Wheel of Initiation Julie Tallard Johnson, 2010-07-12 A guide to personal spiritual initiation through the transformation of habitual patterns, apathy and resistance. Based on the Native American medicine wheel, the Vedic wheel and the universal initiatory mandala. Enables readers from any tradition to initiate themselves through practices of thought transformation, narrative medicine, meditation exercises, rituals and journaling. Facilitates breaking through personal and societal illusions that perpetuate resistance and apathy. Intentions and spiritual principles, meditation and contemplation, ritual and risk taking are the conditions that comprise an initiated life. Regrettably, in modern society we do not have rites of initiation that break through the personal and societal illusions that instill and perpetuate negative habits that keep us in states of resistance. Lacking initiation practices, we often remain trapped in ways of being in the world that were formed by our past conditions and attachments. We tend to identify too strongly with the status quo which must be challenged to prevent stagnation and to encourage happiness and authenticity. Julie Tallard Johnson shows how to become initiated into an authentic life through practices of thought transformation, cultivating attention, journaling, storytelling and rituals found in the four directions of the universal mandala. She begins the Wheel of Initiation in the South where initiates set their intentions, then moves into the West where they free themselves from habitual patterns and core beliefs, then into the North, the direction of cultivating attention and unity, and finishes in the East, the direction of regeneration and initiation. Drawing upon the life experiences of those who have successfully navigated the wheel, Johnson demonstrates that once fears, assumptions and ingrained beliefs are confronted and transformed, initiates emerge ready to reenter society with renewed energy and vision that will enrich their own lives and their communities.

The Zero Point Agreement Julie Tallard Johnson, 2013-12-01 A practical guide to stop searching for meaning by creating meaning from within. Explains how we can only discover who we are by naming what we want to be and taking steps to make it a reality. Offers simple evidence-based methods to generate enthusiasm, creativity and direct spiritual experience and to co-create with the natural world as our ancestors did. Presents 11 core principles for living life from within, such as how to take full responsibility for motivation and effort, express gratitude and focus your intention. Everyone wants to experience purpose and inspiration in their lives, but the search for meaning often leaves a seeker in the hands of fate. Offering a different approach to self-discovery, one where we create our meaning from within rather than seek it from the outside world, Julie Tallard Johnson shows there is a science behind personal spiritual experiences and creativity. She reveals simple evidence-based methods that can be applied to any situation to generate enthusiasm, inspiration and direct spiritual experience and transform the inner and outer landscapes of your life. Drawing from the Heart Sutra, the I Ching, indigenous wisdom and the teachings of the Dalai

Lama Joseph Campbell and the Kadampa master Atisha Johnson outlines a practice centered on what she calls the Zero Point Agreement the realization that you are the zero point of your life that life s purpose comes from within She explains how to discover who you truly are by naming what you want to be and taking steps to make it a reality Providing 11 core principles for the Zero Point Agreement as well as thought exercises meditations and journaling practices Johnson shows how to break free from negative habitual states liberate yourself from your attachment to the behaviors of others take full responsibility for motivation and effort express gratitude focus your intention and learn to co create with the natural world She also explores how to transform repressed material and how to apply the Zero Point Agreement to heal both personal and global relationships Revealing how we can tap in to the creative creational power that lies within and around each of us Johnson offers a spiritual technology for self illumination creative restructuring of your life and manifestation of your life s purpose

Soul, World, and Idea Daniel Sherman, 2013-10-03 In its examination of two of Plato s key works *Soul World* and *Idea* An Interpretation of Plato s Republic and *Phaedo* reveals the key role that that images and our capacity for image making play in the relationship among soul world and idea This book begins and ends with a reading of the Republic Daniel Sherman turns midway to the *Phaedo* to further analyze the nature of the soul and its relation to the nature of the Ideas then returns to apply the conclusions to the rest of the Republic Sherman s focus is on the ontological and epistemological argument including attention to the dramatic detail He argues that the ontology of the Ideas in the Republic and the *Phaedo* is inseparable from the ontology of human being that is from the structure and life of the soul On this interpretation the Ideas are seen as indeed objective but as in a sense also a product of a permanent dialectical relationship The Ideas though something more than concepts do not have any real independent existence outside of this human dialectical triad of world soul and Idea The stability of the Ideas need not be grounded in a static otherworldliness and the condition of meaning is not temporally prior to human existence in general The result is a new interpretation concerning the realm of the Ideas the immortality of the soul and the lived in world of their interaction in the production of interpretive images Sherman argues that the platonic soul is immortal and the Ideas eternal wholly and solely in human dialogical activity the rest is muthologia and that the world of our experience is a product of an ongoing act of interpretation or dianoetic dialogue This reinterpretation the platonic Ideas will be especially interesting to students and scholars of classics ancient philosophy and continental philosophy
