*Representing Autism* Stuart Fletcher Murray, 2008-06-01 From concerns of an autism epidemic to the MMR vaccine crisis autism is a source of peculiar fascination in the contemporary media Discussion of the condition has been largely framed within medicine psychiatry and education but there has been no exploration of its power within representative narrative forms Representing Autism is the first book to tackle this approach using contemporary fiction and memoir writing film photography drama and documentary together with older texts to set the contemporary fascination with autism in context Representing Autism analyses and evaluates the place of autism within contemporary culture and at the same time examines the ideas of individual and community produced by people with autism themselves to establish the ideas of autistic presence that emerge from within a space of cognitive exceptionality Central to the book is a sense of the legitimacy of autistic presence as a way by which we might more fully articulate what it means to be human

**The Natural Medicine Guide to Autism** Stephanie Marohn, 2013-01-01 As autism rates in children continue to rise the latest studies suggest anywhere from 1 in 50 to 1 in 100 American children is autistic parents are scrambling to find effective treatment methods The Natural Medicine Guide to Autism offers answers by exploring a range of effective treatment options and the possibility of a positive outcome via natural medicine therapies The book covers the basics of autism what it is and what causes it and the factors that are often involved in the disorder heavy metal toxicity nutritional deficiencies imbalances food allergies digestive problems and fungal overgrowth viruses or viral overload immune

dysfunction problems in the birthing process energetic legacies from unresolved family issues in previous generations and vaccines It also covers a range of natural medicine treatments including elimination diets listening and learning skills nutritional supplements to correct imbalances cranial osteopathy to reverse birth trauma and many more A chapter is also devoted to the deeper question of what makes a child susceptible to autism Included in this discussion is the work of William J Walsch PhD whose research may well have pinpointed the genetic component of autism that has previously eluded scientific inquiry

**Autism** Abha Chauhan,Ved Chauhan,Ted Brown,2009-10-26 In 2007 the Centers for Disease Control and Prevention issued an autism alarm estimating that one in 150 children may be affected by autism spectrum disorder Autism has been treated mainly with technical approaches principally applied behavior analysis and psychopharmacology The findings in this book implicate oxidative stress as a common feat

*The Cambridge Companion to Literature and Disability* Clare Barker,Stuart Murray,2017-11-16 This Companion analyzes the representation of disability in literatures in English including American and postcolonial writing across all major time periods and through a variety of critical approaches Through the alternative ideas of mind and embodiment generated by physiological and psychological impairments an understanding of disability narrative changes the way we read literature With contributions from major figures in literary disability studies The Cambridge Companion to Literature and Disability covers a wide range of impairments including cognitive difference neurobehavioral conditions and mental and chronic illnesses This book shows how disability demands innovation in literary form and aesthetics challenges the notion of a human norm in the writing of character and redraws the ways in which writing makes meaning of the broad spectrum of humanity It will be a key resource for students and teachers of disability and literary studies

Behind the Mirror Jeanne Simons,Sabine Oishi,2021-04-20 The life story of Jeanne Simons whose own autism informed her pioneering work with autistic children Jeanne Simons devoted her career as a social worker and educator to the study treatment and care of children with autism In 1955 she established the Linwood Children s Center in Ellicott City Maryland one of the first schools dedicated to children with autism Her Linwood Model developed there was widely adopted and still forms the basis for a variety of autism intervention techniques Incredibly although unknown at the time Jeanne was herself autistic Behind the Mirror reveals the remarkable tale of this trailblazer and how she thought felt and experienced the world around her With moving immediacy Jeanne tells her life story to developmental psychologist friend and collaborator Sabine Oishi Jeanne s unique experience is supplemented by commentary from Dr Oishi who explains the importance of key biographical details and fills in additional information about the diagnosis and treatment of autism Enhanced with a photo gallery a look at new approaches to the education of children with autism and a history of Linwood since its founding the book also contains a foreword an afterword and an appendix by James C Harris MD the past director of child psychiatry at Johns Hopkins University School of Medicine and the founder of its autism clinic Demystifying the experience of autism Behind the Mirror is a groundbreaking account of possibilities and hope

