Reconfiguring the Fifteenth-Century Crusade Norman Housley, 2017-02-20 This collection of essays by eight leading scholars is a landmark event in the study of crusading in the late middle ages It is the outcome of an international network funded by the Leverhulme Trust whose members examined the persistence of crusading activity in the fifteenth century from three viewpoints goals agencies and resonances The crusading fronts considered include the conflict with the Ottoman Turks in the Mediterranean and western Balkans the Teutonic Order's activities in the Baltic region and the Hussite crusades The authors review criticism of crusading propaganda on behalf of the crusade the influence on crusading of demands for Church reform the impact of printing expanding knowledge of the world beyond the Christian lands and new sensibilities about the sufferings of non combatants **Bulletin of Dr. Williams's Library** Dr. Williams's Library, 1967 **George of Bohemia**

Frederick Gotthold Heymann, 2015-12-08 Anarchy followed the Hussite Revolution in Bohemia until George of Poděbrady was elected king Professor Heymann shows how the Roman Catholic Church failed to dislodge George from his royal authority and how the Bohemian king prevented the destruction of the Czech reformation enabling it to influence to an extent not fully appreciated the development of European reform ideas up to the age of the German and Swiss Reformation Originally published in 1965 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 Library of Congress Catalog Library of Congress, 1965 A
