Craigslist Chicago Exercise Bike:

Such a Pretty Fat Jen Lancaster, 2008-05-06 A NOTE FROM JEN LANCASTER To whom the fat rolls I m tired of books where a self loathing heroine is teased to the point where she starves herself skinny in hopes of a fabulous new life And I hate the message that women can t possibly be happy until we all fit into our skinny jeans I don t find these stories uplifting they make me want to hug these women and take them out for fizzy champagne drinks and cheesecake and explain to them that until they figure out their insides their outsides don t matter Unfortunately being overweight isn t simply a societal issue that can be fixed with a dose healthy of positive self esteem It s a health matter and here on the eve of my fortieth year I ve learned I have to make changes so I don t you know die Because what good is finally being able to afford a pedicure if I lose a foot to adult onset diabetes Watch a QuickTime trailer for this book

Downward Cycle JK Franks, 2016-08-08 If the world fell now would you be able to survive Writing of this order is too rarely encountered and even for those who usually avoid post apocalyptic stories this one is so well conceived and written that it supersedes genre and is simply fine writing When a sudden unexplained blackout slams the world into darkness Scott Montgomery a handful of survivors have to move beyond what was lost to focus on survival Here in the early days of the collapse power Internet and communication networks eventually go down a deadly pathogen escapes overseas then someone launches an opportunistic attack against military bases in the United States The resulting chaos triggers an even more cataclysmic downward cycle of events With the United States and much of the world is crippled opportunist and evil begin to rise up to fill the void This gritty edge of your seat post apocalyptic adventure chronicles the harrowing journey of ordinary people trapped in an encroaching dark age The apocalypse meets the one man who just won t give up in an epic struggle for control over the very future of the country and us as a species Montgomery is the smart and capable hero we need when disaster strikes and the bonds of society inevitably begin to shatter With the situation in his small town on the gulf coast is collapsing faster than predicted his personal rescue mission deep into the heart of an unfamiliar and hostile territory seems destined to fail Pursued by a ruthless militia group and forced to navigate a treacherous landscape he runs a gauntlet of grim decisions and impossible odds to reach possible sanctuary Soon he realizes nothing is safe in the world emerging after the event A thrilling pulse pounding addition to the genre with compelling science and a great cast of characters you ll want to know in real life high octane action This is a no holds barred adventure that will leave you breathless Downward Cycle is book one in the Catalyst Series a post apocalyptic CME EMP thriller series following a group of survivors as they fight to stay alive after a massive Coronal Mass Ejection destroys the world s power supply
