Fragmented Melodies Fragmented Melodies

Linda Cummins

Fragmented Melodies Fragmented Melodies:

Fragmented Melodies Kangsen Feka Wakai, 2007 *Fragmented Melodies* is a seminal introspective work of exceptional freshness and contemplative diction transmitted in an enriched style that immediately grasps the reader's attention. Between Part I *Medusa's Spell* and Part IV *Homebound* the reader is instantly immersed into a multifaceted poetic universe that is both enigmatic and mystifying, reminiscent of Jared Angira's *Silent Voices*. Wakai's personae are inimitable and diverse, oftentimes imbued with passionate sensuality, despondent lives, and brutal nostalgia: the nostalgia of prison walls defeated idealism and incarcerated voices yearning for release behind blood-smeared prison walls. From Ethiopia to Brazil, Kigali to Bamenda, from the smoked, stained vocal cords in Soweto to the clanging steel doors of the Kondengui maximum security prison in Yaoundé, Wakai's poetic voices resonate the sound of traditional drums, the cacophony of jazz, the isolated acoustic notes of guitar strings, and the suffocating stench of the dictator's funeral pyre. The diverse voices in the poems are unified into a single poetic journey of desolation, hope, idealism, lamentation, exile, and freedom. Babila Mutia, Professor of Literature, ENS University of Yaoundé 1, Cameroon. Kangsen Wakai's poetic landscape in *Fragmented Melodies* encompasses all that is human as well as all that defies humanity. The poems cascade from the passionate songs of his heart through defiant rhythms of resistance to songs in distant lands beyond our desecrated shores, but in the end, Wakai's poetic compass is homebound to amongst common places and common people who affirm the human zeal for music, truth, and peace. Yet it is Wakai's imagistic canvass which confirms the birth of a compelling poetic voice in this season of waiting. Joyce Ashuntantang, Department of English, University of Connecticut, USA. With poems like these that are crafted to sound like music to the ears, no reader can afford to leave the dance floor. This is indeed the trademark of a new writing that has come to stay. Mwalimu George Ngwane, writer and Chairman of National Book Development Council, Cameroon, a leading voice in the ongoing renaissance of Anglophone Cameroon literature in the Diaspora. Dibussi Tande, USA-based Journalist and Poet. The lay of the last minstrel. Ballads. Songs. Fragment. Miscellaneous poems. Poetry published in Border Minstrelsy Walter Scott, 1839.

Debussy and the Fragment Linda Cummins, 2006-01-01. Rather than solid frames, some less than perfect aesthetic objects have permeable membranes which allow them to diffuse effortlessly into the everyday world. In the parallel universes of music and literature, Linda Cummins extols the poetry of such imperfection. She places Debussy's work within a tradition thriving on anti-Aristotelian principles: motley collections, crumbling ruins, real or fake monstrous hybrids, patchwork and palimpsest, hasty sketches, ellipses, truncated beginnings and endings, meandering arabesques, irrelevant digressions, autoquotations. Sensitive to the intermittences of memory and experience and with a keen ear for ironic intrusion, Cummins draws the reader into the Western cultural past in search of the surprisingly ubiquitous aesthetic of the unfinished, negatively silhouetted against expectations of rational coherence. Theories popularized by Schlegel and embraced by the French Symbolists are only the first waypoint on an elaborately illustrated tour reaching back to Petrarch. Cummins meticulously

applies the derived results to Debussy's scores and finds convincing correlations in this chiasmatic crossover

Music Borrowing and Copyright Law Enrico Bonadio, Chen Wei Zhu, 2023-10-19 This ground breaking book examines the multifaceted dynamics between copyright law and music borrowing within a rich diversity of music genres from across the world. It evaluates how copyright laws under different generic conventions may influence or be influenced by time honoured creative borrowing practices. Leading experts from around the world scrutinise a carefully selected range of musical genres including pop, hip hop, jazz, blues, electronic and dance music as well as a diversity of region specific genres such as Jamaican music, River Plate Tango, Irish folk music, Hungarian folk music, Flamenco, Indian traditional music, Australian indigenous music, Maori music and many others. This genre conscious analysis builds on a theoretical section in which musicologists and lawyers offer their insights into fundamental issues concerning music genre categorisation, the typology of music borrowing and copyright law's ontological struggle with musical borrowing in theory and practice. The chapters are threaded together by a central theme, i.e. that the cumulative nature of music creativity is the result of collective bargaining processes among many musicking parties that have socially constructed creative music authorship under a rich mix of generic conventions.

