Balance y desafíos del estado regulador, supervisor, promotor y empresario. Tomo III Héctor Santaella Quintero, 2024-01-18 Pese al dictado de la teoría económica clásica que caracteriza la intervención del Estado en la economía como puramente correctiva la experiencia nos muestra que el gran objetivo del bienestar común precisa de acciones públicas más allá de su foco en las fallas del mercado En no pocas ocasiones por diversas razones la acción directa de la Administración en los mercados como un agente económico más cobra una importancia inusitada La Administración Pública se despoja en estos eventos de su manto de autoridad y de su tradicional papel de regulador y supervisor del mercado para asumir un papel activo en el circuito económico El presente tomo estudia esta realidad En él se aborda el análisis del régimen de las actuaciones administrativas en su quehacer de responsable directo de actividades de tipo prestacional Estado prestacional e industrial y comercial Estado empresario así como en su correlativo papel de consumidor y competidor en el mercado Estado consumidor Estado competidor A lo anterior se suma el examen de algunos de los principales retos que imponen a la intervención del Estado en la economía nuestro tiempo y sus particulares crisis tendencias y afanes la gestión de preciados recursos escasos el conductualismo la globalización el cambio climático las plataformas digitales la integración regional y la estabilidad económica y fiscal Todos ellos plantean nuevas preocupaciones y condicionantes a la Administración y de una u otra forma inciden en la forma como esta cumple y ha venido cumpliendo sus responsabilidades en este frente Su estudio resulta imperioso y su valoración crítica y científica urgente A lo largo de sus diecisiete capítulos de la mano de un puñado de investigadores expertos en estos asuntos el presente tomo lleva a cabo esta labor e ilustra de forma clara y suficiente al lector sobre cuestiones poco tratadas por la doctrina del Derecho Administrativo

Associated Labor and Production in the Age of Barbarism Henrique Tahan Novaes, 2024-05-07 The book focuses on different practices of associated labor in Brazil and Argentina in the case of the workers recuperated factories over the past 40 years Novaes analyses labor practices from a critical Marxist perspective as a reaction to the misery of neoliberalism Deindustrialization austerity programs increasing commodification and international competitiveness have severely

deteriorated the living and working conditions of the majority of Latin Americans. However, alternative labor production and educational practices have developed in this increasingly ruthless neoliberal capitalism. Although they are still small, they indicate a potential way out of the capitalist mode of production. Novaes directs his special attention to the education beyond capital, which has accompanied these alternative labor and production practices from alternative job training in recuperated companies and the movement of landless rural workers MST.

Da Sociedade Mercadológica para a Sociedade Ética JOSÉ CARLOS VILAR AMIGO, 2025-05-29

O ensaio que se apresenta aqui é uma reflexão sobre os temas centrais: a capacidade das sociedades de hoje de impedirem e mesmo reverterem a destruição que vem sofrendo o planeta e a possibilidade de se estabelecer um ambiente social com bens e serviços distribuídos de forma mais equitativa e harmônica. Embora sejam temas discutidos pelas lideranças políticas do mundo, os resultados práticos se mostram positivos. Esta análise é explicada de forma original pela forma como os agrupamentos humanos regulam o seu funcionamento e mantêm a solidariedade entre os indivíduos que o compõem. O regulador dominante nas sociedades contemporâneas é o Mercado, com letra maiúscula para diferenciá-lo do local onde se dão as transações comerciais. Sociedade por ele regulada, chamamos de Sociedade Mercadológica. Ela voltada para o consumo compulsivo, acumula o dinheiro e recursos em poucas mãos e para o econômico, criando um ambiente que inviabiliza a superação dos desafios de conter a destruição do planeta e de criar um ambiente social favorável à equidade entre as pessoas, os quais, dentro da visão que norteia este ensaio, só serão superados pelo regulador tático baseado no respeito e empatia ao humano e à Natureza. Com este olhar, perguntamos: possível que as transformações sociais em curso direcionem a humanidade da Sociedade Mercadológica para a ética? A expectativa é que o leitor possa refletir e responder a esta pergunta acompanhando o roteiro deste ensaio.

The International Handbook of Social Enterprise Law Henry Peter, Carlos Vargas Vasserot, Jaime Alcalde Silva, 2022-12-29

This open access book brings together international experts who shed new light on the status of social enterprises, benefit corporations, and other purpose-driven companies. The respective chapters take a multidisciplinary approach, combining law, philosophy, history, sociology, and economics, and provide valuable insights on fostering social entrepreneurship and advancing the common good. In recent years, we have witnessed a significant shift in how business activities are conducted, mainly through the rise of social enterprises. In an effort to target social problems at their roots, social entrepreneurs create organizations that bring transformative social changes by considering, among others, ethical, social, and environmental factors. A variety of social enterprise models are emerging internationally and are proving their vitality and importance. But what does the term social enterprise mean? What are its roots? And how does it work in practice within the legal framework of any country? This handbook attempts to answer these questions from a theoretical, historical, and comparative perspective, bringing together 44 contributions written by 71 expert researchers and practitioners in this field. The first part provides an overview of the social enterprise movement, its evolution, and the different forms entities can take to meet global challenges, overcoming the limits of what governments and states can do. The second part

focuses on the emergence of benefit corporations and the growing importance of sustainability and societal values while also analyzing their different legal forms and adaptation to their regulatory environment In turn the last part presents the status quo of purpose driven companies in 36 developed and emerging economies worldwide This handbook offers food for thought and guidance for everyone interested in this field It will benefit practitioners and decision makers involved in social and community organizations as well as in international development and more generally speaking social sciences and economics
