Democratic Governance In Latin America:

Constructing Democratic Governance in Latin America Jorge I. Domínguez, Michael Shifter, 2013-07-31 After more than a century of assorted dictatorships and innumerable fiscal crises the majority of Latin America's states are governed today by constitutional democratic regimes Some analysts and scholars argue that Latin America weathered the 2008 fiscal crisis much better than the United States How did this happen Jorge I Domínguez and Michael Shifter asked area specialists to examine the electoral and governance factors that shed light on this transformation and the region's prospects They gather their findings in the fourth edition of *Constructing Democratic Governance in Latin America* This new edition is completely updated Part I is thematic covering issues of media constitutionalism the commodities boom and fiscal management vis vis governance Part II focuses on eight important countries in the region Argentina Brazil Bolivia Chile Colombia Mexico Peru and Venezuela Already widely used in courses *Constructing Democratic Governance in Latin America* will continue to interest students of Latin American politics democratization studies and comparative politics as well as policymakers

Democratic Governance in Latin America Scott Mainwaring, Timothy R. Scully, 2009-11-24 Producing more effective governance is the greatest challenge that faces most Latin American democracies today a challenge that involves not only strengthening democratic institutions but also increasing governmental effectiveness Focusing on the post 1990 period this volume addresses why some policies and some countries have been more successful than others in meeting this dual challenge Two features of the volume stand out First whereas some analysts tend to generalize for Latin America as a whole this group of authors underscores the striking differences of achievement among countries in the region and illustrates the importance of understanding these differences The second feature is the range of expertise within the volume In addition to the volume editors the contributors are Alan Angell Daniel Brinks Fernando Henrique Cardoso Jos de Gregorio Alejandro Foxley Evelyn Huber Jos Miguel Insulza Juliana Martínez Franzoni Patricio Navia Francisco Rodríguez Mitchell Seligson John Stephens Jorge Vargas Culell and Ignacio Walker

Digital Technologies for Democratic Governance in Latin America Anita Breuer, Yanina Welp, 2014-01-10 This book is the first to comprehensively analyse the political and societal impacts of new Information and Communication Technologies ICT in a region of the Global South It evaluates under what conditions some Latin American governments and people have succeeded in taking up the opportunities related to the spread of ICTs while others are confronted with the pessimist scenario of increased digitally induced social and democratic cleavages Specifically the book examines if and how far the spread and use of new ICT affected central aims of democratic governance such as reducing socio economic and gender inequality strengthening citizen participation in political decision making increasing the transparency of legislative processes improving administrative processes providing free access to government data and information and expanding independent spaces of citizen communication The country case and cross country explore a range of bottom up driven initiatives to reinforce democracy in the region The book offers researchers and

students an interdisciplinary approach to these issues by linking it to established theories of media and politics political communication political participation and governance Giving voice to researchers native to the region and with direct experience of the region it uniquely brings together contributions from political scientists researchers in communication studies and area studies specialists who have a solid record in political activism and international development co operation

Presidents and Democracy in Latin America Manuel Alcántara, Jean Blondel, Jean-Louis Thiébault, 2017-09-07 This new textbook provides students with a comprehensive and accessible introduction to the presidents and presidential leadership in Latin America Unlike other texts Presidents and Democracy in Latin America integrates both political analysis and major theoretical perspectives with extensive country specific material Part One examines the developments in recent years in Latin American presidentialism and identifies different characteristics of society and politics which have influenced Latin American governments The personalization of political life and of presidential government help to illustrate the character of Latin American politics specifically on the type of political career of those who occupied the presidential office the leadership style of these presidents and the type of government which they led Part Two studies two presidents in each of six countries in the region which reflect the broad trends in the political and electoral life Argentina Brazil Chile Colombia Mexico and Peru Each case study first provides the biographical background of the president it outlines the political career of the president both inside and outside of a party including at the local level the popularity of the president at the time of the presidential election is given as well as the mode of selection of the candidates selection by party leaders only by party members or by a primary The relation of the president with the government or ministers especially if there is a coalition government is detailed This textbook will be essential reading for all students of Latin American Politics and is highly recommended for those studying executive politics political leadership and the state of democratic governance in Latin America *Decentralization and Democratic Governance in Latin America* Joseph S. Tulchin, Andrew D. Selee, 2004

