## **Career Pathways In Psychiatry Transition In Changing Times:**

*Career Pathways in Psychiatry* Arthur Lazarus, 2013-06-17 Career transitions in psychiatry have rarely been discussed openly. Yet in the light of health care reform and other forces affecting clinical practice it is more important than ever that psychiatrists have information about the career options within their specialty. *Career Pathways in Psychiatry Transition in Changing Times* serves that purpose. It explores the professional development and career choices of prominent American psychiatrists, each of whom is identified with a particular career track and many of whom have themselves experienced one or more career transitions. The autobiographical accounts of the contributors survey a wide range of career pathways in psychiatry including clinical practice, HMO practice, research, administration, entrepreneurship, psychoanalysis, organized medicine, the pharmaceutical industry, public psychiatry, occupational psychiatry, forensic psychiatry, and military psychiatry. These accounts are as engaging as they are informative; their anecdotal nature and conversational tone make for pleasurable reading. References at the end of each chapter serve as recommended reading for those who wish to learn more about specific career options. Intended for psychiatric residents and psychiatrists early in their careers, *Career Pathways in Psychiatry* will also appeal to their more experienced colleagues including seasoned clinicians who have contemplated career changes. With a preface summarizing research on career transitions in medicine and numerous chapters shedding light on factors contributing to resistance to change, this book will also be of interest to social scientists, mental health administrators, and professional recruiters.

A Phenomenology of Career Change in the Malaysian Workforce Jennifer Yee Quan Tham,Yit Sean Chong,Pervaiz K. Ahmed,2023-07-25 Evolution in economy technology and social institutions over time have given rise to boundaryless and Protean careers that promote mobility and self direction in

managing one's career This has led to the phenomenon of career change whereby individuals undertake a shift from one field of work to a completely different field of work In career change research career changers have been studied as a collective singular group undergoing a similar change experience which neglects individual differences that may contrast the experience of change from one changer to another Furthermore the emotional experience that accompanies a career change has been examined with a primary focus on the role of positive emotions which overlooks the role of negative emotions in career change Thus this book sheds light on three key narratives of career change Rejectors Navigators and Seekers that were identified in a phenomenological study of career change amongst Malaysian working adults Semi structured interviews were conducted with 30 career changers across age gender and ethnicity with a focus on how they made sense and meaning of their lived experience of career change within their environment and context Each career change narrative was found to have different characteristics motivations and behaviors respectively which shaped their unique career change process Negative emotions were also revealed as key drivers of the career change process although each narrative expressed different types of negative emotions Finally the book also introduces an adaptive perspective to career development by way of the Adaptive Career Construal Model ACCM which was proposed based on the continuous bi directional relationship between career decisions and career outcomes

**Young Adult Development at the School-to-Work Transition** E. Anne Marshall, Jennifer E. Symonds, 2021-01-18 The school to work transition is a critical part of the human life span for young adults their families and society The timing of the transition varies greatly and its co occurrence with a number of other life transitions make it challenging to summarize or generalize Individual differences and normative developmental factors as well as external contextual factors such as global pandemics changing economic circumstances workplace demands and cultural shifts intersect to create a range of challenges and opportunities for those navigating this transition Written by internationally renowned scholars in developmental psychology applied psychology counseling and sociology the chapters in this book highlight the trends issues and actions that researchers academics practitioners and policy makers need to consider in order to effectively support young adults transition to work pathways This volume provides an explicitly international perspective on this area broad coverage of psychological topics on the school to work transition and an inclusive focus on sub groups and minority groups making it a must read for those who support young adults as they move from school to work

