Implementing and Analyzing Performance Assessments in Teacher Education Joyce E. Many, Ruchi Bhatnagar, 2017-12-01

Teacher education has long relied on locally developed assessments that lack reliability and validity Rigorous performance based assessments for preservice teachers have been advanced as one possible way to ensure that all students receive instruction from a high quality teacher Recently performance based assessments have been developed which focus on the application of knowledge of teaching and learning in a classroom setting Our book explores factors related to the implementation of teacher performance assessments in varying state and institutional contexts The contributors teacher educators from across the country focus on what was learned from inquiries conducted using diverse methodologies quantitative qualitative self studies and mixed methods Their research encompassed faculty supervisors cooperating teachers and students perceptions and concerns of teacher performance assessments case studies of curricular reform and or resistance analyses of experiences and needs as a result of the adoption of such assessments and examinations of the results of program alignment and reform The chapters showcase experiences which occurred during high stakes situations in implementation periods prior to high stakes adoption and in contexts where programs adopted performance assessments as an institutional policy rather than as a result of a state wide mandate Endorsements The chapters compiled for Implementing and Analyzing Performance Assessments in Teacher Education edited by Joyce E Many and Ruchi Bhatnagar present a thoughtful look at the challenges and solutions embedded in the adoption of teacher performance assessments for preservice teachers Most chapters feature edTPA the most commonly used performance assessment now mandated in numerous states and used voluntarily by other programs across the country and reveal how such assessments shine a bright light on the problems of practice in teacher preparation stressful timelines faculty silos communication with P 12 partners etc when new requirements disrupt the status quo Each chapter tells a valuable story of performance assessment implementation and approaches that offset compliance in favor of inquiry and educative experiences for candidates and programs alike

Yes, We Are Stupid in America! Dr. Vicky Wells, 2013-01-21 Students in countries such as Finland South Korea and Singapore continue to outperform their peers in America But that hasn't stopped the United States government from spending more money on education as achievement plummets Dr Vicky Wells a former school principal explores what's going on at the federal state and local levels so that members of the public can hold bureaucrats accountable In a series of reality checks she explains how to meet the growing crisis head on equip students with the necessary skills upon graduation make decisions based upon the input of real life educators and ignore politics in order to best serve students Teachers and parents trust leaders to make decisions based on what's best for the students Even so all too often decision making seems to be more about politics and quid pro quo and this does not best serve students educators or the community The educational system continues to decline and students keep dropping out or graduating without the knowledge they need to succeed Its time to stop constantly changing curriculum and start focusing on the real problems confronting teachers and students

The Education Invasion Joy Pullmann, 2017-03-14 Most Americans had no idea what Common Core was in 2013 according to polls But it had been creeping into schools nationwide over the previous three years and children were feeling its effects They cried over math homework so mystifying their parents could not help them even in elementary school They read motley assortments of informational text instead of classic literature They dreaded the high stakes tests in unfamiliar formats that were increasingly controlling their classrooms How

did this latest and most sweeping reform of American education come in mostly under the radar Joy Pullmann started tugging on a thread of reports from worried parents and frustrated teachers and it led to a big tangle of history and politics intrigue and arrogance She unwound it to discover how a cabal of private foundation honchos and unelected public officials cooked up a set of rules for what American children must learn in core K 12 classes and how the Obama administration pressured states to adopt them Thus a federalized education scheme took root despite legal prohibitions against federal involvement in curriculum Common Core and its testing regime were touted as an absolute game changer in public education yet the evidence so far suggests that kids are actually learning less under it Why then was such a costly and disruptive agenda imposed on the nation s schools Who benefits And how can citizens regain local self governance in education so their children s minds will be fed a more nourishing intellectual diet and be protected from the experiments of emboldened bureaucrats The Education Invasion offers answers and remedies