Constructing Democratic Governance Jorge I. Domínguez, Abraham F. Lowenthal, 1996-10 In Constructing Democratic Governance Jorge I Domínguez and Abraham F Lowenthal bring together a distinguished group of scholars to assess how well democracy has been working in this volatile part of the world The authors find that serious problems still plague these new democracies Many of these problems are related to the political institutions including political parties the civil service and the justice system Part I introduces broad thematic surveys of such key issues as the role of the left conservatism inequality and indigenous peoples Part II reviews the South American nations Part III focuses on Mexico Central America and the Caribbean including Cuba In Part IV the volume editors draw conclusions about the problems and prospects for stable democracies in Latin America In addition to the complete hardcover edition Constructing Democratic Governance is available in three paperback volumes each containing the introduction and conclusion from the complete edition and organized for convenient course use The New Left and Democratic Governance in Latin America Cynthia J. Arnson, José Raúl

Perales,2007 **The Challenges of Democratic Governance in Latin America and the Caribbean** Jorge I.

Domínguez,Abraham F. Lowenthal,1994 **Latin American Democracy** Richard L. Millett,Jennifer S. Holmes,Orlando J.

Pérez,2015-03-02 More than thirty years have passed since Latin America began the arduous task of transitioning from military led rule to democracy In this time more countries have moved toward the institutional bases of democracy than at any time in the region s history Nearly all countries have held free competitive elections and most have had peaceful alternations in power between opposing political forces Despite these advances however Latin American countries continue to face serious domestic and international challenges to the consolidation of stable democratic governance The challenges range from weak political institutions corruption legacies of militarism transnational crime and globalization among others In the second edition of Latin American Democracy contributors both academics and practitioners North Americans Latin Americans and Spaniards explore and assess the state of democratic consolidation in Latin America by focusing on the specific issues and challenges confronting democratic governance in the region This thoroughly updated revision provides new chapters on the environment decentralization the economy indigenous groups and the role of China in the region

Media and Governance in Latin America Ximena Orchard,Sara Garcia Santamaria,Julieta Brambila,Jairo Lugo-Ocando,2020 This edited book aims at bringing together a range of contemporary expertise that can shed light on the relationship between media pluralism in Latin America and processes of democratization and social justice In doing so the authors of the book provide empirically grounded theoretical insight into the extent to which questions about media pluralism broadly understood as the striving for diverse and inclusive media spheres are an essential part of scholarly debates on democratic governance The rise in recent years of authoritarianism populism and nationalism both in fragile and stable democratic systems makes media pluralism an intellectual and empirical cornerstone of any debate about the future of democratic governance around the world This book useful for students and researchers on topics such as Media Communications Latin American Studies and Politics aims to make a contribution to such debate by approaching some pressing questions about the relationship of Latin American governments with media structures journalistic practices the communication capabilities of vulnerable populations and the expressive opportunities of the general public **The Impact**

of Organized Crime on Democratic Governance in Latin America ,2010 **Deepening Local Democracy in Latin**

America Benjamin Goldfrank,2015-09-10 The resurgence of the Left in Latin America over the past decade has been so notable that it has been called the Pink Tide In recent years regimes with leftist leaders have risen to power in Argentina Bolivia Brazil Chile Ecuador El Salvador Nicaragua Uruguay and Venezuela What does this trend portend for the deepening of democracy in the region Benjamin Goldfrank has been studying the development of participatory democracy in Latin America for many years and this book represents the culmination of his empirical investigations in Brazil Uruguay and Venezuela In order to understand why participatory democracy has succeeded better in some countries than in others he

