George Condo George Condo, Thomas Kellein, 2005. American painter George Condo, who was born in New Hampshire in 1957, has occupied a prominent position in the Western art scene from Cologne to New York for more than twenty years. He regularly succeeds in surprising viewers with his grotesque, often tradition-conscious and almost classically Surrealistic paintings. Condo's own models and partners in dialogue range from Goya and Velázquez to Picasso and Warhol in whose Factory he earned this living for a brief period in the early eighties. Along with Jean-Michel Basquiat, Keith Haring and Julian Schnabel, he was instrumental in the international revival of painting after 1982. This retrospective publication focuses on Condo's favorite subject, women. Featuring some fifty paintings, forty drawings and five sculptures, the book presents a motif that appears in various forms in his art: in nudes, portraits and art-historical collages. Apart from Picasso and Matisse, no other twentieth-century artist has dealt with this theme as intensely and imaginatively as George Condo. BOOK JACKET
