Adaptive Hot Cognition: How Emotion Drives Information Processing and Cognition Steers Affective Processing Mariska E. Kret, Bruno R. Bocanegra, 2017-05-02 Influential theories have argued that affective processing is fundamentally different from cognitive processing Others have suggested that theoretical boundaries between affective and cognitive processing are artificial and inherently problematic Over recent years different positions on these issues have fueled many empirical studies investigating the mechanisms underlying cognitive and affective processing Where and on what basis should we draw the line between cognition and emotion Are there fundamental distinctions to be made between the way emotion influences cognition and cognition influences emotion How does the reciprocal interaction between emotion and cognition lead to adaptive behavior This Research Topic explores the nature of the reciprocal interaction between emotion and cognition from a functional perspective

Animaladies Lori Gruen, Fiona Probyn-Rapsey, 2018-11-29 Do depictions of crazy cat ladies obscure more sinister structural violence against animals hoarded in factory farms Highlighting the frequent pathologization of animal lovers and animal rights activists this book examines how the madness of our relationships with animals intersects

with the madness of taking animals seriously The essays collected in this volume argue that animaladies are expressive of political and psychological discontent and the characterization of animal advocacy as mad or crazy distracts attention from broader social unease regarding human exploitation of animal life While allusions to madness are both subtle and overt they are also very often gendered thought to be overly sentimental with an added sense that emotions are being directed at the wrong species Animaladies are obstacles for the political uptake of interest in animal issues as the intersections between this volume and established feminist scholarship show the fear of being labeled unreasonable or mad still has political currency
