

CH. 7 STUDY GUIDE

The Prison Experience: Males

Chapter 7

Entering a prison

1. Total institutions; institutions that **control all aspects** of those confined there

a.) **Big House**: fortress-like prison emphasizing security and control

2. **Minimize policy**: inmates **get bare minimum** of food, services, programs, medical care as required by law

a. Examples of what inmates lose: **cable TV, free weights, and education programs.**

Classification: method of assessing inmate risks and needs that **balance** the **security** concerns of the correctional facility with the **treatment** needs of the inmate.

if effective, classification helps ensure a **safe environment for both staff and inmates.**

1. **External Classification System**: used to determine **level of security** needed for incoming prison population

2. **Internal Classification System**: used to determine the **cell and housing assignments**, as well as facility programs assigned at the prison where the inmate is confined

Advantages of classification

- Reduces institutional tension
- Improves safety for staff and inmates
- Avoids placing inmates in more secure and expensive environment than they need
- Contains gang activity
- Improves access to services for inmates with special needs.

Difficulties of adjustment: inmates often go through dehumanizing and gradation process upon entering the prison

Traditional inmate culture

1. **Acculturation**: process by which inmates learn and internalize **customs and culture** of the prison wherein they are confined.

2. **Inmate culture**: values, norms, and attitudes inmates form in order to **survive** in prison.

a. **Inmate social code**: **unwritten, informal understanding of how prison works**, including how a new inmate adjusts.

Examples of inmate Social Code:

- don't interfere w/ inmates business.
- never rat on a con

California. Court of Appeal (1st Appellate District). Records and Briefs California (State)., EDUCATION FOR THE JOY OF IT Dr. Robert J. Pellegrini,2014-07-01 This book is targeted to all current or prospective high school students college students or anyone else who aspires to strengthen the educational foundation upon which to build the rest of her his life with the hope that it is especially helpful to people who might otherwise become or have already been formal educational program dropouts or lockouts I cannot guarantee that applying what is offered here will ensure an A grade or achievement of one s life goals But I do guarantee that I have tried to summarize critical elements of thought feeling and action oriented to such objectives Part I of this book is all about how to work both hard and smart to experience the joy of academic success Hard work is necessary to achieve anything worthy of pride in our own creative effort But it s not just how much or how hard we work at things It is also how smart we work that determines our life outcomes And what I mean by working smart is working efficiently and effectively The goal here is to help all students reap as much as possible from their educational investment whatever that investment may be in terms of time money energy and self disciplined personal sacrifices Part II is about what it takes to achieve great success at anything in life The format for this second part is essentially a psychological profile of outstanding achievers From both my professional and personal experience I ve learned how vitally important education can be as an avenue to a pro socially valued and personally satisfying life And once again in 2014 I find myself championing an

approach designed to facilitate human development through educational opportunity in a program I call Life Construction 101 designed not just to augment efforts to help at risk students but to help every student enjoy academic success experiences Education For The Joy Of It is the user s manual for that Life Construction 101 program Accordingly the Appendix to this book presents a brief structured exercise designed to provide a very preliminary template for initiating the construction or reconstruction of one s life And that s it A little book that I hope will be one of the biggest books its readers ever read RJP <http://youtu.be/6BW19m7hqqc>

Identities for Life and Death Robert J. Pellegrini, 2010-09 This book is all about stories The stories that shape our identities and how those identities shape our destinies for better or worse for good or evil in humanizing or dehumanizing ways Working from the Shakespearian metaphor All the world s a stage and all the men and women merely players Pellegrini argues that only by understanding how our storied selves develop can we acquire the tools to modify the roles they dictate for us to play on the stage in the theater of real life The author deconstructs a wide variety of what he calls toxic dehumanizing death oriented self scripts as well as creative humanizing life oriented narratives of groups as well as individuals Following the Native American parable of two wolves engaged in mortal combat within us one good the other evil the fundamental premise here is that our identity determines which of our inner wolves we feed and thus which of them will prevail Pellegrini maintains that what s at stake in this battle between humanity s collective inner wolves is not just the quality but the very survival of life on earth From this perspective as individual and group selves are humanizingly or dehumanizingly narratized by the way we exercise our God given free will in the choices we make so shall life be impacted throughout the world To advance the cause of detoxifying identities in our global society the author presents a rationale and program for an international grass roots social movement aimed at achieving a universal sense of belongingness to a global life system You can watch and listen to a video in which Dr Bob Pellegrini talks about this book and why he wrote it by entering Identities for Life and Death in the search bar at youtube com

Encyclopedia of Community Corrections Shannon M. Barton-Bellessa, 2012-05 In response to recognition in the late 1960s and early 1970s that traditional incarceration was not working alternatives to standard prison settings were sought and developed One of those alternatives community based corrections had been conceived in the 1950s as a system that might prove more progressive humane and effective particularly with people who had committed less serious criminal offenses and for whom incarceration with constant exposure to serious offenders and career criminals might prove more damaging than rehabilitative The alternative of community corrections has evolved to become a substantial part of the criminal justice and correctional system spurred in recent years not so much by a

progressive humane philosophy as by dramatically increasing prison populations court orders to fix overextended prison settings and an economic search for cost savings Encyclopedia of Community Corrections explores all aspects of community corrections from its philosophical foundation to its current inception Features a thematic reader s guide in the front matter groups entries by broad topical or thematic areas to make it easy for users to find related entries at a glance a chronology in the back matter helps students put individual events into broader historical context a glossary provides students with concise definitions to key terms in the field a resource guide to classic books journals and web sites along with the further readings accompanying each entry guides students to further resources in their research journeys and appendix offers statistics from the Bureau of Justice **Criminal Justice Research, Annual Report** National Institute of Justice (U.S.),1980 **The**

Routledge Handbook on Global Community Corrections Ioan Durnescu,James M. Byrne,Benjamin J. Mackey,Faye S. Taxman,2024-06-25 The Routledge Handbook on Global Community Corrections assesses and analyzes the status of community corrections systems around the world highlighting inter regional and intra regional variations in their design implementation and impact on policy and practice Covering both probation and parole this handbook brings together leading international experts to examine the myriad of systems developed under the broad heading of community corrections to manage community corrections populations at the pre adjudication adjudication and post release stages Chapters are designed to consider the following questions How many offenders are placed in community corrections systems around the globe What are the key design features of these community corrections systems What do we know about the effectiveness of community corrections within and across global regions This is an essential reference text for all those engaged with community corrections probation and post release policy in criminal justice Federal Probation ,1989 **Governmental**

Research Notes ,1952 **The National Manpower Survey of the Criminal Justice System: Corrections** National Planning Association,1978 **Arts in Criminal Justice and Corrections** Amanda Gardner,Laura Caulfield,2024-11-18 Offering a lively international and interdisciplinary introduction to research on arts programmes in prisons Arts in Criminal Justice and Corrections is the first volume to bring together leading figures from the USA the UK Australia New Zealand and Belgium to explore key methodological approaches and issues through the lens of the researchers themselves Beginning with the original pioneers of research into the arts in corrections in the USA in the 1980s this book highlights the role of researchers in evidencing impact and influencing policy Contributors include those who were themselves once incarcerated and those who have transitioned from practitioner to criminologist Chapters lay the groundwork for discussion on how an important avenue for rehabilitation and re entry can be developed providing a call to action for more research into a field which holds promise for building a more just equitable and inclusive society This book is essential reading for criminologists engaged in prisons corrections and desistance research as well as researchers and practitioners in the arts and rehabilitation
