**German-Jewish Popular Culture Before the Holocaust** David A. Brenner, 2008-07-08 Using modern social theory David Brenner examines how German Jewish identity was influenced by the production and consumption of popular culture

Resistance Shane Moran, 2021-04-19 In *Resistance* Sol Plaatje and South Africa Shane Moran studies Sol Plaatje the founding secretary of what was to become the African National Congress ANC and his work within the context of colonial politics and resistance Arguing for a return to the study of one of the founders of anti racism Moran explores issues of land reform human rights and the legacy of colonialism Through an in depth analysis of Plaatje s resistance to racial domination Moran examines the nature of the struggles that continue within and beyond South Africa today In particular Moran analyzes events from the beginning of the previous century that shaped post 1994 South Africa such as the resolution of the ANC to expropriate land without compensation

**2010** Redaktion Osnabrück, 2011-06-16 *Genocide, Mass Atrocity, and War Crimes in Modern History* James Larry Taulbee, 2017-02-06 Defining genocide as an international crime this two volume set provides a comparative study of historical cases of genocide and mass atrocity clearly identifying the factors that produced the attitudes and behaviors that led to them discusses the reasons for rules in war and examines how the five principles laid out in the Geneva Conventions and other international agreements have functioned in modern warfare Written by an expert on international politics and law *Genocide Mass Atrocity and War Crimes in Modern History* Blood and Conscience is an easy to understand resource that explains why genocides and other atrocities occur why humanity saw the need to create rules that apply during war and how culture rules about war and the nature of war intersect The first volume addresses the history and development of the normative regimes that define genocide and mass atrocity Through a comparative study of historical cases that pay particular attention to the factors involved in producing the attitudes and behaviors that led to the incidents of mass slaughter and mistreatment the author identifies the reasons that genocides and mass atrocities in the 20th century were largely ignored until the early 1990s and why even starting then responses were inconsistent The second book discusses why rules in war exist which factors may lead to the adoption of rules what defines a war crime and how the five fundamental principles laid out in the Geneva Conventions and other international agreements have actually functioned in modern warfare It also poses and answers the interesting question of why we should obey rules when our opponents do not The final chapter examines what actions could serve to identify future situations in which mass atrocities may occur and identifies the problems of timely humanitarian intervention in international affairs

**Middlebrow Literature and the Making of German-Jewish Identity** Jonathan M. Hess, 2010-03-12 For generations of German speaking Jews the works of Goethe and Schiller epitomized the world of European high culture a realm that Jews actively participated in as both readers and consumers Yet from the 1830s on Jews writing in German also produced a vast corpus of popular fiction that was explicitly Jewish in content audience and function *Middlebrow Literature and the Making of German Jewish Identity* offers

the first comprehensive investigation in English of this literature which sought to navigate between tradition and modernity between Jewish history and the German present and between the fading walls of the ghetto and the promise of a new identity as members of a German bourgeoisie This study examines the ways in which popular fiction assumed an unprecedented role in shaping Jewish identity during this period It locates in nineteenth century Germany a defining moment of the modern Jewish experience and the beginnings of a tradition of Jewish belles lettres that is in many ways still with us today

*Gender, Orientalism and the Jewish Nation* Lynne M. Swarts, 2020-01-23 Ephraim Moses Lilien 1874 1925 was one of the most important Jewish artists of modern times As a successful illustrator photographer painter and printer he became the first major Zionist artist Surprisingly there has been little in depth scholarly research and analysis of Lilien's work available in English making this book an important contribution to historical and art historical scholarship Concentrating mainly on his illustrations for journals and books Lynne Swarts acknowledges the importance of Lilien's groundbreaking male iconography in Zionist art but is the first to examine Lilien's complex and nuanced depiction of women which comprised a major dimension of his work Lilien's female images offer a compelling glimpse of an alternate independent and often sexually liberated modern Jewish woman a portrayal that often eluded the Zionist imagination Using an interdisciplinary approach to integrate intellectual and cultural history with issues of gender Jewish history and visual culture Swarts also explores the important fin de siècle tensions between European and Oriental expressions of Jewish femininity The work demonstrates that Lilien was not a minor figure in the European art scene but a major figure whose work needs re-reading in light of his cosmopolitan and national artistic genius Longing, Belonging, and the Making of Jewish Consumer Culture Gideon