Clinical Applications of Music Therapy in Developmental Disability, Paediatrics and Neurology Tony Wigram, Jos De Backer, 1999 Reflecting on and developing the applications of music therapy, this collection will help establish effective therapy methods in which the creative use of music is employed by skilled and clinically experienced music therapists in a client oriented interactive process.

May It Fill Your Soul Timothy Rice, 1994-07-13 In this vivid musical ethnography Timothy Rice documents and interprets the history of folk music, song and dance in Bulgaria over a seventy year period of dramatic change. From 1920 to 1989 Bulgaria changed from a nearly medieval village society to a Stalinist planned industrial economy to a chaotic mix of capitalist and socialist markets and cultures. In the context of this history Rice brings Bulgarian folk music to life by focusing on the biography of the Varimezov family, including the musician Kostadin and his wife Todora, a singer. Combining interviews with his own experiences of learning how to play, sing and dance Bulgarian folk music, Rice presents one of the most detailed accounts of traditional aural learning processes in the ethnomusicological literature. Using a combination of traditionally dichotomous musicological and ethnographic approaches, Rice tells the story of how individual musicians learned their tradition, how they lived it during the pre Communist era of family farming, how the tradition changed with industrialization brought under Communism and finally how it flourished and evolved in the recent unstable political climate. This work, complete with a compact disc and numerous illustrations and musical examples, contributes not only to ethnomusicological theory and method but also to our understanding of Slavic folklore, Eastern European anthropology and cultural processes in Socialist states.

Music Writing Literature, from Sand via Debussy to Derrida Peter Dayan, 2017-07-05 Why does poetry appeal to music? Can music be said to communicate as language does? What between music and poetry is it possible to translate? These fundamental questions have remained obstinately difficult despite the

recent burgeoning of word and music studies Peter Dayan contends that the reasons for this difficulty were worked out with extraordinary rigour and consistency in a French literary tradition echoed by composers such as Berlioz and Debussy which stretches from Sand to Derrida Their writing shows how it is both necessary and futile to look for music in poetry or for poetry in music necessary because each art defines itself by reference to what it is not and cannot be in order to point to an idealized totality outside itself futile because the musicality of poetry like the poetic meaning of music must remain as elusive as that idealized totality its distance is the very condition of the art Thus is generated a subtle but unmistakable general definition of the nature of art which has proved uniquely able to survive all the probings of poststructuralism That definition of art is inseparable from a disturbingly effective scepticism towards all forms of explication and explanation in critical discourse so it is doubtless not surprising that critics in general have done their best to ignore it But by bringing out what Sand Baudelaire Mallarmé Proust Debussy Berlioz Barthes and Derrida all do in the same way as they work on the limits of the analogy between music and literature this book shows how it is possible productive illuminating and fascinating to work on those limits though to do so as we find repeatedly in Chopin's dreams as in Derrida's tombeaux requires us to have the courage to face in music our literal death and the limits of our intelligence

Nordic Latin Manuscript Fragments

Åslaug Ommundsen, Tuomas Heikkilä, 2017-07-14 Much of what is known about the past often rests upon the chance survival of objects and texts Nowhere is this better illustrated than in the fragments of medieval manuscripts re-used as bookbindings in the sixteenth and seventeenth centuries Such fragments provide a tantalizing yet often problematic glimpse into the manuscript culture of the Middle Ages Exploring the opportunities and difficulties such documents provide this volume concentrates on the c 50 000 fragments of medieval Latin manuscripts stored in archives across the five Nordic countries of Denmark Finland Iceland Norway and Sweden This large collection of fragments mostly from liturgical works provides rich evidence about European Latin book culture both in general and in specific relation to the far north of Europe one of the last areas of Europe to be converted to Christianity As the essays in this volume reveal individual and groups of fragments can play a key role in increasing and advancing knowledge about the acquisition and production of medieval books and in helping to distinguish locally made books from imported ones Taking an imaginative approach to the source material the volume goes beyond a strictly medieval context to integrate early modern perspectives that help illuminate the pattern of survival and loss of Latin manuscripts through post-Reformation practices concerning reuse of parchment In so doing it demonstrates how the use of what might at first appear to be unpromising source material can offer unexpected and rewarding insights into diverse areas of European history and the history of the medieval book
