## **Creating Connection A Relational Cultural Approach With Couples Family Therapy And Counseling:**

*Creating Connection* Judith V. Jordan, Jon Carlson, 2014-05-01 Relational Cultural Therapy RCT is developed to accurately address the relational experiences of persons in devalued cultural groups. As a model, it is ideal for work with couples; it encourages active participation in relationships, fosters the well-being of everyone involved, and acknowledges that we grow through and toward relationships throughout the lifespan. Part and parcel with relationships is the knowledge that whether intentionally or not, we fail each other, misunderstand each other, and hurt each other, causing an oftentimes enduring disconnect. This book helps readers understand the pain of disconnect and to use RCT to heal relationships in a variety of settings, including with heterosexual couples, lesbian and gay couples, and mixed race couples. Readers will note a blending of approaches: person-centered narrative systems and feminist theory, all used to change the cultural conditions that can contribute to problems: unequal, sometimes abusive power arrangements, marginalization of groups, and rigid gender, race, and sexuality expectations. Readers will learn to help minimize economic and power disparities and encourage the growth of mutual empathy while looking at a variety of relational challenges, such as parenting, stepfamilies, sexuality, and illness. Polarities of you vs me will be replaced with the healing concept of us.

Karl Tomm,Sally St. George,Dan Wulff, Tom Strong,2014-05-16 In this book we present a comprehensive view of a systemic approach to working with families initiated by Karl Tomm more than two decades ago at the Calgary Family Therapy Centre in Canada The contributors of this edited book articulate the IPscope framework as it was originally designed and its evolution over time We invite you experienced professionals and new family therapists to join with us to explore some of the mysteries of human relationships While the focus on our explorations revolves around clinical mental health problems and initiatives towards solutions the concepts are applicable in many domains of daily life They highlight the ways in which we as persons invite each other into recurrent patterns of interaction that generate and maintain some stability in our continuously changing relationships The stabilities arise when our invitations become coupled and can be characterized as mutual yet they