Reuveni, Nils H. Roemer, 2010 The Institute of Jewish Studies founded in 1954 by the late Alexander Altmann is dedicated to the promotion of all aspects of scholarship in Jewish Studies and related fields Its programmes include public lectures seminars and annual conferences All lectures and conferences are open to the general public Jewish history has been extensively studied from social political religious and intellectual perspectives but the history of Jewish consumption and leisure has largely been ignored The hitherto neglect of scholarship on Jewish consumer culture arises from the tendency within Jewish studies to chronicle the production of high culture and entrepreneurship Yet consumerism played a central role in Jewish life This volume is the first of its kind to deal with the topic of Jewish consumer culture It gives new insights on Jewish belongings and longings and provides multiple readings of Jewish consumer culture as a vehicle of integration and identity in modern times

**Rabbinic Theology and Jewish Intellectual History** Meir Seidler, 2013 This book examines the thought and legacy of Rabbi Loew the Maharal one of the most important Jewish thinkers Taking a multi-disciplinary approach the book encompasses organized perspectives that range from East European cultural and intellectual history to Medieval Jewish intellectual history and its legacies to Rabbinic theology to Italian Jewish history to Early Modern Jewish intellectual history to Maharal Studies to Postmodernism and Judaism to Jewish political theory Comparative Religion and

Cinematic Studies      *Israeli Holocaust Research* Boaz Cohen,2013 This book traces the development of Holocaust research in Israel from the late 1940s its consolidation as an academic subject and the establishment and development of Yad Vashem It contextualises this evolution in terms of developments in Europe and the US as well as public discourse on the Holocaust

**Jewish Education and History** Moshe Aberbach,2009-06-02 Education is at the centre of Jewish life and this book charts that development from the earliest periods through to the present With a special emphasis on the key Talmudic period the author has carefully scrutinised both Jewish texts as well as the Greco Roman sources to provide a comprehensive history

**The Name of God in Jewish Thought** Michael T Miller,2015-10-16 One of the most powerful traditions of the Jewish fascination with language is that of the Name Indeed the Jewish mystical tradition would seem a two millennia long meditation on the nature of name in relation to object and how name mediates between subject and object Even within the tide of the 20th century s linguistic turn the aspect most notable in the almost entirely secular Jewish philosophers is that of the personal name here given pivotal importance in the articulation of human relationships and dialogue *The Name of God in Jewish Thought* examines the texts of Judaism pertaining to the Name of God offering a philosophical analysis of these as a means of understanding the metaphysical role of the name generally in terms of its relationship with identity The book begins with the formation of rabbinic Judaism in Late Antiquity travelling through the development of the motif into the Medieval Kabbalah where the Name reaches its grandest and most systematic statement and the one which has most helped to form the ideas of Jewish philosophers in the 20th and 21st Century This investigation will highlight certain metaphysical ideas which have developed within Judaism from the Biblical sources and which present a direct challenge to the paradigms of western philosophy Thus a grander subtext is a criticism of the Greek metaphysics of being which the west has inherited and which Jewish philosophers often subject to challenges of varying subtlety it is these philosophers who often place a peculiar emphasis on the personal name and this emphasis depends on the historical influence of the Jewish metaphysical tradition of the Name of God Providing a comprehensive description of historical aspects of Jewish Name Theology this book also offers new ways of thinking about subjectivity and ontology through its original approach to the nature of the name combining philosophy with text critical analysis As such it is an essential resource for students and scholars of Jewish Studies

Philosophy and Religion      **Zionism, the German Empire, and Africa** Axel Stähler,2018-11-05 *Zionism the German Empire and Africa* explores the impact on the self perception and culture of early Zionism of contemporary constructions of racial difference and of the experience of colonialism in imperial Germany More specifically interrogating in a comparative analysis material ranging from mainstream satirical magazines and cartoons to literary aesthetic and journalistic texts advertisements postcards and photographs monuments and campaign medals ethnographic exhibitions and publications popular entertainment political speeches and parliamentary reports the book situates the short lived but influential Zionist satirical magazine *Schlemiel* 1903 07 in an extensive network of nodal clusters of varying and shifting significance and with

