Operator's Manual

Crane Serial Number

The crane serial number is on the Crane Rating Manual in the operator's cab. The crane serial number should always be furnished when ordering parts for the crane, or when corresponding with the Link-Belt Distributor or Factory regarding the crane. The serial number is the only method the Link-Belt Distributor or Factory has of ensuring that the correct parts will be furnished.

In the event the serial number is not readable, a number is stamped on the upper frame which can be used to help to identify the crane. This number is on the front face of the upper frame between the boom foot mounting lugs.
