Back to the Future Jordan Ott, Over the last half century the fire of American innovation has grown dim There have been no lunar bases no cures for cancer and no energy too cheap to meter Not only have we failed to achieve these futuristic visions but we are struggling with more fundamental challenges Transportation speeds stagnated energy consumption peaked life expectancy plateaued construction takes longer and costs more educational systems are failing and healthcare costs are skyrocketing Where did our bright future go and how do we get back to it The answer to those two questions are found in the three pillars of American society the government private business and individuals Government regulations have crippled progress and stifled innovation Private companies have grown more bureaucratic prioritizing short term financial gains to longer term progress American individuals have relinquished values like discipline merit and a strong work ethic By rebuilding these three pillars this book charts a course to reignite American innovation and take us back to the future we are capable of

Understanding Instructionally Useful Assessment Carla Evans, Scott Marion, 2024-06-19 Understanding Instructionally Useful Assessment offers new insights into how various types of assessments from the state to the classroom will differ in their usefulness for supporting instructional decision making and student learning In order to most effectively serve students it is essential that educators avoid conflating the assessment information that teachers use for instructional purposes and the data that leaders and administrators use for evaluative or monitoring purposes This book provides classroom teachers as well as school and district leaders with a clear conception of what makes assessments their purpose design reporting and resulting information useful or not for informing instruction and how they can select assessment tools suited to specific purposes Each chapter addresses the knowledge and skills that K 12 staff need in order to challenge claims made by policymakers test vendors or even other educators that any assessment can be used to inform instruction Educators will come away better prepared to remove unnecessary or redundant assessments from their systems and to create structures policies and processes that best support the instructional usefulness of assessments for student learning

Educating for Purposeful Life S. David Brazer, Michael B Matsuda, 2023-10-12 A visionary blueprint for educational reform that envisions school systems as opportunity engines preparing young citizens for future workplace success civic engagement and fulfilling lives Educating for Purposeful Life documents positive change within the Anaheim Union High School District whose overarching mission is to prepare high school graduates who possess a clear sense of purpose and the capacity to achieve their goals Superintendent Michael Matsuda and education consultant David Brazer lay out the district's innovative approaches to organizing leading teaching and learning They demonstrate how education policy organization theory and external partnerships work together within this grades 7 12 district to scaffold student success resulting in greater high school graduation rates and four year college matriculation and persistence rates A

rousing account of effective school reform this work illuminates the district's Career Preparedness Systems Framework which integrates affective and cognitive development opportunities trade and professional development programs and community engagement efforts Matsuda and Brazer show how this framework combined with a strengths based approach that recognizes and affirms students individual life experiences helps meet the educational needs of all students including those from traditionally underserved populations Presenting secondary education as a means to support democracy address employability gaps and elevate student voice and purpose this thought provoking work provides ample ideas for how other districts might engage in educating for purposeful life

Anti-Racist Community Engagement Christina Santana,Aldo Garcia-Guevara,Joseph Krupczynski,Cynthia Lynch,John Reiff,Roopika Risam,Cindy Vincent,Elaine Ward,2023-12-07 Anti racist Community Engagement Principles and Practices centers anti racist community engaged traditions that BIPOC academics and community members have created through more than a century of collaboration across university and community It demonstrates both the progress and the work that still needs to be done The book is organized around a set of Anti racist Community Engagement Principles developed by the editors as part of their shared work and dialogue with colleagues regionally and across the country The significant number of diverse voices that have informed the creation of the principles reveal the groundswell of work underway to center anti racist values and to pivot away from the traditional higher education centric and white savior ways of doing community engagement teaching research and practice The chapters in this book are organized into four sections each focused on one of the four Anti racist Community Engagement Principles The first section explores the various ways in which reframing our institutional and pedagogical practices can help counteract the persistence and impact of racism on our campuses and in our community engagement work In the second section authors share practices that promote critical reflection on individual and systemic structural racism through examinations of positionality bias and historical roots of systemic racism The third section examines intentional learning and course design through anti racist learning goals course content policies and assessment Finally the fourth section shows how authors have developed compassionate and reflective classrooms by creating a sense of belonging that acknowledges student cultural assets and contributions and meets students where they are to co create a supportive anti racist learning environment Each chapter in the book introduces a specific example of anti racist community engagement with authors providing unique situated insights into the nature and complexity of the factors at play This is followed by a Practice section where authors reflect on their engagement and the lessons learned through it thus leaving readers with detailed insights and roadmaps for adapting or replicating the work Finally a Connections section places the case and its practices into broader contexts of pedagogical curricular institutional and community change There is an open access digital companion to the volume where authors have shared materials that will help shed further light on their compelling practices including syllabi agendas handouts worksheets and additional resources

