## **Fragments Of The Spirit Nature Violence And The Renewal Of Creation:**

**Fragments of the Spirit: nature, violence, and the renewal of creation** Mark I. Wallace, 2002      **The Spirit of Creation** Amos Yong, 2011-05-17 Is a pentecostal charismatic worldview defensible in light of contemporary science In *The Spirit of Creation* Amos Yong demonstrates that pentecostal thought does indeed have merit in scientific contexts What's more he argues that pentecostal charismatic views regarding the dynamic presence and activity of the Spirit of God and the pluralistic cosmology of many spirits have something important to add to the broad discussion now taking place at the crossroads of science and religion Interacting with many scientific fields of study including psychology sociology evolutionary science cosmology and more Yong's *Spirit of Creation* demonstrates the significance of pentecostal ideas to the ongoing dialogue between theology and science      **Theological Ethics and Moral Value Phenomena** Steven C. van den Heuvel, Patrick Nullens, Angela Roothaan, 2017-09-22 The experience of moral values is often side lined in discussions about moral reasoning and yet our values define a large part of our moral motives standards and expectations *Theological Ethics and Moral Value Phenomena* explores whether the experience of a meeting point of the immanent and the transcendent i.e. the moral self and God can be the source of our values The book starts by arguing for a greater theological engagement with value ethics personalism and the phenomenological method by drawing on thinkers such as Max Scheler and William James It then provides an understanding of the social and religious dimension of the valuing person demonstrating the importance of the emotional as well as the cognitive dimension of value experience Finally this value perspective is utilised to engage with current moral issues such as professional ethics environmental ethics economical ethics and family ethics Integrating the concepts of religious experience moral motivation and subjective and objective value within a broad framework of Christian theology and philosophy this is vital reading for any scholar of Theology and Philosophy with an interest in ethics and moral reasoning      **Celebrating God's Cosmic Perichoresis** Bryan Jeongguk Lee, 2011-08-05 In the face of today's unprecedented ecological crisis Christianity is often seen not only as sharing in the guilt of causing this crisis but also as unwilling and incapable of providing any help in re-envisioning the required new way of life on earth This view is justified when we consider how modern Christian theology has tended to denigrate the natural world and how the prevalent world deserting Christian eschatology forms a spirituality that is fundamentally insensitive and indifferent to nature In light of this a meaningful Christian contribution to today's world of enormous ecological suffering must lie in envisioning a fundamentally new ecological vision of humanity's relationship to nature as well as providing an ethical energy to transform our current path of self-destruction In this book Bryan J. Lee finds in Jurgen Moltmann's eschatological panentheism a viable pathway toward a Christian ecological re-envisioning of the relationship between God and humanity and between humanity and nature Furthermore Lee demonstrates in a persuasive way how Christian worship can and should be the epicenter of ecological transformation of the society emphatically interpreting Christian worship as an ecological eschatological anticipation of God

s cosmic perichoresis      *Christian Theology in the Pluralistic World* Veli-Matti Kärkkäinen, 2019-06-20 Kärkkäinen's acclaimed five volume constructive theology abridged in one accessible volume Providing a new and unique way of doing theology in our pluralistic world Veli Matti Kärkkäinen presents historic Christian doctrines in relation to the natural sciences and four other living faiths Judaism Islam Buddhism and Hinduism This textbook covers all systematic topics along with a host of current issues such as violence colonialism inclusivity sociopolitical liberation environmental care and more Accessible and student friendly *Christian Theology in the Pluralistic World* is the ideal text for exploring a theological vision at once rooted in the Christian tradition and constructive in its engagement with the complexities of our global pluralistic world      **Ecologies of Grace** Willis Jenkins, 2008-02-04 Christianity struggles to show how living on Earth matters for living with God While people of faith increasingly seek practical ways to respond to the environmental crisis theology has had difficulty contextualizing the crisis and interpreting the responses In *Ecologies of Grace* Willis Jenkins presents a field shaping introduction to Christian environmental ethics that offers resources for renewing theology Observing how religious environmental practices often draw on concepts of grace Jenkins maps the way Christian environmental strategies draw from traditions of salvation as they engage the problems of environmental ethics By being particularly sensitive to the ways in which environmental problems are made intelligible to Christian moral experience Jenkins guides his readers toward a fuller understanding of Christianity and ecology He not only makes sense of the variety of Christian environmental ethics but by showing how environmental issues come to the heart of Christian experience prepares fertile ground for theological renewal      Queering Christianity Robert E. Shore-Goss, Thomas Bohache, Patrick S. Cheng, Mona West, 2013-06-25 A fascinating read for anyone seeking to understand the conflict between Christianity and LGBTQI individuals this book is as its editors proclaim a fearlessly wide vision of queer Christians finding a place within Christianity and claiming their authentic experience and voice Through essays by noted lesbian gay bisexual transgender queer or questioning and intersex LGBTQI religion scholars this important compilation summarizes the history and current status of LGBTQI theology exploring its relationship to the policies practices and theology of traditional Christianity Contributors contrast the radically inclusive thinking of LGBTQI theology with the exclusivity practiced by many Christian churches explaining the reasoning of each and clarifying contentious issues At the same time the book highlights ways in which queer theology and practice benefit Christian congregations Writing from the perspective of grassroots Christian LGBTQI movements many of the contributors draw upon their own experiences They provide graphic examples of the effects exclusion has on individuals congregations and denominations and also share examples of inclusion and its effects Equally important the work creates the basis for dialogue between traditional churches and followers of LGBTQI theology offering practical suggestions for Christian congregations that wish to put aside exclusionary policies and practices      Down to Earth Richard Floyd, 2015-08-18 In the face of climate change and ecological diminishment how can we hope that creation itself good and beautiful marked by