differently developed strains of cohesion or juncture that roughly encompasses the three decades from 1890 to 1920      *The Holocaust and Representations of Jews* K. Hannah Holtschneider, 2014-03-21 This book examines how prominent national exhibitions in Europe represent the Jewish minority and its cultural and religious self understandings historically and today in particular in the context of the Holocaust      *Jewish Blood* Mitchell Hart, 2009-06-02 This book deals with the Jewish engagement with blood animal and human real and metaphorical Concentrating on the meaning or significance of blood in Judaism the book moves this highly controversial subject away from its traditional focus exploring how Jews themselves engage with blood and its role in Jewish identity ritual and culture With contributions from leading scholars in the field the book brings together a wide range of perspectives and covers communities in ancient Israel Europe and America as well as all major eras of Jewish history biblical Talmudic medieval and modern Providing historical religious and cultural examples ranging from the Blood Libel through to the poetry of Uri Zvi Greenberg this volume explores the deep continuities in thought and practice related to blood Moreover it examines the continuities and discontinuities between Jewish and Christian ideas and practices related to blood many of which extend into the modern contemporary period The chapters look at not only the Jewish and Christian interaction but the interaction between Jews and the individual national communities to which they belong including the complex appropriation and rejection of European ideas and images undertaken by some Zionists and then by the State of Israel This broad ranging and multidisciplinary work will be of interest to students of Jewish Studies History and Religion      *War and Peace in Jewish Tradition* Yigal Levin, Amnon Shapira, 2012-03-15 The transition between the reality of war and a hope for peace has accompanied the Jewish people since biblical times However the ways in which both concepts are understood have changed many times over the ages and both have different implications for an independent nation in its own land than they do for a community of exiles living as a minority in foreign countries This book explores the concepts of war and peace throughout the history of Judaism Combining three branches of learning classical Jewish sources from the Bible to modern times related academic disciplines of Jewish studies humanities social and political sciences and public discussion of these issues on political military ideological and moral levels contributors from Israel and the USA open new vistas of investigation for the future as well as an awareness of the past Chapters touch on personal and collective morality in warfare survival though a long and often violent history and creation of some of the world's great cultural assets in literature philosophy and religion as well as in the fields of community life and social autonomy An important addition to the current literature on Jewish thought and philosophy this book will be of considerable interest to scholars working in the areas of Jewish Studies theology modern politics the Middle East and biblical studies      **A History of Czechs and Jews** Martin Wein, 2015-02-11 Was Israel founded by Czechoslovakia A History of Czechs and Jews examines this question and the resulting findings are complex Czechoslovakia did provide critical secret military sponsorship to Israel around 1948 but this alliance was short lived and terminated with the Prague Trial of 1952 Israel's Czech guns were German

as much as Czech and the Soviet Union strongly encouraged Czechoslovakia's help for Israel. Most importantly, however, the Czechoslovak-Israeli military cooperation was only part of a much larger picture. Since the mid 1800s, Czechs and Jews have been systematically comparing themselves to each other in literature, music, politics, diplomacy, media, and historiography. A shared perception of similar fates of two small nations trapped between East and West in constant existential danger helped forge a Czech-Jewish national friendship amid periods of estrangement. Yet this Czech-Jewish national friendship, an idea that can be traced from Masaryk and Kafka via Weizman and Ben-Gurion to Havel and Netanyahu, was more myth than reality. Relations were often mixed and highly dependent on larger historical developments affecting Central Europe and the Middle East. As the Czech Republic emerges as Israel's main EU ally, this book provides a timely analysis of this old-new alliance and is essential reading for students and scholars with an interest in History and Jewish Studies.

*Rabbis of our Time* Marek Čejka, Roman Kořan, 2015-10-16 The term *rabbi* predominantly denotes Jewish men qualified to interpret the Torah and apply halacha or those entrusted with the religious leadership of a Jewish community. However, the role of the *rabbi* has been understood differently across the Jewish world. While in Israel they control legally powerful rabbinical courts and major religious-political parties in the Jewish communities of the Diaspora, this role is often limited by legal regulations of individual countries. However, the significance of past and present rabbis and their religious and political influence endures across the world. *Rabbis of Our Time* provides a comprehensive overview of the most influential rabbinical authorities of Judaism in the 20th and 21st Century. Through focussing on the most theologically influential rabbis of the contemporary era and examining their political impact, it opens a broader discussion of the relationship between Judaism and politics. It looks at the various centres of current Judaism and Jewish thinking, especially the State of Israel and the USA, as well as locating rabbis in various time periods. Through interviews and extracts from religious texts and books authored by rabbis, readers will discover more about a range of rabbis from those before the formation of Israel to the most famous Chief Rabbis of Israel, as well as those who did not reach the highest state religious functions but influenced the relation between Judaism and Israel by other means. The rabbis selected represent all major contemporary streams of Judaism from ultra-Orthodox Haredi to Reform and Liberal currents and together create a broader picture of the scope of contemporary Jewish thinking in a theological and political context. An extensive and detailed source of information on the varieties of Jewish thinking influencing contemporary Judaism and the modern State of Israel, this book is of interest to students and scholars of Jewish Studies as well as Religion and Politics.

