition reproduces her earliest journals in their original form replacing omitted and altered passages It shows her development as an artist and contains typically vivid sketches of her family friends and acquaintances in London and the country Further volumes will cover the so called Streatham Years 1778 86 4 vols and Court Years 1786 91 6 vols These will carry her through the period of her greatest fame as the author of the novels *Evelina* 1778 and *Cecilia* 1782 and will end with her exit from the Court of King George III and Queen Charlotte after five exhausting years of service to the Queen as Second Keeper of the Robes Eighteenth century scholars generally regard Fanny s early journals as her freshest and most appealing This edition complements Joyce Hemlow s Oxford edition of Burney s letters and journals from 1791 to 1840 12 vols Oxford 1972 84 While the early journals have been printed before Lars Troide s edition will provide the first full text of Fanny s early journals accompanied by thorough and accurate annotations which fully explicate the context in which the journals were written **The Nation** ,1878 **The Global History of Organic Farming** Gregory Allen Barton,2018 Roots of the
