The Dimensions of Health John Hjelm, 2010-10-25 The Dimensions of Health Conceptual Models is an introductory text that examines the five dimensions of personal health: physical, social, emotional, intellectual, and spiritual. Each chapter provides context for the study of that dimension, includes examples of how experts think about that dimension, presents two or more models developed by scholars and professionals, discusses identifiable characteristics associated with each dimension, and by incorporating a variety of perspectives, The Dimensions of Health enables students to formulate their own answer to the question: What is health? This text is perfect for use in conjunction with a personal health text or as a standalone for any personal health course.