tragedy and chaos is taken up rather than left behind Can a Christian vision which has at times been drunk on eschatological dreams or nightmares that consign this world and most of its creatures to destruction foster an earthly hope Jurgen Moltmann and Sallie McFague offer two contemporary possibilities for an ecological eschatology Floyd critiques both of these theological visions and traces an alternative that is both humble grounded in the humus the dirt and hopeful grounded in divine creativity arguing that a down to earth hope is grounded finally in beauty the beauty of the other that draws out the self the beauty of the redeemed self coming out to meet the other and the beauty of God that lures forth ever new possibilities and gathers up all the beautiful and broken creatures into the deepest possible harmony *Awake to the Moment* Laurel C. Schneider, Stephen G. Jr. Ray, 2004-12-01 Most introductory textbooks in theology see their primary task as explaining Christian doctrines that no one quite understands anymore While this is one of theology's jobs it is by no means the only nor even the most important one Theology has also been called to change the world to help people connect deeply rooted beliefs about the world's source and goal to questions of personal meaning and communal thriving Theology is here to help us make sense of the complex flawed world into which we've been thrust and to assist us in our attempt to love our neighbors and live toward the common good For more than forty years the Workgroup on Constructive Theology has brought the liberal and liberationist theological traditions into creative encounter with lived human experience In this introduction to the methods and tasks of theology they invite a new generation of readers many who will have little or no exposure to Christian doctrine to see theology as a partner in the struggle for a better world They demonstrate how theological ideas have legs playing themselves out not only in religious communities but in the public square as well Theology the authors tell us is constructive when it joins in God's work of building human lives and human societies Readers will learn to think about all of life in light of their religious commitments and to see theology as an essential tool for a life well lived **This Sacred Earth** Roger S. Gottlieb, 2003-11-07 Updated with nearly forty new selections to reflect the tremendous growth and transformation of scholarly theological and activist religious environmentalism the second edition of *This Sacred Earth* is an unparalleled resource for the study of religion's complex relationship to the environment **The Routledge Companion to Religion and Science** James W. Haag, Gregory R. Peterson, Michael L. Spezio, 2012-03-12 The field of religion and science is one of the most exciting and dynamic areas of research today This Companion brings together an outstanding team of scholars to explore the ways in which science intersects with the major religions of the world and religious naturalism The collection provides an overview of the field and also indicates ways in which it is developing Its multicultural breadth and scientific rigor on topics that are and will be compelling issues in the first part of the twenty first century and beyond will be welcomed by students and scholars alike Theology that Matters Darby Kathleen Ray, What difference does theological thinking make Does Christianity have any relevance for our secular globalized environmentally threatened world Specifically formulated for undergraduate and seminary courses in theology this volume answers a resounding yes Gathering many

respected and original Christian thinkers who have been inspired by the example and work of theologian Sallie McFague this book engages such topics as God Christ revelation eschatology and church in three intertwined and pressing areas 1 our religious life and language in a secularized pluralistic society 2 our newly globalized economic life and 3 our threatened environmental life