The Trump Paradox Raul Hinojosa-Ojeda,Edward Telles,2021-03-23 The Trump Paradox Migration Trade and Racial Politics in US Mexico Integration explores one of the most complex and unequal cross border relations in the world in light of both a twenty first century political economy and the rise of Donald Trump Despite the trillion plus dollar contribution of Latinos to the US GDP political leaders have paradoxically stirred racial resentment around immigrants just as immigration from Mexico has reached net zero With a roster of state of the art scholars from both Mexico and the US The Trump Paradox explores a dilemma for a divided nation such as the US in order for its economy to continue flourishing it needs immigrants and trade

Social Justice Perspectives on English Language Learners Ashraf Esmail,Abul Pitre,Alice Duhon-Ross McCallum,Judith Blakely,Brandon Hamann,2023-05-31 The recent increase in immigration patterns in the United States has meant an increase in the number of children whose first language is not English entering American schools Some reports indicate that as many as one in four students come from families where the language spoken in the home is not English This books is focused on providing teachers access to credible information that will assist them understand the English language learner develop effective strategies to teach English language learners create effective learning environments and use assessments to meet the needs of English language learners as well as garner community resources to support for English language learners

The Inclusive Economy Michael D. Tanner,2018-12-04 The Inclusive Economy How to Bring Wealth to America s Poor energetically challenges the conventional wisdom of both the right and the left that underlies much of the contemporary debate over poverty and welfare policy Author and national public policy expert Michael Tanner takes to task conservative critiques of a culture of poverty for their failure to account for the structural circumstances in which the poor live In addition he criticizes liberal calls for fighting poverty primarily through greater redistribution of wealth and new government programs Rather than engaging in yet another debate over which government programs should be increased or decreased by billions of dollars Tanner calls for an end to policies that have continued to push people into poverty Combining social justice with limited government his plan includes reforming the criminal justice

system and curtailing the War on Drugs bringing down the cost of housing reforming education to give more control and choice to parents and making it easier to bank save borrow and invest The comprehensive evidence provided in The Inclusive Economy is overwhelming economic growth lifts more people out of poverty than any achievable amount of redistribution does As Tanner notes we need a new debate one that moves beyond our current approach to fighting poverty to focus on what works rather than on noble sentiments or good intentions The Inclusive Economy is a major step forward in that debate

Leading Change Through Evaluation Kristen L. Rohanna, 2021-10-04 Evaluators who are interested in developing or improving a program or policy frequently look to formative evaluation as a guiding framework This book shows why those hoping to use evaluation to drive change in complex systems rather than develop or improve one program policy or product need to shift from the oversimplified idea of formative evaluation to a more specified continuous improvement model grounded in improvement science In doing so author Kristen L Rohanna provides guidance to both evaluators and others such as K 12 educators or hospital administrators who lead improvement initiatives in their organizations and seek to solve persistent problems of practice The book includes an extended case study a networked improvement community of five public middle and high schools

