Lifting Productivity In Singapore's Retail And Food Services Sectors: The Role Of

Technology, Manpower And Marketing

Mun Heng Toh, 2018-05-25 Measuring productivity is often considered a difficult task for industries in the services sectors. This book offers a solution in the form of the 8M approach: Management, Manpower, Method, Money, Market, Make, Material, and Message. This 8M framework is used to analyze the many facets of productivity and make pertinent solutions and suggestions to lift productivity in enterprises, especially those in the retail and food services sectors. This book consists of 10 chapters. Each chapter is an in-depth study of a specific measure: be it a technological system, a manpower strategy, or a marketing program to improve the performance and productivity of small and medium enterprises (SMEs) in the retail and food services sectors in Singapore. Technology-driven solutions are the highlight of this book. Every study presented involves field work in terms of surveys, interviews, or focus group discussions with stakeholders. The findings of the studies lead to policy recommendations and suggestions for improving the productivity performance of SMEs in the retail and food services sectors.

Principios, herramientas e implementación de Lean Construction

Luis Fernando Botero Botero, 2021-05-01 Principios, herramientas e implementación de Lean Construction aborda el desarrollo de los sistemas de producción desde la producción artesanal su evolución hacia la producción en masa hasta el cambio radical del paradigma de producción en el siglo con el modelo Toyota en Japón cuyas bases fueron utilizadas para proponer la teoría de transformación de flujo de valor en la construcción. Se describen algunas herramientas enmarcadas en los principios Lean y aplicables al entorno de la construcción en sinergia con otros enfoques recientes como la construcción virtual y la construcción sostenible. Además se desarrollan conceptos teóricos y aplicaciones prácticas recopiladas por el autor durante los últimos quince años a partir de su investigación sobre el tema y de múltiples ejercicios de acompañamiento como consultor en la implementación de Lean Construction en empresas de Colombia, Panamá y Costa Rica.

Gestionando (sin) problemas

Néstor Gavilán Ferrer, 2024-10-28 El Lean es un método innovador que busca optimizar los procesos de gestión y productivos de la empresa que lo ponga en práctica sea cual sea el sector al que la empresa pertenezca. De este modo se utilizan menos recursos por lo que cualquier proceso se convierte en más eficiente. Su máxima está en reducir la inversión en tiempo y el esfuerzo. El método Lean es una forma de pensar que busca optimizar los procesos de gestión de una empresa que ayuda a las organizaciones a innovar y seguir siendo competitivas. Lean tiene como objetivo la mejora continua de los procesos de creación y suministro de productos y servicios, además de desarrollar y capacitar a las personas mediante la resolución de problemas y de coaching para finalmente desarrollar líderes y establecer un sistema de gestión eficaz que permita la comunicación, la transparencia y el aprendizaje continuo. Gestionando sin problemas ofrece un modelo completo de Transformación Lean al tiempo que cubre todos los aspectos que pueden hacer que esta no llegue a buen puerto. Esto lleva a proponer seis prácticas clave para aplicarse en una Transformación Lean exitosa: como el Hoshin Kanri, Gestión Visual, Trabajo Estándar, del Líder, Standard Work, Coaching, A3, Kata, y otras características clave de un liderazgo Lean. Incluye también casos prácticos para ejemplificar

estos procesos y c mo se llevaron a cabo y observar la Transformaci n Lean como una forma de alcanzar una condici n futura que deseamos equilibrando la introducci n de herramientas y t cnicas Lean con el cambio cultural que conlleva cualquier transformaci n

The Highly Effective Office Timothy Schipper,2019-01-15 The Highly Effective Office covers the transformation journey required to change the culture in the workplace from processes that suffer from functional separation and silo ed departments to efficient and integrated systems Most office processes have evolved into separate and autonomous stand alone functions that

are sub optimized The result is added wastes in the processes and the customers are often the first to notice The wastes parallel the manufacturing floor wastes and deserve the same attention for identification and removal Yet the culture of the office is predisposed to work by a separation of duties Roles and responsibilities are not aligned around processes The same type of dramatic transformations that were enabled on the concrete factory floor are needed in carpeted offices This book describes methods to transform the value streams in the office and administrative areas of organizations and it outlines why Lean works just as well in the office as it does in manufacturing Wastes typically reach 50% of the process effort and these processes are ripe for improvement Throughout the book waste removal in office processes are fully illustrated with descriptions of applying Lean tools to achieve flow Case studies from the corporations non profits and higher education institutions demonstrate how various types of organizations have reached success by applying Lean principles to their processes Lean expert Timothy Schipper outlines the structural and leadership changes that are required to create a transformational journey for process change and continuous improvement Leadership activities are outlined along with descriptions of how to assign ownership and responsibility for the changes inside the organization Various leadership behaviors are explored that support and help to sustain the effort Attention is given to how to start the journey how to select projects and launch them with clear goals and objectives and how to run successful workshops as well as visual tools and techniques and educational content Finally and most importantly a description of the mature Lean culture is offered to show how to embed process improvement into the organization