**Jewish Cryptotheologies of Late Modernity** Agata Bielik-Robson, 2014-08-13 This book aims to interpret Jewish Philosophy in terms of the Marrano phenomenon as a conscious clinamen of philosophical forms used in order to convey a secret message which cannot find an open articulation. The Marrano phenomenon is employed here in the domain of modern philosophical thought where an analogous tendency can be seen: the clash of an open idiom and a secret meaning which transforms both the medium and the message. Focussing on key figures of late modern twentieth-century Jewish

thought Hermann Cohen Gershom Scholem Walter Benjamin Franz Rosenzweig Theodor Adorno Ernst Bloch Jacob Taubes Emmanuel Levinas and Jacques Derrida this book demonstrates how their respective manners of conceptualization swerve from the philosophical mainstream along the Marrano secret curve Analysing their unique contribution to the unfinished project of modernity including issues of the future of the Enlightenment modern nihilism and post secular negotiation with religious heritage this book will be essential reading for students and researchers with an interest in Jewish Studies and Philosophy

*Rabbinic Judaism* David Kraemer, 2015-09-07 In the aftermath of the conquest of the Holy Land by the Romans and their destruction of the Jerusalem Temple in 70 CE Jews were faced with a world in existential chaos both they and their God were rendered homeless In a religious tradition that had equated Divine approval with peaceful dwelling on the Land this situation was intolerable So the rabbis aspirants for leadership of the post destruction Jewish community appropriated inherited traditions and used them as building blocks for a new religious structure Not unexpectedly given the circumstances this new rabbinic formation devoted considerable attention to matters of space and place *Rabbinic Judaism Space and Place* offers the first comprehensive study of spatiality in Rabbinic Judaism of late antiquity exploring how the rabbis reoriented the Jewish relationship with space and place following the destruction of the Jerusalem temple Drawing upon the insights of theorists such as Tuan and LeFebvre who define the crisis that homelessness represents and argue for the deep relationship of human societies to their places the book examines the compositions of the rabbis and discovers both a surprisingly aggressive rabbinic spatial imagination as well as places most notably the synagogue where rabbinic attention to space and place is suppressed or absent It concludes that these represent two different but simultaneous rabbinic strategies for re placing God and Israel strategies that at the same time allow God and Israel to find a place anywhere This study offers new insight into the centrality of space and place to rabbinic religion after the destruction of the Temple and as such would be a key resource to students and scholars interested in rabbinic and ancient Judaism as well as providing a major new case study for anthropologists interested in the study of space

**Boundaries, Identity and belonging in Modern Judaism** Maria Diemling, Larry Ray, 2015-09-07 The drawing of boundaries has always been a key part of the Jewish tradition and has served to maintain a distinctive Jewish identity At the same time these boundaries have consistently been subject to negotiation transgression and contestation The increasing fragmentation of Judaism into competing claims to membership from Orthodox adherence to secular identities has brought striking new dimensions to this complex interplay of boundaries and modes of identity and belonging in contemporary Judaism *Boundaries Identity and Belonging in Modern Judaism* addresses these new dimensions bringing together experts in the field to explore the various and fluid modes of expressing and defining Jewish identity in the modern world Its interdisciplinary scholarship opens new perspectives on the prominent questions challenging scholars in Jewish Studies Beyond simply being born Jewish observance of Judaism has become a lifestyle choice and active assertion Addressing the demographic changes brought by population mobility and

marrying out as well as the complex relationships between Israel and the Diaspora this book reveals how these shifting boundaries play out in a global context where Orthodoxy meets innovative ways of defining and acquiring Jewish identity This book is essential reading for students and scholars of Jewish Studies as well as general Religious Studies and those interested in the sociology of belonging and identities
