Democracy And Prebendalism In Nigeria Critical Interpretations:

Democracy and Prebendalism in Nigeria W. Adebani, E. Obadare, 2013-02-21 Richard Joseph's seminal 1987 book *Democracy and Prebendal Politics in Nigeria* represented a watershed moment in the understanding of the political dynamics of Nigeria. This groundbreaking collection brings together scholars from across disciplines to assess the significance of Joseph's work and the current state of Nigerian politics.

Democracy and Nigeria's Fourth Republic Wale Adebani, 2023 Examines Nigeria's challenges with consolidating democracy and the crisis of governance arising from structural errors of the state and the fundamental contradictions of the society in Nigeria's Fourth Republic. *Religion and the Making of Nigeria* Olufemi Vaughan, 2016-12-09 In *Religion and the Making of Nigeria* Olufemi Vaughan examines how Christian, Muslim, and indigenous religious structures along with the legacies of British colonial rule have provided the essential social and ideological frameworks for the construction of contemporary Nigeria.

Nigeria and the Nation-State John Campbell, 2024-08-13 Nigeria, despite being the African country of greatest strategic importance to the U.S., remains poorly understood. John Campbell explains why Nigeria is so important to understand in a world of jihadi extremism, corruption, oil conflict, and communal violence. The revised edition provides updates through the recent presidential election.

The SAGE Encyclopedia of World Poverty Mehmet Odekon, 2015-06-15 The SAGE Encyclopedia of World Poverty, Second Edition, addresses the persistence of poverty across the globe while updating and expanding the landmark work *Encyclopedia of World Poverty*, originally published in 2006 prior to the economic calamities of 2008. For instance, while continued high rates of income inequality might be unsurprising in developing countries such as Mexico, the Organization of Economic Cooperation and Development (OECD) reported in May 2013 even countries with historically low levels of income inequality have experienced significant increases over the past decade, including Denmark, Sweden, and Germany. The U.N. and the World Bank also emphasize the persistent nature of the problem. It is not all bad news. In March 2013, the Guardian newspaper reported: "Some of the poorest people in the world are becoming significantly less poor according to a groundbreaking academic study which has taken a new approach to measuring deprivation." The report by Oxford University's poverty and human development initiative predicts that countries among the most impoverished in the world could see acute poverty eradicated within 20 years if they continue at present rates. On the other hand, the U.N. says environmental threats from climate change could push billions more into extreme poverty in coming decades. All of these points lead to the need for a revised, updated, and expanded edition of the *Encyclopedia of World Poverty*. Key Features: 775 evaluated and updated and 175 entirely new entries; New Reader's Guide categories; Signed articles with cross references; Further Readings will be accompanied by pedagogical elements; Updated Chronology; Resource Guide; Glossary and thorough new Index. The SAGE Encyclopedia of World Poverty, Second Edition, is a dependable source for students and researchers who are researching world poverty, making it a must-have reference for all academic libraries.

Ginsburg, Aziz Z. Huq, 2020-04-30 Asks how the parchment promises of a written constitution are translated into political practice working through the many problems of constitutional implementation after adoption The Oxford Handbook of Africa and Economics Célestin Monga, Justin Yifu Lin, 2015-07-02 For a long time economic research on Africa was not seen as a profitable venture intellectually or professionally few researchers in top ranked institutions around the world chose to become experts in the field This was understandable the reputation of Africa centered economic research was not enhanced by the well known limitations of economic data across the continent Moreover development economics itself was not always fashionable and the broader discipline of economics has had its ups and downs and has been undergoing a major identity crisis because it failed to predict the Great Recession Times have changed many leading researchers including a few Nobel laureates have taken the subject of Africa and economics seriously enough to devote their expertise and creativity to it They have been amply rewarded the richness complexities and subtleties of African societies civilizations rationalities and ways of living have helped renew the humanities and the social sciences and economics in particular to the point that the continent has become the next major intellectual frontier to researchers from around the world In collecting some of the most authoritative statements about the science of economics and its concepts in the African context this handbook the first of two volumes opens up the diverse acuity of commentary on exciting topics and in the process challenges and stimulates the quest for knowledge Wide ranging in its scope themes language and approaches this volume explores examines and assesses economic thinking on Africa and Africa's contribution to the discipline The editors bring a set of powerful resources to this endeavor most notably a team of internationally renowned economists whose diverse viewpoints are complemented by the perspectives of philosophers political scientists and anthropologists *Niger Delta: The Business of the Oil Curse* Marc-Antoine Pérouse de Montclos, 2024-05-13 Based on 30 years of fieldwork in the Niger Delta this book debunks the determinism of the resource curse theory in Nigeria Africa's leading oil producer and the most populous country on the continent It rather shows that oil and gas production is only one element of a social problem with much deeper roots It also investigates the role played by the youth a key issue in a society where half of the population is under 18 years old To understand the multiple causes of the crisis it thus delves into the complexity of a rich history The Industrial Policy Revolution II J. Esteban, J. Stiglitz, Justin Lin Yifu, 2013-12-13 This volume is the result of the 2012 International Economic Association's series of roundtables on the theme of Industrial Policy The first New Thinking on Industrial Policy was hosted by the World Bank in Washington D C and the second New Thinking on Industrial Policy Implications for Africa was held in Pretoria South Africa Resistance Shane Moran, 2021-04-19 In Resistance Sol Plaatje and South Africa Shane Moran studies Sol Plaatje the founding secretary of what was to become the African National Congress ANC and his work within the context of colonial politics and resistance Arguing for a return to the study of one of the founders of anti racism Moran explores issues of land reform human rights and the legacy of colonialism Through an in depth analysis of Plaatje's resistance