*The Routledge Companion to Art and Disability* Keri Watson, Timothy W. Hiles, 2022-03-30 The Routledge Companion to Art and Disability explores disability in visual culture to uncover the ways in which bodily and cognitive differences are articulated physically and theoretically and to demonstrate the ways in which disability is culturally constructed This companion is organized thematically and includes artists from across historical periods and cultures in order to demonstrate the ways in which disability is historically and culturally contingent The book engages with questions such as How are people with disabilities represented in art How are notions of disability articulated in relation to ideas of normality hybridity and anomaly How do artists use visual culture to affirm or subvert notions of the normative body Contributors consider the changing role of disability in visual culture the place of representations in society and the ways in which disability studies engages with and critiques intersectional notions of gender race ethnicity class and sexuality This book will be particularly useful for scholars in art history disability studies visual culture and museum studies *Disability Histories* Susan Burch, Michael Rembis, 2014-12-30 The field of disability history continues to evolve rapidly In this collection Susan Burch and Michael Rembis present essays that integrate critical analysis of gender race historical context and other factors to enrich and challenge the traditional modes of interpretation still dominating the field Contributors delve into four critical areas of study within disability history family community and daily life cultural histories the relationship between disabled people and the medical field and issues of citizenship belonging and normalcy As the first collection of its kind in over a

decade Disability Histories not only brings readers up to date on scholarship within the field but fosters the process of moving it beyond the U S and Western Europe by offering work on Africa South America and Asia The result is a broad range of readings that open new vistas for investigation and study while encouraging scholars at all levels to redraw the boundaries that delineate who and what is considered of historical value Informed and accessible Disability Histories is essential for classrooms engaged in all facets of disability studies within and across disciplines Enchanted Looms Rodney Cotterill,1998 This beautifully written 1998 book examining consciousness and which received high praise in the reviews is now available in paperback **Literature and Disability** Alice Hall,2015-08-11 Literature and Disability introduces readers to the field of disability studies and the ways in which a focus on issues of impairment and the representation of disability can provide new approaches to reading and writing about literary texts Disability plays a central role in much of the most celebrated literature yet it is only in recent years that literary criticism has begun to consider the aesthetic ethical and literary challenges that this poses The author explores key debates and issues in disability studies today different forms of impairment with the aim of showing the diversity and ambiguity of the term disability the intersection between literary critical approaches to disability and feminist post colonial and autobiographical writing genre and representations of disability in relation to literary forms including novels short stories poems plays and life writing This volume provides students and academics with an accessible overview of literary critical approaches to disability representation **Adults with Autism** Stephen H. Morgan,Hugh Morgan,1996-09-28 From childhood services to adult provision the needs of an individual develop and change yet the literature addressing specific adult requirements is scarce This volume sets out to fill this gap and provides practical help and guidance specifically for those caring for the growing recognised population of adults with autism Issues of theory and practice from both local and international perspectives are included Subsequent chapters analyse the implications arising from thought and behaviour inflexibility with emphasis on the management of transition and bereavement Models for practice in employment and further education and also pharmacological and educational approaches to mental health problems epilepsy and challenging behaviour are concluded by a chapter which develops many themes of this publication as the basis for a practitioner training programme in residential settings An essential guide for all those concerned with the care and well being of adults with autism including parents researchers practitioners and community care workers Twin Allen Shawn,2010-12-30 A heartbreaking yet deeply hopeful memoir about life as a twin in the face of autism When Allen Shawn and his twin sister Mary were two Mary began exhibiting signs of what would be diagnosed many years later as autism Understanding Mary and making her life a happy one appeared to be impossible for the Shawns At the age of eight with almost no warning her parents sent Mary to a residential treatment center She never lived at home again Fifty years later as he probed the sources of his anxieties in Wish I Could Be There Shawn realized that his fate was inextricably linked to his sister s and that their natures were far from being different Twin