**The Ecological Community** Roger S. Gottlieb, 2014-01-02 The Ecological Community offers important and previously unexplored responses to the environmental crisis The premise of this volume writes editor Roger Gottlieb is that the environmental crisis challenges the presuppositions of and creates a rich field of creative work in philosophy politics and moral theory These eighteen essays are fresh and compelling interrogations of the existing wisdom in a host of areas including liberalism communicative ethics rights theory and environmental philosophy itself Contributors Avner de Shalit Gus diZerega Roger S Gottlieb Eric Katz Robert Kirkman Andrew Light Brian Luke David Macauley Mark A Michael Carl Mitcham John O Neill Holmes Rolston III David Schlosberg William Throop Steven Vogel Mark I Wallace Peter S Wenz Michael E Zimmerman

*God is Green* Bob Shore-Goss, 2016-10-28 At this time of climate crisis here is a practical Christian ecospirituality It emerges from the pastoral and theological experience of Reverend Robert Shore Goss who worked with his congregation by making the earth a member of the church by greening worship and by helping the church building and operations attain a carbon neutral footprint Shore Goss explores an ecospirituality grounded in incarnational compassion Practicing incarnational compassion means following the lived praxis of Jesus and the commission of the risen Christ as Gardener Jesus becomes the green face of God Restrictive Christian spiritualities that exclude the earth as an original blessing of God must expand This expansion leads to the realization that the incarnation of Christ has deep roots in the earth and the fleshly or biological tissue of life This book aims to foster ecological conversation in churches and outlines the following practices for congregations meditating on nature inviting sermons on green topics covenanting with the earth and retrieving the natural elements of the sacraments These practices help us recover ourselves as fleshly members of the earth and the network of life If we fall in love with God's creation says Shore Goss we will fight against climate change

*Pentecostal Perspectives on Social Justice* Thomas U. Kurt, 2025-06-10 The beginnings of the Pentecostal movement were characterized by charismatic gifts and an extraordinary missionary dynamic At the same time early Pentecostals stood out from their social environment for their liberal practices on race and women's issues and for their pacifism In a world characterized by violence oppression and exploitation the question of justice is crucial for the future of this world At the same time for Pentecostals the question of the future of this world is closely linked to the kingdom of God This book explores whether there is a common denominator in Pentecostal social ethics what that denominator consists of and what its theological categories are To answer these questions it examines four representatives of the global Pentecostal church who have made prominent contributions in the field of social ethics The results are then discussed in a dialogue with Jürgen Moltmann one of the most prominent voices in systematic theology for social justice and the liberation of the oppressed

Monotheism, Intolerance, and the Path to Pluralistic Politics Christopher A. Haw, 2021-06-17 Explores the dangers and benefits of monotheistic intolerance interacting with scholars of monotheism evolutionary theory and agonistic pluralism

**God's Wounds** Jeff B Pool, 2011-07-28 God's Wounds Hermeneutic of the Christian Symbol of Divine Suffering Volume I Divine Vulnerability and Creation is the first of a three volume study of Christian testimonies to divine suffering The larger study focuses its inquiry on the testimonies to divine suffering themselves seeking to allow the voices that attest to divine suffering to speak freely The goal is then to discover and elucidate the internal logic or rationality of this family of testimonies rather than defending these attestations against the dominant claims of classical Christian theism that have historically sought to eliminate such language altogether from Christian discourse about the nature and life of God In this first volume the author develops an approach to interpreting the contested claims about the suffering of God Through this approach to the Christian symbol of divine suffering he then investigates the two major presuppositions that the larger family of testimonies to divine suffering normally hold an understanding of God through the primary metaphor of love God is love and an understanding of the human as created in the image of God with a life though finite analogous to the divine life the imago Dei as love When fully elaborated these presuppositions reveal the conditions of possibility for divine suffering and divine vulnerability with respect to creation

*God's Wounds: Hermeneutic of the Christian Symbol of Divine Suffering, Volume One* Jeff B. Pool, 2009-01-01 This book constitutes the first volume of a three volume study of Christian testimonies to divine suffering God's Wounds Hermeneutic of the Christian Symbol of Divine Suffering Divine Vulnerability and Creation This study first develops an approach to interpreting the contested claims about the suffering of God Thus the larger study focuses its inquiry into the testimonies to divine suffering themselves seeking to allow the voices that attest to divine suffering to speak freely to discover and elucidate the internal logic or rationality of this family of testimonies rather than defending these attestations against the dominant claims of classical Christian theism that have historically sought to eliminate such language altogether from Christian discourse about the nature and life of God Through this approach this volume of studies into the Christian symbol of divine suffering then investigates the two major presuppositions that the larger family of testimonies to divine suffering normally hold an understanding of God through the primary metaphor of love God is love and an understanding of the human as created in the image of God with a life though finite analogous to the divine life the imago Dei as love When fully elaborated these presuppositions reveal the conditions of possibility for divine suffering and divine vulnerability with respect to creation