to racial domination Moran examines the nature of the struggles that continue within and beyond South Africa today In particular Moran analyzes events from the beginning of the previous century that shaped post 1994 South Africa such as the resolution of the ANC to expropriate land without compensation *Entangled Domains* Rabiat Akande,2023-06 This book provides the first account of the sustained entanglement of law religion and empire in Northern Nigeria Overcoming Toxic Emotions Raymond Olusesan Aina,2022-07-06 Overcoming Toxic Emotions is a compelling theme to enrich the restorative justice literature on the complex tasks of relational repair in a transitional society With its emphasis on the centrality of rebuilding trust and renewing the mode of being together this book is an innovative addition to the literature on justice in transitional societies It offers an original assessment of the Nigerian experience of restorative justice in peacebuilding This genuinely theological work opens new perspectives for a more adequate understanding of the Christian contribution to peacebuilding and the secular debate on restorative justice Yet the author expresses himself as an African theologian paying attention to the specific context of the problems about transitional justice and integrating spontaneously the wisdom of his dual cultures Yoruba and Christianity With its attentiveness to victim perspectives the book engages the traditional notion of divine omnipotence and vulnerability The book rejects the notion of the fetish omnipotent God It opts instead for an image of God as vulnerable yet powerful in love compelling inspiring and rallying us **Writing the Nigeria-Biafra War** Toyin Falola,Ogechukwu Ezekwem,2016 21 Female Participation in War and the Implication of Nationalism The Postcolonial Disconnection in Buchi Emecheta s Destination Biafra Select Bibliography Index **Political Violence and Oil in Africa** Zainab Ladan Mai-Bornu,2020-06-08 The book argues that in order to better understand the undercurrents of the Niger Delta conflict it is imperative to analyse the dynamics of choice in terms of the distinct courses of action taken by the Ogoni and Ijaw Given the similar structural constraints the author considers why the Ogoni adopted nonviolent resistance and the Ijaw violent resistance This book is divided into seven chapters starting with an introduction to oil and political violence in African conflicts and includes a synoptic overview of four other resource rich countries in Africa Theoretical and conceptual underpinnings of conflict are then presented with the aim of situating the Niger Delta conflicts within the wider conflict literature Chapter Three concentrates the discussion on the Nigerian Niger Delta outlining the core issues at the centre of the contestations The following three chapters offer an in depth empirical analysis on the interaction between the narratives on nonviolence versus violence the nature of leadership styles and the organisation of the Ogoni and Ijaw movements along with a concluding chapter **Mobility, Mobilization, and Counter/Insurgency** Daniel E Agbibo,2022-02-15 In Mobility Mobilization and Counter Insurgency Daniel Agbibo takes African insurgencies back to their routes by providing a transdisciplinary perspective on the centrality of mobility to the strategies of insurgents state security forces and civilian populations caught in conflict Drawing on one of the world s deadliest insurgencies the Boko Haram insurgency in northeast Nigeria and the Lake Chad region this well crafted and richly nuanced intervention offers fresh

insights into how violent extremist organizations exploit forms of local immobility and border porosity to mobilize new recruits how the state's war on terror mobilizes against so called subversive mobilities and how civilian populations in transit are treated as could be terrorists and subjected to extortion and state sanctioned violence en route The multiple and intersecting flows analyzed here upend Eurocentric representations of movement in Africa as one sided anarchic and dangerous Instead this book underscores the contradictions of mobility in conflict zones as simultaneously a resource and a burden Intellectually rigorous yet clear engaging and accessible *Mobility Mobilization and Counter Insurgency* is a seminal contribution that lays bare the neglected linkages between conflict and mobility **Presidential Elections in Nigeria's**

Alao, M. Sani Umar, 2023-11-16 Exploring the contentious landscape of Nigeria's escalating violence this book describes the changing roles of traditional authorities in combatting contemporary security challenges Set against a backdrop of widespread security threats including insurgency land disputes communal violence regional independence movements and widespread criminal activities perhaps more than ever before Nigeria's conventional security infrastructure seems ill equipped for the job This book offers a fresh empirical analysis of the roles of traditional authorities including kings Ezes Obas and Emirs who are often hailed as potent alternatives to the state in security governance It complicates the assumption that these traditional leaders by virtue of their customary legitimacy and popular roots are singularly effective in preventing and managing violence Instead in exploring their creative adaptation to governance roles after a dramatic postcolonial downturn this book argues that traditional leaders can augment but not substitute the state in addressing insecurity This book's in depth analysis will be of interest to researchers and policy makers across African and security studies political science anthropology and development The Open Access version of this book available at <http://www.taylorfrancis.com> has been made available under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license