highlights the difficulties American families coping with autism faced in the 1950s Shawn also examines the secrets and family dramas as his father William became editor of The New Yorker Twin reconstructs a parallel narrative for the two siblings who experienced such divergent fates yet shared talents and proclivities Wrenching honest understated and poetic Twin is at heart about the mystery of being inextricably bonded to someone who can never be truly understood *Learning and Cognition in Autism* Eric Schopler, Gary B. Mesibov, 2013-06-29 This volume like the other eight in the Current Issues in Autism series grew from our annual TEACCH conference The book is not however simply a compilation of conference proceedings Instead selected conference participants whose work has already achieved national and international recognition were asked to develop chapters around their presentations Other recognized experts in areas relevant to the conference theme were also asked to contribute chapters Although we were not able to include all of the workers who have contributed to the theme this volume represents our best effort to pull together for our readers the most current knowledge and state of the art practices Although aspects of cognition learning and behavioral motivation have been touched on for relevance to autism in other books in this series the growing integration of behavioral and cognitive theories has greatly enriched our educational interventions on behalf of autism While this volume does not include all the fascinating facets of this recent integration we believe that it offers useful information to teachers parents and researchers on some of the progress produced by their interaction *Narrative Matters in Medical Contexts across Disciplines* Franziska Gygax, Miriam A. Locher, 2015-03-13 This collection of original chapters gives center stage to the concept of narrative in medical contexts The contributors come from the disciplines of literary and cultural studies linguistics psychology and medicine and work with texts as diverse as autobiographies graphic novels Renaissance medical treatises and reports short stories reflective writing creative writing and online narratives The interdisciplinary dialogue shows the richness and scope of the concept narrative and demonstrates how crucial it is for practices in the medical context as well as in the contributing disciplines The collection raises awareness of the great variety and multivocality of narratives on the experience of illness besides paying heed to the many different positions and angles from which these narratives can be perceived read and analyzed The wide range of approaches assembled in this collection provides a comprehensive view on illness and health and on the multiple ways in which they are represented in narrative **Auto/biography in Canada** Julie Rak, 2006-01-01 Auto biography in Canada Critical Directions widens the field of auto biography studies with its sophisticated multidisciplinary perspectives on the theory criticism and practice of self community and representation Rather than considering autobiography and biography as discrete genres with definable properties and rather than focusing on critical approaches the essays explore auto biography as a discourse about identity and representation in the context of numerous disciplinary shifts Auto biography in Canada looks at how life narratives are made in Canada Originating from literary studies history and social work the essays in this collection cover topics that range from queer Canadian autobiography autobiography and autism and newspaper death

notices as biography to Canadian autobiography and the Holocaust Grey Owl and authenticity France Thoret and autofiction and a new reading of *Stolen Life* the collaborative text by Yvonne Johnson and Rudy Wiebe Julie Rak's useful big picture introduction traces the history of auto biography studies in Canada While the contributors chart disciplinary shifts taking place in auto biography studies their essays are also part of the ongoing scholarship that is remaking ways to understand Canada

**Autism in a Decentered World** Alice Wexler, 2016-01-29 Autistic people are empirically and scientifically generalized as living in a fragmented alternate reality without a coherent continuous self In Part I this book presents recent neuropsychological research and its implications for existing theories of autism selfhood and identity challenging common assumptions about the formation and structure of the autistic self and autism's relationship to neurotypicality Through several case studies in Part II the book explores the ways in which artists diagnosed with autism have constructed their identities through participation within art communities and cultures and how the concept of self as story can be utilized to better understand the neurological differences between autism and typical cognition This book will be of particular interest to researchers and scholars within the fields of Disability Studies Art Education and Art Therapy
