Version 2.0.0

*Betty Ladley Finkbeiner • Donna J. Phinney
Judy H. Hulstead*

The Dental Assisting Interactive Skills and Procedures CD-ROM is designed to help you learn essential dental assisting skills. Many exercises are based on case studies of individual patients. From the case study menu, choose a patient file and then practice the dental assisting skill for that patient's procedure. Interactive exercises provide opportunities to take blood pressure, complete oral and periodontal charts, mount radiographs, and set up dental trays for a variety of procedures. New to this edition are robust exercises related to identification of oral pathologies and instruments.
