Transactions - Newcomen Society for the Study of the History of Engineering and Technology Newcomen Society (Great Britain),1922 SCM Studyguide Anglicanism Stephen Spencer,2013-01-07 The SCM Studyguide Anglicanism offers a comprehensive introduction to the many different facets of Anglicanism Aimed at students preparing for ministry it presumes no prior knowledge of the subject and offers helpful overviews of Anglican history liturgy theology Canon Law mission and global Anglicanism More and more ordinands come from contexts in which they are no longer familiar with their own denominational identity The book fills a definite gap in the market and can be used as a textbook for a 10 week module on Anglican denominational identity The author is an experienced theological educator who has road tested the material with students in residential and non residential settings The book can also be used in courses on church history spirituality ecclesiology mission and doctrine *Family Caps, Abortion and Women of Color* Michael Camasso,2007-08-22 Fifteen years ago New Jersey became the first of over twenty states to introduce the family cap a welfare reform policy that reduces or eliminates cash benefits for unmarried women on public assistance who become pregnant The caps have lowered extra marital birth rates as intended but as Michael J Camasso shows convincingly in this provocative book they did so in a manner that few of the policys architects are willing to acknowledge publicly namely by increasing the abortion rate disproportionately among black and Hispanic women In *Family Caps Abortion and Women of Color* Camasso who headed up

the evaluation of the nation's first cap presents the cap's history from inception through implementation to his investigation and the dramatic attempts to squelch his unpleasant findings. The book is filled with devastatingly clear-cut evidence and hard-nosed data analyses yet Camasso also pays close attention to the reactions his findings provoked in policymakers both conservative and liberal who were unprepared for the effects of their crude social engineering and did not want their success scrutinized too closely. Camasso argues that absent any successful rehabilitation or marriage strategies, abortion provides a viable third way for policymakers to help black and Hispanic women accumulate the social and human capital they need to escape welfare while simultaneously appealing to liberals' passion for reproductive freedom and the neoconservatives' sense of social pragmatism. Camasso's conclusions will please no one along the political spectrum, making it all the more essential for them to be studied widely. A classic example of what can happen to research and the researcher when research findings become misaligned with political goals and strategies. *Family Caps, Abortion, and Women of Color* is sure to foment a contentious but vital discussion among all who read it.
