(Organization), 1998 **Splendid Solution** Jeffrey Kluger, 2006-02-07 The compelling true story of Dr Jonas Salk's quest to develop a vaccine for polio In 1916 the United States was hit with one of the worst polio epidemics in history The disease was a terrifying enigma striking out of nowhere it afflicted tens of thousands of children and left them literally overnight paralyzed Others it simply killed At the same time a child named Jonas Salk was born When Franklin Delano Roosevelt was diagnosed with polio shortly before assuming the Presidency Salk was given an impetus to study this deadly illness After assisting in the creation of an influenza vaccine Salk took up the challenge His progress in combating the virus was hindered by the politics of medicine and by a rival researcher determined to discredit his proposed solution But Salk's perseverance made history and for close to seventy years his vaccine has saved countless lives bringing humanity close to eradicating polio throughout the world Splendid Solution chronicles Dr Salk's race against time to achieve an unparalleled breakthrough that

made him a cultural hero and icon of modern medicine *The Architectural Model* Matthew Mindrup, 2019-10-08 An investigation of different uses for the architectural model through history as sign souvenir funerary object didactic tool medium for design and architect's muse For more than five hundred years architects have employed three dimensional models as tools to test refine and illustrate their ideas But as Matthew Mindrup shows the uses of physical architectural models extend beyond mere representation An architectural model can also simulate instruct inspire and generate architectural designs It can be among other things sign souvenir toy funerary object didactic tool medium or muse In this book Mindrup surveys the history of architectural models by investigating their uses both theoretical and practical Tracing the architectural model's development from antiquity to the present Mindrup also offers an interpretive framework for understanding each of its applications in the context of time and place He first examines models meant to portray extant fantastic or proposed structures describing their use in ancient funerary or dedicatory practices in which models are endowed with magical power as a medium for architectural reverie and inspiration and as prototypes for twentieth century experimental designs Mindrup then considers models that exemplify certain architectural uses exploring the influence of Leon Battista Alberti's dictum that models be simple lest they distract from the architect's ideas analyzing the model as a generative tool and investigating allegorical analogical and anagogical interpretations of models Mindrup's histories show how the model can be a surrogate for the architectural structure itself or for the experience of its formal tactile and sensory complexity and beyond that that the manipulation play experimentation and dreaming enabled by models allow us to imagine architecture in new ways **Tubular Structures XI** Jeffrey A.
