Fragmente Herman Grimm:

RESULTS OF SPIRITUAL RESEARCH Rudolf Steiner, 2022-04-26 In a previously unavailable series of talks to the general public Rudolf Steiner builds systematically lecture by lecture on the fundamentals of spiritual science from the nature of spiritual knowledge and its relationship to conventional science the path of personal development and the task of metaphysical research to specific questions on the mystery of death the meaning of fairy tales the significance of morality and the roles of individual figures in human evolution such as Leonardo da Vinci Raphael and Jacob Boehme At the time of these presentations Steiner had already worked in Berlin for many years and thus could reckon with a regularly returning audience to whom what mattered was to enter ever more deeply into the areas of knowledge that were newly opening up to them Marie Steiner As a consequence and through a series of inter connecting lectures whose themes are entwined with one another he was able to communicate a coherent and challenging spiritual perception of reality based on his personal research Presented here with notes an index and an introduction by Simon Blaxland de Lange the 14 lectures include How is Spiritual Science Refuted On What Foundation is Spiritual Science Based The Tasks of Spiritual Research for both Present and Future Errors of Spiritual Research Results of Spiritual Research for Vital Questions and the Riddle of Death The World Conception of a Cultural Researcher of the Present Herman Grimm and The Legacy of the Nineteenth Century Art History as a Reflection of Inner Spiritual Impulses Rudolf Steiner, 2016-06-01 13 slide presentations Dornach Oct 8 1916 Oct 29 1917 CW 292 I am going to show you a series of reproductions of slides from a period in art history to which the human mind will probably always return to contemplate and consider for if we consider history as a reflection of inner spiritual impulses it is precisely in this evolutionary moment that we see certain human circumstances ones that are among the deepest and most decisive for the outer course of human history expressed through a relationship to art Rudolf Steiner Rudolf Steiner understood that the history of art is a field in which the evolution of consciousness is symptomatically and transparently revealed This informal sequence of thirteen lectures was given during the darkest hours of World War I It was a moment when the negative consequences of what he called the age of the consciousness soul which began around 1417 were made most terribly apparent In these lectures he sought to provide an antidote to pessimism After describing the movement of consciousness from Greece into Rome coupled with influences from the Orthodox East he showed how these influences transformed as the Middle Ages became the Renaissance The process that begins with Cimabue and Giotto develops deepens and becomes more conscious in the great Renaissance masters Leonardo Michelangelo and Raphael Then this movement continues with the Northern masters Durer and Holbein as well as the German tradition One entire lecture is devoted to Rembrandt followed by one on Dutch and Flemish paintings Themes are woven together to show how past epochs of consciousness and art live again in our consciousness soul period Replete with interesting information and more than 600 color and black and white images these lectures are rich and dense with ideas enabling us to understand both the art of the

Renaissance and the transformation of consciousness it announced These lectures demonstrate to paraphrase Shelley that artists truly are the unacknowledged legislators of the age Art History as a Reflection of Inner Spiritual Impulses is a translation from German of Kunstgeschichte als Abbild innerer geistiger Impulse GA 292 Rudolf Steiner Verlag 2000

Transforming The Soul: Volume 1 Rudolf Steiner, 2013-11-06

The spiritual scientific investigator has to transform the soul itself into an instrument then when his soul is awakened and he can see into a spiritual world he experiences on a higher level a similar great moment as blind people do when having been operated upon they look at a world they have not seen before In a key series of lectures on personal development Rudolf Steiner explains that the central mission of spiritual science is to enable people to ascend in full consciousness to a knowledge of spiritual realities But given that the means to achieve spiritual perception are now widely available the danger exists that some individuals will gain access to the spiritual world whilst harbouring impure motives This can lead to a distorted understanding and vision of that world Steiner's emphasis therefore is on the preparatory steps the metamorphosis and purification of the human soul required for achieving true spiritual enlightenment Life itself teaches and prepares us for progress and anthroposophy explains and brings this to consciousness In some of his most lucid lectures Steiner describes the missions of anger truth and reverence the significance of human character the meaning of asceticism and illness and the phenomenon of egoism He also clarifies the differences between Buddhism and Christianity describes the goal of spiritual science and makes some esoteric observations about the moon Throughout the talks Steiner refers to many significant historical figures including St Augustine Coleridge Leonardo da Vinci Madame Blavatsky Goethe Homer and Shakespeare
