*A World of Insecurity* Thomas Hylland Eriksen, Ellen Bal, Oscar Salemink, 2010-02-02 Human security is a key element in the measure of well being and a hot topic in anthropology and development studies *A World of Insecurity* outlines a new approach to the subject The contributors expose a contradiction at the heart of conventional accounts of what constitutes human security namely that without taking non material considerations such as religion ethnicity and gender into account discussions of human security academically and in practical terms are incomplete inconclusive and deeply flawed A variety of compelling case studies indicate that in fact material security alone cannot adequately explain or fully account for human activity in a range of different settings and exposed to a variety of different threats This forceful book will expand and deepen the entire concept of human security in the process endowing it with political relevance It is an essential read for students of development studies and anthropology

Migration, Social Identities and Regionalism within the Caribbean Community Oral I. Robinson,2020-08-08 This book offers a theoretical and substantive analysis of intra Caribbean migration perception of regionalism and the construction of identities among Caribbean nationals Through a multi methods study in the 15 member countries of the Caribbean community Oral Robinson explores how intra Caribbean migrants experience living within different member countries and how these experiences and perceptions influence ideas about citizenship belonging and identity Responding directly to the lack of scholarship on how Caribbean nationals feel about integration and or free movement within their own countries and other Caribbean countries this volume attempts to understand Caribbean societies historically theoretically and methodologically proposes bases of social identities in the Caribbean and examines how intra Caribbean migrants negotiate their identities and narrate their lived experiences as intra Caribbean migrants The book offers policy solutions based upon its findings reconciling practice theory and migration policies in the Caribbean      *Blurred Borders* Jorge Duany,2011-09-12 In this comprehensive comparative study Jorge Duany explores how migrants to the United States from Cuba the Dominican Republic and Puerto Rico maintain multiple ties to their countries of origin Chronicling these diasporas from the end of World War II to the present Duany argues that each sending country s relationship to the United States shapes the transnational experience for each migrant group from legal status and migratory patterns to work activities and the connections migrants retain with their home countries Blending extensive ethnographic archival and survey research Duany proposes that contemporary migration challenges the traditional concept of the nation state Increasing numbers of immigrants and their descendants lead what Duany calls bifocal lives bridging two or more states markets languages and cultures throughout their lives Even as nations attempt to draw their boundaries more clearly the ceaseless movement of transnational migrants Duany argues requires the rethinking of conventional equations between birthplace and residence identity and citizenship borders and boundaries      **Caribbean Journeys** Karen Fog Olwig,2007-06-12 An ethnographic study of migration based on the experiences of three dispersed Caribbean families as they maintain networks across their diverse locations      **The Indian Caribbean** Lomارش Roopnarine,2018-01-19 Winner of the 2018 Gordon K and Sybil Farrell Lewis Award for the best book in Caribbean studies from the Caribbean Studies Association This book tells a distinct story of Indians in the Caribbean one concentrated not only on archival records and institutions but also on the voices of the people and the ways in which they define themselves and the world around them Through oral history and ethnography

Lommarsh Roopnarine explores previously marginalized Indians in the Caribbean and their distinct social dynamics and histories including the French Caribbean and other islands with smaller South Asian populations He pursues a comparative approach with inclusive themes that cut across the Caribbean In 1833 the abolition of slavery in the British Empire led to the import of exploited South Asian indentured workers in the Caribbean Today India bears little relevance to most of these Caribbean Indians Yet Caribbean Indians have developed an in between status shaped by South Asian customs such as religion music folklore migration new identities and Bollywood films They do not seem akin to Indians in India nor are they like Caribbean Creoles or mixed race Caribbeans Instead they have merged India and the Caribbean to produce a distinct dynamic local entity The book does not neglect the arrival of nonindentured Indians in the Caribbean since the early 1900s These people came to the Caribbean without an indentured contract or after indentured emancipation but have formed significant communities in Barbados the US Virgin Islands and Jamaica Drawing upon over twenty five years of research in the Caribbean and North America Roopnarine contributes a thorough analysis of the Indo Caribbean among the first to look at the entire Indian diaspora across the Caribbean

spheres in the new world and where migration waves from Africa Europe and Asia accompanied every political transformation over the last five centuries In Caribbean Migrations an interdisciplinary group of humanities and social science scholars study migration from a long term perspective analyzing the Caribbean s unincorporated subjects from a legal historical and cultural standpoint and exploring how despite often fractured public spheres Caribbean intellectuals artists filmmakers and writers have been resourceful at showcasing migration as the hallmark of our modern age
