*Overkill* Eliot Borenstein, 2011-05-02 Perestroika and the end of the Soviet Union transformed every aspect of life in Russia and as hope began to give way to pessimism popular culture came to reflect the anxiety and despair felt by more and more Russians Free from censorship for the first time in Russia's history the popular culture industry publishing film and television began to disseminate works that featured increasingly explicit images and descriptions of sex and violence In *Overkill* Eliot Borenstein explores this lurid and often disturbing cultural landscape in close imaginative readings of such works as *You're Just a Slut My Dear Ty prosto shliukha dorogaia* a novel about sexual slavery and illegal organ harvesting the *Nympho* trilogy of books featuring a Chechen fighting sex addict and the *Mad Dog* and *Antikiller* series of books and films recounting respectively the exploits of the Russian Rambo and an assassin killing in the cause of justice Borenstein argues that the popular cultural products consumed in the post perestroika era were more than just diversions they allowed Russians to indulge their despair over economic woes and everyday threats At the same time they built a notion of nationalism or heroism that could be maintained even under the most miserable of social conditions when consumers felt most powerless For Borenstein the myriad depictions of deviance in pornographic and also detective fiction with their patently excessive and appalling details of social and moral decay represented the popular culture industry's response to the otherwise unimaginable scale of Russia's national collapse The full sense of collapse he writes required a panoptic view that only the media and culture industry were eager to provide amalgamating national collapse into one master narrative that would then be readily available to most individuals as a framework for understanding their own suffering and their own fears

**A European Version of Victorian Fiction** Allan Conrad Christensen, 2023-04-12 In this first systematic assessment of Ruffini's literary achievement the seven novels that are apparently so different from each other

emerge as an aesthetically coherent and individualized contribution to the mid Victorian fictional canon Composed in English by an Italian exile resident in Paris they describe interactions among men and women of many nationalities and trace interesting European journeys and pilgrimages during the early days of mass tourism While thus documenting such phenomena as expanding rail networks holiday resorts and health spas the novels dramatize more importantly the inadequacy of narrowly local and intolerant perspectives The protagonists must gain a broadly cosmopolitan vision and sense of mutuality as they pursue the common quest for self integration and for a purpose in life A patriotic commitment like that which had engaged Ruffini in his youthful Mazzinian phase cannot now offer that purpose and the narratives convey strong scepticism about other ideals such as romantic love too More positively the stories contain many dedicated physicians who practice a holistic medicine and who thereby substitute for the often sinister priests of a corrupt religious establishment Ministering to the humanity that Ruffini typically portrays as sick or wounded and tormented by misanthropy and guilt they are the chief mitigators of the bleakness of the modern condition
