Conway opens primordial questions about the shattering events of illness through close readings of selected illness narratives proposing that only writing of a daring kind can utter the knowledge of the self telling body. Wielding her ferocious intellect and braving exposure to self and other, Conway makes original discoveries about writing and illness and more stunningly about writing and life. Not a book about illness, this is a book about writing and being. It is taut, brave, unequalled in our scholarship, and true. Conway joins our most powerful investigators of the human predicament of mortality, helping us to see, helping us to live.

Rita Charon, Columbia University Program in Narrative Medicine

Published accounts of illness and disability often emphasize hope and positive thinking: the woman who still looked beautiful after losing her hair, the man who ran five miles a day during chemotherapy. This acclaimed examination of the genre of the illness narrative questions that upbeat approach. Author Kathlyn Conway, a three-time cancer survivor and herself the author of an illness memoir, believes that the triumphalist approach to writing about illness fails to do justice to the shattering experience of disease. By wrestling with the challenge of writing about the reality of serious illness and injury, she argues, writers can offer a truer picture of the complex relationship between body and mind.

I'm Not a Mourning Person Kris Carr, 2023-09-19 From New York Times

Bestselling author Kris Carr comes with a transformational book about love, loss, and all the life-changing insights we receive when we embrace them. A few years ago, Kris Carr's world was falling apart. Her father was dying; she had to pivot her business because of the pandemic, and she was on the verge of reaching her twenty-year milestone of living with an incurable Stage IV cancer diagnosis. While sitting in a CVS parking lot, she broke down, finally allowing herself to feel the massive stress and sadness she had been suppressing in order to seem strong for those around her and for herself. And then she asked herself: If embracing my intense emotions helped me feel even the slightest bit better, why was I so determined to avoid them? And given how all-encompassing this hint of catharsis felt, where else in my life have I been avoiding grief? In this book, Kris shares her embarrassing, painful, helpful, hilarious, and sometimes inappropriate stories and observations about what to expect when you're not expecting your world to fall apart. If your life has been turned upside down, whether it be the dissolving of a relationship or marriage, the end of a job or career, any other number of significant unexpected transitions, or like Kris, you are wrestling with the pain that comes from an illness or the death of a loved one, this book is filled with real-life experiences, practices, and insights that can help you feel better, not cured, but better. It will provide comfort and community as you learn that these big, messy emotions can be a catalyst to take inventory of your life, figure out what matters most, and reset, because as Kris says, when we're brave enough to tend to our hearts, our messy emotions can teach us how to be free, not free from pain, but free from the fear of pain and the barrier it creates to fully living.
