A Constructive Critique of Religion Mia Lövheim, Mikael Stenmark, 2020-02-06 Why do some strategies for critique of religion seem to be more beneficial for constructive engagement whereas others increase intolerance polarization and conflict Through an analysis of the reasons underpinning a critique of religion in institutional contexts of secular democratic societies A Constructive Critique of Religion explores how constructive interaction and critique can be developed across diverse interests It shows how social and cultural conditions shaping these institutions enable and structure a critical and constructive engagement across diverging worldviews A key argument running through the book is that to develop constructive forms of critique a more thorough and systematic investigation of resources for criticism located within religious worldviews themselves is needed Chapters also address how critique of Islam and Christianity in particular is expressed in areas such as academia the law politics media education and parenting with a focus on Northern Europe and North America The interdisciplinary approach which combines theoretical perspectives with empirical case studies contributes to advancing studies of the complex and contentious character of religion in contemporary society

The Empty Place Teresa Hoskyns, 2014-07-17 In The Empty Place Democracy and Public Space Teresa Hoskyns explores the relationship of public space to democracy by relating different theories of democracy in political philosophy to spatial theory and spatial and political practice Establishing the theoretical basis for the study of public space Hoskyns examines the rise of representative democracy and investigates contemporary theories for the future of democracy focusing on the Chantal Mouffe's agonistic model and the civil society model of Jürgen Habermas She argues that these models of participatory democracy can co exist and are necessarily spatial The book then provides diverse perspectives on how the role of physical public space is articulated through three modes of participatory spatial practice The first focuses on issues of participation in architectural practice through a set of projects exploring the open spaces of a postwar housing estate in Euston The second examines the role of space in the construction of democratic identity through a feminist architecture art collective producing space through writing performance and events The third explores participatory political democratic practice through social forums at global European and city levels Hoskyns concludes that participatory democracy requires a conception of public space as the empty place allowing different models and practices of democracy to co exist

Public Reason and Political Community Andrew Lister, 2013-10-24 Public Reason and Political Community defends the liberal ideal of public reason against its critics but as a form of moral compromise for the sake of civic friendship rather than as a consequence of respect for persons as moral agents At the heart of the principle of public justification is an idealized unanimity requirement which can be framed in at least two different ways Is it our reasons for political decisions that have to be unanimously acceptable to qualified points of view otherwise we exclude them from deliberation or is it coercive state action that must be unanimously acceptable otherwise we default to not having a common rule or policy on the issue at hand

Andrew Lister explores the anti perfectionist dilemma that results from this ambiguity He defends the reasons model on grounds of the value of political community and applies it to recent debates about marriage Contemporary Chinese Political Thought Fred Dallmayr,Zhao Tingyang,2012-07-27 Westerners seem united in the belief that China has emerged as a major economic power and that this success will most likely continue indefinitely But they are less certain about the future of China s political system China s steps toward free market capitalism have led many outsiders to expect increased democratization and a more Western political system The Chinese however have developed their own version of capitalism Westerners view Chinese politics through the lens of their own ideologies preventing them from understanding Chinese goals and policies In Contemporary Chinese Political Thought Debates and Perspectives Fred Dallmayr and Zhao Tingyang bring together leading Chinese intellectuals to debate the main political ideas shaping the rapidly changing nation Investigating such topics as the popular China Model the resurgence of Chinese Confucianism and its applications to the modern world and liberal socialism the contributors move beyond usual analytical frameworks toward what Dallmayr and Zhao call a dismantling of ideological straitjackets Comprising a broad range of opinions and perspectives Contemporary Chinese Political Thought is the most up to date examination in English of modern Chinese political attitudes and discourse Features contributions from Ji Wenshun Zhou Lian Zhao Tingyang Zhang Feng Liu Shuxian Chen Ming He Baogang Ni Peimin Ci Jiwei Cui Zhiyuan Frank Fang Wang Shaoguang and Cheng Guangyun **Wittgenstein and Democratic Politics** Lotar Rasiński,Anat Biletzki,Leszek Koczanowicz,Alois Pichler,Thomas Wallgren,2024-10-28 This volume demonstrates how Wittgenstein s philosophy can illuminate our understanding of politics and open new ways of conceptualizing democratic theory and practice Its focus is on language reason and communication as central to identifying present confusions in our understanding of democracy The book seeks to engage Wittgenstein s philosophical insights aiming to go beyond the dichotomous oppositions and conceptual entanglements pervading existing frameworks of social and political theories of democracy Its key topic is the irreplaceable role of dialogue in civic democratic engagement as a condition for the understanding of self and others and hence for political life in which reason has a role Indeed it presents concrete examples of how Wittgenstein can be constructively applied to current political discourse Part I of the volume focuses on the general idea of applying Wittgenstein s philosophy to political and democratic theory and explains the deep and intrinsic relation between Wittgenstein s thought and politics Part II discusses Wittgenstein s concrete concepts as illuminating for understanding selected aspects of democratic politics Part III deals with a possible exchange between Wittgenstein and other political thinkers especially Hannah Arendt Wittgenstein and Democratic Politics will appeal to researchers and advanced students working on Wittgenstein s philosophy political philosophy and democratic theory *Affirming the Comprehensive Ideal* Richard Pring,Geoffrey Walford,2021-04-29 Examines the ideals which lay behind the development of comprehensive schools Written by 14 British educationalists this text considers the evidence and suggests how further progress might be