Creating Equitable Services for the Gifted: Protocols for Identification, Implementation, and Evaluation Nyberg, Julia L., Manzone, Jessica A., 2021-11-12 Given the importance of the development of intellectualism and the need to ensure equity and access to learning experiences educators at all levels must be aware of research based protocols to identify serve and evaluate programs for diverse gifted learners It is essential to understand how gifted education can increase equity in identification practices for historically underrepresented groups what the specific curricular opportunities are that must be provided to learners to develop gifted programs and what the key considerations are to the design and implementation of authentic and equitable programs for gifted learners *Creating Equitable Services for the Gifted Protocols for Identification Implementation and Evaluation* curates cutting edge protocols in the field of gifted education related to the areas of equitable identification implementation of services and programmatic assessment These protocols seek to initiate discussion and critical discourse regarding diverse gifted learners among higher education faculty state department personnel district administrators and classroom teachers Covering topics such as digital differentiation equitable assessment and STEM education this text is ideal for teacher education programs preparation programs university degree programs university credential programs certificate programs faculty graduate students state departments of education superintendents coordinators administrators teachers professors academicians and researchers

The Students We Share Patricia Gándara, Bryant Jensen, 2021-05-01 Millions of students in the US and Mexico begin their educations in one country and find themselves trying to integrate into the school system of the other As global migration increases their numbers are expected to grow and more and more teachers will find these transnational students in their classrooms The goal of *The Students We Share* is to prepare educators for this present and future reality While the US has been developing

English as a Second Language programs for decades Mexican schools do not offer such programs in Spanish and neither the US nor Mexico has prepared its teachers to address the educational social psychological or other personal needs of transnational students Teachers know little about the circumstances of transnational students lives or histories and have little to no knowledge of the school systems of the country from which they or their family come As such they are fundamentally unprepared to equitably educate the students we share who often fall through the cracks and end their educations prematurely Written by both Mexican and US pioneers in the field chapters in this volume aim to prepare educators on both sides of the US Mexico border to better understand the circumstances strengths and needs of the transnational students we teach With recommendations for policymakers administrators teacher educators teachers and researchers in both countries *The Students We Share* shows how preparing teachers is our shared responsibility and opportunity It describes policies classroom practices and norms of both systems as well as examples of ongoing partnerships across borders to prepare the teachers we need for our shared students to thrive *California Agriculture* ,2022-10

Disillusioned Benjamin Herold,2024-01-23 Astonishingly important Alex Kotlowitz *The Atlantic* Through the stories of five American families a masterful and timely exploration of how hope history and racial denial collide in the suburbs and their schools Outside Atlanta a middle class Black family faces off with a school system seemingly bent on punishing their teenage son North of Dallas a conservative white family relocates to an affluent suburban enclave but can t escape the changes sweeping the country On Chicago s North Shore a multiracial mom joins an ultraprogressive challenge to the town s liberal status quo In Compton California whose suburban roots are now barely recognizable undocumented Hispanic parents place their gifted son s future in the hands of educators at a remarkable elementary school And outside Pittsburgh a Black mother moves to the same street where author Benjamin Herold grew up then confronts the destructive legacy left behind by white families like his *Disillusioned* braids these human stories together with penetrating local and national history to reveal a vicious cycle undermining the dreams upon which American suburbia was built For generations upwardly mobile white families have extracted opportunity from the nation s heavily subsidized suburbs then moved on before the bills for maintenance and repair came due leaving the mostly Black and Brown families who followed to clean up the ensuing mess But now sweeping demographic shifts and the dawning realization that endless expansion is no longer feasible are disrupting this pattern forcing everyday families to confront a truth their communities were designed to avoid The suburban lifestyle dream is a Ponzi scheme whose unraveling threatens us all How do we come to terms with this troubled history How do we build a future in which all children can thrive Drawing upon his decorated career as an education journalist Herold explores these pressing debates with expertise and perspective Then alongside Bethany Smith the mother from his old neighborhood who contributes a powerful epilogue to the book he offers a hopeful path toward renewal The result is nothing short of a journalistic masterpiece **Close Reading of Informational Sources** Sunday Cummins,2019-05-10 Given the number of

well developed informational sources available to educators and students and the focus of departments of education on learning from these sources there is so much potential for students to grow as critical consumers of information Being able to read informational sources closely or watch and listen to sources carefully across all content areas creates a path for being able to understand the world better More than ever before close reading has become an essential approach with students and the informational sources they are attempting to understand In addition to addressing instruction with traditional printed texts I address how to teach for understanding of content in videos and infographics I have also developed a three phase plan for learning and a matching template for lesson planning
