Cartesian Meditations Edmund Husserl, 2013-11-11 Sect 1
Descartes Meditations as the prototype of philosophical reflection I have particular reason for being glad that I may talk about transcendental phenomenology in this the most venerable abode of French science & France's greatest thinker Rene

Descartes gave transcendental phenomenology new impulses through his *Meditations*; their study acted quite directly on the transformation of an already developing phenomenology into a new kind of transcendental philosophy. Accordingly one might almost call transcendental phenomenology a neo Cartesianism even though it is obliged and precisely by its radical development of Cartesian motifs to reject nearly all the well known doctrinal content of the Cartesian philosophy. That being the situation I can already be assured of your interest if I start with those motifs in the *Meditationes de prima philosophia* that have so I believe an eternal significance and go on to characterize the transformations and the novel formations in which the method and problems of transcendental phenomenology originate. Every beginner in philosophy knows the remarkable train of thoughts contained in the *Meditations*. Let us recall its guiding idea. The aim of the *Meditations* is a complete reforming of philosophy into a science grounded on an absolute foundation.

The Cartesian *Meditations* translation is based primarily on the printed text edited by Professor S. Strasser and published in the first volume of *Husserliana* *Cartesianische Meditationen und Pariser Vorträge* ISBN 90 247 0214 3. Most of Husserl's emendations as given in the Appendix to that volume have been treated as if they were part of the text. The others have been translated in footnotes. Secondary consideration has been given to a typescript cited as Typescript C on which Husserl wrote in 1933 *Cartesian Meditationen*. Originaltext 1929 E. Husserl f. r. Dorion Cairns. Its use of emphasis and quotation marks conforms more closely to Husserl's practice as exemplified in works published during his lifetime. In this respect the translation usually follows Typescript C. Moreover some of the variant readings in this typescript are preferable and have been used as the basis for the translation. Where that is the case the published text is given or translated in a footnote. The published text and Typescript C have been compared with the French translation by Gabrielle Pfeiffer and Emmanuel Levinas. Paris: Armand Colin, 1931. The use of emphasis and quotation marks in the French translation corresponds more closely to that in Typescript C than to that in the published text. Often where the wording of the published text and that of Typescript C differ the French translation indicates that it was based on a text that corresponded more closely to one or the other, usually to Typescript C. In such cases the French translation has been quoted or cited in a footnote.

Porter, Wendy J. Porter, 2025-02-19 We live in a secular age or so we have been told Nevertheless the Christian church strongly believes that we still experience and in fact are surrounded by acts of transcendence encounters with God that often defy imagination and explanation And yet we do try to explain such phenomena whether theologically experientially biblically historically philosophically literarily or even or especially artistically These two volumes are more than just papers from a major conference on secularism and the pursuit of transcendence held at McMaster Divinity College in Hamilton Ontario They contain genuine attempts by people deeply engaged with their secular surroundings to explain what we mean by transcendence Transcendence has been a longstanding topic among the best thinkers of this and previous ages and the same is true for these volumes which include contributions by Charles Taylor Robert Wuthnow Merold Westphal and Christina Gschwandtner but also by a wide range of others who address the question from divergent vantage points The responses vary as much as the orientations of those involved in the pursuit of defining not only what it means to live in our secular age but to be involved in the pursuit of transcendence or even to perceive the Transcendent s pursuit of us Maurice Blanchot on Poetry and Narrative Kevin Hart, 2023-05-18 Blanchot and his writings on three major poets Mallarm H lderlin and Char provide a decisive new point of departure for English language criticism of his philosophical writings on narrative in this study by leading Blanchot scholar Kevin Hart Connecting his work to later leading figures of 20th century French philosophy including Emmanuel Levinas Simone Weil and Jacques Derrida Hart highlights the importance of Jewish philosophy and political thought to his overall conception of literature Chapters on community and negation reveal Blanchot s emphasis on the relationship between narrative and politics over the more commonly connected narrative and aesthetics By fully discussing Blanchot s elusive concept of the Outside for the first time this book progresses scholarly understandings of his entire oeuvre further This central concept engages Franz Rosenzweig s work on Abrahamic faiths enabling a reckoning on the role of suffering and literature in the wake of the Shoah with significant implications for Jewish studies more generally