**Understanding Barriers to Workplace Equality: A Focus on the Target's Perspective** Michelle K. Ryan, Christopher T.

Begeny, Renata Bongiorno, Teri Kirby, Thekla Morgenroth, 2020-08-07      **Social Psychology** John DeLamater, Jessica Collett, 2018-08-15 This fully revised and updated edition of Social Psychology is an engaging exploration of the question what makes us who we are presented in a new streamlined fashion Grounded in the latest research Social Psychology explains the methods by which social psychologists investigate human behavior in a social context and the theoretical perspectives that ground the discipline Each chapter is designed to be a self contained unit for ease of use in any classroom This edition features new boxes providing research updates and test yourself opportunities a focus on critical thinking skills and an increased emphasis on diverse populations and their experiences      **Positive Psychology Coaching** Dr. Susanne Knowles, 2018-10-17 Coaching is an emerging profession across all walks of life Coaches work in communities businesses governments private and not for profit settings to assist people to grow personally and professionally More people are engaging their own life business career transition leadership or executive coaches to help them solve their life or work problems and reach their goals more quickly and easily Coaches are sounding boards to clients putting their agenda front and center and the clients back in control of their life The coach works nonjudgmentally with clients to understand their situation and needs help them become more self aware and resourceful uncover insights into themselves and what they need to do and stand side by side with them as they take the actions they need to take Why positive psychology coaching Because before people can change their behavior they often need to change their mind set A client s mind set may be positive and supportive of change or negative and is holding them back Coaching from a positive psychology perspective means that the coach and client are always focusing on what s right in life rather than what s wrong The coach works with the client to identify their limiting beliefs and reframe them into positives Together they identify solutions or goals and develop action plans to achieve these outcomes Change can happen very quickly once beliefs and actions are aligned and supported by positive affirmations that boost self esteem and self efficacy Every day we try to find meaning in life and when we don t we become confused and search for answers We can look back and despair or we can look forward into a compelling future Many people neither want nor need to see a therapist or counselor and they choose to see a professional coach instead to help them resolve their situation and find greater happiness in life      **Retirement** Gary A. Adams, Terry A. Beehr, 2003-08-11 This book reviews summarizes and integrates a diverse literature on the topic of retirement and provides a coherent view to better inform researchers and practitioners Organized around three phases of the retirement process pre retirement retirement decision making and post retirement the chapters examine economic sociological gerontological and psychological theory and research Topics discussed include types of retirement retirement planning and preparation early retirement incentive programs the economics of the retirement decision making and work after retirement among others Contributors include Jerome Kaplan Kenneth Shultz Harvey Sterns and Linda Stroh      **Thinking to Transform** Jillian M. Volpe White, Kathy L. Guthrie, Maritza Torres, 2019-12-01 In an era of constant connection it can be challenging to prioritize

time for reflection Taking time to think can feel like a luxury or even a waste time People facilitating complex leadership processes may feel the least able to pause and reflect However it is through intentional reflection that we make meaning of experiences connect ideas question assumptions and generate innovative possibilities By taking time to reflect individually and with others learners can see the full picture of an experience understand their thought processes and enhance their capacity for leadership Beyond individual reflection by engaging in reflection on social issues with others leaders can be empowered and enabled to create positive changes This book is a clarion call for educators and learners to make reflection a central priority Reflection the process of making meaning of experience and leadership a relational process for affecting change are enhanced by one another Together they strengthen the potential for leadership learning through experience This book addresses challenges for reflection in leadership learning while also connecting it to timely topics It begins with connections between reflection and leadership and then introduces a framework for reflection in leadership learning Reflection is a powerful strategy curricular and co curricular learning for instruction and assessment reflection in leadership learning can benefit from both intentional framing and feedback As socially constructed concepts both reflection and leadership have historically lacked clarity to add to the confusion critical reflection is often interchanged with reflection This book introduces a continuum of critical reflection in leadership learning In order to facilitate reflection in leadership learning educators must engage in the inner work of becoming reflective educators Finally in the face of complex social challenges reflection leadership mindfulness and resilience are juxtaposed in order to highlight how these concepts are reliant upon one another Reflection in leadership learning is essential for anyone who wants to develop their capacity for leadership When faced with complex social issues and challenges at a global scale the only way to make progress is through collective action that results from critical reflection To develop more resilient and mindful learners who can adapt to changing circumstances educators must center reflection in leadership learning as a philosophy pedagogy outcome and strategy This book provides a balance of theory and practice to empower and enable educators to engage in reflective leadership learning
