Social Justice, the Common Core, and Closing the Instructional Gap Janet C. Richards,Kristien Zenkov,2015-10-01 There is little doubt that the Common Core State Standards CCSS are a controversial entity They are provocative for the way in which they have been developed for the ways they are being implemented and evaluated for their content and for their failure to explicitly consider the needs interests and histories of diverse populations While the CCSS continue to be problematized by critics around the country including the editors of this volume it is evident our nation is moving toward some would argue we have arrived at a national set of standards and or a national curriculum This text will be an important volume for multiple audiences in large part because it will bring together critical perspectives on the CCSS and the notion of national standards curricula It will simultaneously provide a social justice orientation as a way to interpret the CCSS and respond to their limits while presenting practical examples of social justice oriented CCSS focused curricula that empower diverse learners and their teachers Social Justice the Common Core and Closing the Instructional Gap will consist of chapters by classroom teachers and university scholars who portray honest engaging first person accounts of their successes and challenges connecting a social justice pedagogical orientation to the Common Core State Standards These authors candidly and passionately share the challenges of navigating between a social justice curriculum and high stakes standards and test driven environments They highlight their accomplishments that include effectively supporting students to consider social injustices and devise plans to work toward a more equitable world

**PLC+** Douglas Fisher, Nancy Frey, John Almarode, Karen Florio, Dave Nagel, 2019-05-16 What makes a powerful and results-driven Professional Learning Community PLC? The answer is collaborative work that expands the emphasis on student learning and leverages individual teacher efficacy into collective teacher efficacy. PLC: Better Decisions and Greater Impact by Design calls for strong and effective PLCs, plus—and that plus is YOU. Until now, the PLC movement has been focused almost exclusively on students and what they were or were not learning. But keeping student learning at the forefront requires that we also recognize the vital role that you play in the equation of teaching and learning. This means that PLCs must take on two additional challenges: maximizing your individual expertise while harnessing the power of the collaborative expertise you can develop with your peers. PLC is grounded in four cross-cutting themes: a focus on equity of access and opportunity; high expectations for all students; a commitment to building individual self-efficacy and the collective efficacy of the professional learning community; and effective team activation and facilitation to move from discussion to action. The PLC framework supports educators in considering five essential questions as they work together to improve student learning: Where are we going? Where are we now? How do we move learning forward? What did we learn today? Who benefited and who did not benefit? The PLC framework leads educators to question practices as well as outcomes. It broadens the focus on student learning to encompass educational equity and teaching efficacy, and in doing so, it leads educators to plan and implement learning communities that maximize individual expertise while harnessing the power of collaborative efficacy.

Brainless Sameness Bob Sornson, 2018-08-16 This book offers a careful look at how we came to have our traditional education system and how it met the needs of a different time. By looking back at the past, we can take on the task of change without casting blame but with understanding. We will consider the systems design of the curriculum-driven one-size-fits-all educational model, why it no longer meets our needs, and how to devise a system which can deliver a better future for our children and for ourselves as educators.