Over the last two centuries the Muslim world has undergone dramatic transformations impacting the Islamic tradition and throwing into question our understanding of tradition The notion of tradition as an unmoving edifice is contradicted by the very process of its transmission and the complex role human beings play in creating and sustaining traditions is evident in the indigenous mechanisms of change within the Islamic tradition Politics of the Islamic Tradition locates the work of Egyptian cleric Muhammad al Ghazali within the context of this dynamic Islamic tradition with special focus on his political thought Al Ghazali inherited a vast and diverse heritage which he managed to reinterpret in a changing world An innovative exploration of the change and continuity present within Muslim discourses this book brings together disparate threads of the Islamic tradition religious exegesis the contemporary Arab Middle East the Islamic state and idea of renewal in al Ghazali s thought As well as being one of the first complete treatments of al Ghazali s works this book provides an original critical approach to tradition and its capability for innovation and change countering the dichotomy between tradition and modernity that typically informs most scholarly studies on contemporary Islam Offering highly original insights into Islamic thought and engaging with critical notions of tradition this book is essential reading for students and scholars of Islamic Politics and History

Animating Democracy Barbara Schaffer Bacon,1999 This report was commissioned by the Ford Foundation resulting from a study conducted by Americans for the Arts and its Institute for Community Development and the Arts A condensed version is available in book form through Americans for the Arts and on its website www.artusa.org *Law, Religion and Tradition* Jessica Giles,Andrea Pin, Frank S. Ravitch,2018-09-27 This book explores different theories of law religion and tradition from both a secular and a religious perspective It reflects on how tradition and change can affect religious and secular legal reasoning identifying the patterns of legal evolution within religious and secular traditions It is often taken for granted that even in law change corresponds and correlates to progress that things ought to be changed and they will necessarily get better There is no doubt that legal changes over the centuries have made it possible to enhance the protection of individual rights and to somewhat contain the possibility of tyranny and despotism But progress is not everything in law stability and certainty lie at the core of the rule of law Similarly religions and religious laws could not survive without traditions and yet they still evolve and their evolution is often intermingled with secular law The book asks and in some ways answers the questions What is the role of tradition within religions and religious laws What is the impact of religious traditions on secular laws and vice versa How are the elements of tradition to be identified Are they the same within the secular and the religious realm Do secular law and religious law follow comparable patterns of change Do their levels of resilience differ significantly How does the history of religion and law affect changes within religious traditions and legal systems The overall focus of the book addresses the extent to which tradition plays a role in shaping and re shaping secular

and religious laws as well as their mutual boundaries
