Rebirth of Consciousness Well known and respected internationally for her ground breaking work in Archetypes of the Zodiac Kathleen Burt now offers us a phenomenal distillation of her life work in Beyond the Mask The Rising Sign Part 1 Part 2 Midlife urgings bring forth cycles of death and rebirth Antiquated identities and roles must die old masks must be peeled away before we can discover a new path in life Kathleen Burt addresses specifically how the twelve rising sign patterns guide us into new life and fresh experiences With the keen eye of an astrologer examining the biography of creative writers and inspired people Kathleen Burt brings a depth of understanding to the Rising Sign This unique volume of wisdom offers decades of scholarly study and practical experience in esoteric astrology psychology mythology and biography and examines the underlying archetypal patterns inherent in our lives The Water of Life David Hart,2013-06-14 The intensive study of Jungian psychology was amplified by another subject taught continuously while I was a student at the Jung Institute in Zurich Switzerland the psychology of fairy tales The study of fairy tales was the specialty of a fairly young single woman Dr Marie Louise von Franz She lectured to us English speaking students in well spoken English and the conviction and power of her voice made me feel how deep and meaningful these stories were to her Not only that I myself was immediately deeply affected by the convincing spiritual reality that was being presented to me in the stories themselves It was as if the reality of life came out here in a wholly new form untouched by the standard accepted form of common life What most struck me I think now was the following realization here in this story is a completely insoluble problem I want to follow it all the way through and to my surprise finally feel that this problem has been solved This outcome has been both essential and unbelievable to me As one who felt that life posed just such an insoluble problem I found the typical fairy tale both impossible and incredible I found in fairy tales a healing presence and possibility for the terror of my own early life This is the unexpressed feeling that kept me fastened on the totally unexpected subject of fairy tales Fairy Tales with a Mexican Twist Jacqueline Gerson,2019-01-07 Fairy tales convey life s magic reflecting the deep psychological themes that govern the outcomes of our lives Written in simple language these stories take us along soul s path once more revealing how the issues of today can still yield new restorative meanings This fresh set of tales introduces characters who invite the reader to think the unthinkable explore the unknown and feel what is irreconcilable resulting in a deeper experience of life itself Staged in remote corners of the world where healing mysteries can be summoned when life s dilemmas emerge and right and wrong are no longer clear Gerson s fairy tales show that there are still Gods and Goddesses who can intervene when humans lose their way on life s journey Emily Dickinson Steven Herrmann,2018-03-21 Among the 19th century poets Emily Dickinson is by far the most scientifically minded Science is the voice that summoned Dickinson at Mount Holyoke Female Seminary and gave her unique distinction as a poetess of botanical and entomological and astronomical classifications Like no other 19th century poet she forms an integration between science and spirituality She studied at Holyoke at the exact historical moment of the first Seneca Falls Women s Rights Convention in 1848 This therefore is a feminist book It speaks up for the
