Installation Instructions

NOTE: Read the entire instruction manual before starting the installation.

SAFETY CONSIDERATIONS

Improper installation, adjustment, alteration, service, maintenance, or use can cause explosion, fire, electrical shock, or other conditions which may cause death, personal injury or property damage. Consult a qualified installer, service agency or your distributor or branch for information or assistance. The qualified installer or agency must use factory-authorized kits or accessories when modifying this product. Refer to the individual instructions packaged with the kits or accessories when installing.

Follow all safety codes. Wear safety glasses, protective clothing, and work gloves. Have a fire extinguisher available. Read these instructions thoroughly and follow all warnings and cautions included in literature and attached to the unit. Consult local building codes and the current edition of the National Electrical Code (NEC) NFPA 70. In Canada, refer to the current editions of the Canadian Electrical Code CSA C22.1.

Recognize safety information. When you see this symbol  on the unit and in instructions or manuals, be alert to the potential for personal injury. Understand the signal words **DANGER**, **WARNING**, and **CAUTION**. These words are used with the safety-alert symbol. **DANGER** identifies the most serious hazards, which will result in severe personal injury or death. **WARNING** signifies hazards, which could result in personal injury or death. **CAUTION** is used to identify unsafe practices, which may result in minor personal injury or product and property damage. **NOTE** is used to highlight suggestions which will result in enhanced installation, reliability, or operation.

INTRODUCTION

Carrier's Infinity® Smart Sensors are optional replacements for Remote Room Sensors used with Infinity® Zoning systems. It provides a temperature display and buttons to adjust the desired temperature within the zone. It also displays outdoor temperature and indoor humidity. When used with an Infinity® Touch Control wall control- FAN, HOLD and HOLD UNTIL features are available. When used with an Infinity® User Interface (UIZ) wall control- FAN, HOLD, OVERRIDE, UNOCCUPIED features are available.

INSTALLATION CONSIDERATIONS

Any zone may use an Infinity Smart Sensor. The Infinity Smart Sensor can be "home run" wired directly to the Damper Control Module, or "daisy chained" from the wall control or another Smart Sensor via 4-wire ABCD communication bus. Ordinary thermostat wire is recommended; however, solid conductor, stranded, or shielded wire may be used. Use 22 AWG or larger for normal wiring applications. Continuous wire lengths over 100 ft. should use 20 AWG or larger. Plan the connection of each Smart Sensor to provide easiest wiring route.

NOTE: Whenever possible, it is suggested to always "home run" wires back to the Damper Control Module for convenience of

troubleshooting. Using a "pig-tailed" connection, or a field supplied terminal block may be helpful in achieving proper wire termination at the Damper Control Module.

An Infinity Smart Sensor may now be used to control Zone 1. In addition, a Remote Room Sensor may also be used in the same zone. If a Remote Room Sensor is applied in the same zone, the Remote Room Sensor has temperature priority over the Smart Sensor.

INSTALLATION

Step 1 — Select Smart Sensor Location

Sensor should be mounted:

- Approximately 5 ft. (1.5m) from floor.
- Close to center of zone, preferably on inside partitioning wall.
- On section of wall without pipes or ductwork.
- Where wiring can be routed to it within wall. Avoid running directly next to other AC power.

Sensor should **NOT** be mounted:

- Close to a window, on outside wall, or next to a door leading to the outside.
- Exposed to direct light and heat from a lamp, sun, fireplace, or other temperature radiating object which may cause a false reading.
- Close to or in direct airflow from supply registers and return-air grilles.
- In areas with poor air circulation, such as behind a door or in an alcove.
- Do not run wires next to AC power lines.
