living in my native country of Saint Lucia Additionally I review the world its beauty and its history Humanity has reached a milestone While in Saint Lucia I noted several alien sightings and have shared my observations of these sightings through this book I reviewed many natural and historical observations have looked at the world and saw the wonder it contains The reader will see references to Mind Probe technology This technology is used by governments with the technology to conduct systematic checks on people of interest I became aware of the technology while living in Saint Lucia because of the alien sightings I witnessed and the conclusions I drew from those sightings It is imperative that as a society we do not perceive these alien visitors as a threat It is my summation that they can be the harbingers of great technology and enhanced medical care that will benefit humanity I hope that with the writing of this book the scientific community and committee that discusses these phenomena will welcome me as a member because I believe I can contribute greatly to their investigation of the alien presence that I surmise have been visiting earth for thousands if not millions of years **The Films of Robin**

First Ladies and American Women Jill Abraham Hummer,2017-03-17 Unelected but expected to act as befits her office the first lady has what Pat Nixon called the hardest unpaid job in the world Michelle Obama championed military families with the program Joining Forces Four decades earlier Pat Nixon traveled to Africa as the nation s official representative And nearly four decades before that Lou Hoover took to the airwaves to solicit women s help in unemployment relief Each first lady has in her way been intimately linked with the roles rights and responsibilities of American women Pursuing this connection First Ladies and American Women reveals how each first lady from Lou Henry Hoover to Michelle Obama has reflected and responded to trends that marked and unified her time Jill Abraham Hummer divides her narrative into three distinct epochs In the first stretching from Lou Hoover to Jacqueline Kennedy we see the advent of women s involvement in politics following women s suffrage as well as pressures on family stability during depression war and postwar uncertainty Next comes the second wave of the feminist movement from Lady Bird Johnson s tenure through Rosalyn Carter s when equality and the politics of the personal issues prevailed And finally we enter the charged political and partisan environment

over women's rights and the politics of motherhood in the wake of the conservative backlash against feminism after 1980 from Nancy Reagan to Michelle Obama Throughout Hummer explores how background personality ambitions and her relationship to the president shaped each first lady's response to women in society and to the broader political context in which each administration functioned and how in turn these singular responses reflect the changing role of women in American society over nearly a century
