Some of these extraordinary photos make you smile; some make you cry. All of them inspire you to take action against the injustice of extreme poverty. Howe's portraits are more than beautiful pictures and compelling stories—they are the reason why we must not rest in the comfort of our freedom. That's the genius of Howe Butler—he is not just a brilliant photographer, he is a protagonist for change.

Heidegger and Development in the Global South Siby K. George, 2015-03-05 Taking the Heideggerian critical ontology of technology as its base this volume looks at postcolonial modernization and development in the global south as the worldwide expansion of the western metaphysical understanding of reality We live today in an increasingly globalizing technological society that Martin Heidegger described in the middle of the last century as the planetary imperialism of technologically organized man Consequent upon this cultural intellectual globalization the ahistorical violent individualistic calculative and capitalistic logic of the metaphysics of technology is permeating the life world even of the world's poorest

This volume differs from many quincennial discussions of the Protestant Reformation and ecumenical scholarship more generally in that it shifts the focus from Europe and the West to the global South where ecumenism's promises and challenges are quite different In postcolonial and post missionary Africa the churches continue to expand competition among denominations is lively and Christian rivalry with Islam is often a reality In Latin America Protestants have severely eroded the Catholic Church's hegemony originally forged in the zeal of the Counter Reformation to combat the perceived errors of Luther and Calvin In India the Christian churches are a tiny beleaguered minority facing an increasingly militant Hindu nationalism These essays pay close attention to the different contexts of intra Christian relationships worldwide the actual situation on the ground If ecumenism will succeed it cannot be simply a matter of experts at a conference attempting to agree about doctrines abstracted from the contexts in which they were forged the contexts in which doctrinal disagreements caused ecclesial ruptures or the contexts in which Christians continue to live out our divided existence This volume attempts to be sensitive to the lived experience of divided Christians in whatever part of the world they find themselves **Women, War, and the Making of Bangladesh** Yasmin Saikia, 2011-08-10

Law, Vulnerability, and the Responsive State Martha Albertson Fineman, Laura Spitz, 2023-10-09 This book considers how vulnerability theory provides the basis for a reconceptualization of the liberal ideas of autonomy equality and freedom Vulnerability theory argues a vulnerable legal subject should displace the liberal legal subject that currently dominates law and policy The theory is based on the fundamental empirical realities of the material body and offers an alternative to a social contract or rights based notion of state responsibility both of which tend to privilege abstractions such as rationality or dignity A vulnerability analysis poses law and policy questions based on the vulnerable legal subject and requires new thinking about state or governmental responsibility To achieve a truly comprehensive and inclusive notion of what constitutes social justice or a universal or common good vulnerability theory mandates a reassessment of both equality and freedom as these concepts are currently conceived Presenting the work of scholars from a wide range of doctrinal areas it is this task that the book takes up In particular in recognizing that many social or institutional relationships entail uneven positions of dependence and reliance it maintains that individualized notions of equality or freedom are inadequate and must be reformulated to include a sense of collective or social justice incorporating asymmetric or unequal allocations of responsibility and requiring appropriate limitations on the individual This book s reorientation of the subject as well as the central objectives of law and policy will appeal to scholars and students in law vulnerability studies gender studies critical legal and political theory politics philosophy and sociology
