Singh, John Davidson, 2015-01-08 A Beginner's Guide to Water Gardens Table of Contents Introduction Growing Plants in Your Water Garden Siting Your Pool Formal and Informal Water Gardens Shallow Pools or Deep Pools Different Types of Pools Concrete Pools How to Make Your Own Pond Prefabricated Pools Miscellaneous Containers Polythene Sheeting Stream Gardens Bog Gardens Using a Tub as a Water Garden Planting in Containers Winter Care of Pools Planting Your Pools No Organic Materials Growing Water Lilies Maintenance and Care Cleaning Your Pond Planting Aquatic Plants Planting Oxygenators Best Planting Time Livestock in Your Pool Discolored Water Suggested Plants for Your Pool Conclusion Author Bio Publisher Introduction I was talking about gardening with a friend who is an avid gardener when we got onto the topic of water Gardens Her immediate reaction was how do you make a water garden in a limited space especially in congested cities Water gardens are only for those houses built in really wide open spaces and plenty of land where you can go high wide and free making a water garden Unfortunately that is the mindset of a number of people out there who are under the impression that you need plenty of land in which to make a water garden That is because the moment you say this word water garden you visualize a huge pool in which a number of exotic plant species float You may also find some Koi goldfish moving leisurely to and fro and people appreciating that garden while walking around it leisurely of an evening Well that may be all right for a hotel lobby where no expenses are spared However ordinary water gardens can be made right in your back yard in the limited space and with a little bit of creative gardening I told my friend that a water garden could be made in the amount of space in which she wanted to erect a water fountain and she blinked What is the fun of a small water garden was her immediate response I replied Just think about it After all you are planting some attractive plant species which are growing in water This is a contrast to the plants growing on land You do not have any kids and you do not have any pets which may find them taking a ducking in that water garden So think about it She did And now she has a small water garden in her backyard It has water lilies and lotuses goldfish and even tadpoles in it Also a Walt Disney statue of Snow white's pal Dopey looking at his reflection in his typical dopey fashion The idea of water gardening is definitely not a modern concept Since millenniums water gardens have been a part of garden layouts Be they the palaces of Caesar in Greece or a castle in Spain or a manor in Britain or perhaps the palace of Kublai Khan you could be certain that there would be a water garden built there and tended carefully

and lovingly by all the gardeners Waterscaping Judy Glattstein,1994 Describes over 250 moisture loving plants step by step instructions for installing manufactured pools directions for creating and maintaining container water gardens