examines the efforts in urban areas that have been undertaken in the cities of Porto Alegre Montevideo and Caracas His findings suggest that success is related most crucially to how nationally centralized political authority is and how strongly institutionalized the opposition parties are in the local arenas *Democratic Politics in Latin America and the Caribbean* Jorge I. Domínguez, 1998 The transformation of politics in Latin America the consolidation of a democratic consensus in the Anglophone Caribbean and the able performance of many democratic governments in fashioning economic policies made this book intellectually possible Most of Latin America's democratic governments have carried economic reforms more effectively than their authoritarian predecessors and have remained stunningly resilient despite many problems The naysayers have not been proven right Indeed even if democratic governments were to be overthrown tomorrow the history of democratic politics in the 1980s and 1990s is already noteworthy from the Introduction In *Democratic Politics in Latin America and the Caribbean* Jorge Domínguez focuses on the successful accomplishments of democratic politics in the region a process that nations in Eastern Europe Asia and Africa seek to emulate Domínguez considers the role of British colonial rule and United States policies But he also examines the development of parties other civil institutions and competitive markets which lend permanence to democracy He also discusses the prospects for democracy in Cuba and Mexico Despite recurrent problems Domínguez concludes the outlook is good for stable democracies in Latin America and the Caribbean *Democracies and Dictatorships in Latin America* Scott Mainwaring, Aníbal Pérez-Liñán, 2014-01-31 This book presents a new theory for why political regimes emerge and why they subsequently survive or break down It then analyzes the emergence survival and fall of democracies and dictatorships in Latin America since 1900 Scott Mainwaring and Aníbal Pérez-Liñán argue for a theoretical approach situated between long term structural and cultural explanations and short term explanations that look at the decisions of specific leaders They focus on the political preferences of powerful actors the degree to which they embrace democracy as an intrinsically desirable end and their policy radicalism to explain regime outcomes They also demonstrate that transnational forces and influences are crucial to understand regional waves of democratization Based on extensive research into the political histories of all twenty Latin American countries this book offers the first extended analysis of regime emergence survival and failure for all of Latin America over a long period of time **The Third Wave of Democratization in Latin America** Frances Hagopian, Scott P. Mainwaring, 2005-06-06 The late twentieth century witnessed the birth of an impressive number of new democracies in Latin America This wave of democratization since 1978 has been by far the broadest and most durable in the history of Latin America but many of the resulting democratic regimes also suffer from profound deficiencies What caused democratic regimes to emerge and survive What are their main achievements and shortcomings This volume offers an ambitious and comprehensive overview of the unprecedented advances as well as the setbacks in the post 1978 wave of democratization It seeks to explain the sea change from a region dominated by authoritarian regimes to one in which openly authoritarian regimes are the rare exception and it analyzes why

some countries have achieved striking gains in democratization while others have experienced erosions The book presents general theoretical arguments about what causes and sustains democracy and analyses of nine compelling country cases

Democracy in Latin America George Philip, 2003-06-04 Latin America has seen a great extension of democratic government over the past twenty years However democratisation has proved problematic in a number of ways many Latin American countries have seen little per capita growth poverty has increased and political crises have often recurred The idea of the Washington consensus that democracy free markets and prosperity would go together in the region has so far failed In the first part of the book George Philip identifies the reasons why this should be so The chapters are organised around relevant historical and institutional factors such as problems with law enforcement and political tensions inherent in some Latin American variants of presidentialism authoritarian legacies and patrimonial bureaucracies civil military relations market reform and international intervention Globalization has exacerbated these difficulties since it has aggravated the already acute problems of governance facing emerging democracies The second part of the book explores these issues in relation to a series of case studies involving Peru Mexico and Venezuela This will be an ideal textbook for students taking courses in Latin American politics and Latin American Studies *Citizens' Power in Latin America* Pascal

Lupien, 2018-03-14 *Citizens Power in Latin America* takes the reader into the heart of communities where average citizens are attempting to build a new democratic model to improve their socioeconomic conditions and to have a voice in decisions that affect their lives Based on groundbreaking fieldwork conducted in Venezuela Ecuador and Chile Pascal Lupien contrasts two models of participatory design that have emerged in Latin America and identifies the factors that enhance or diminish the capacity of these mechanisms to produce positive outcomes He draws on lived experiences of citizen participants to reveal the potential and the dangers of participatory democracy Why do some democratic innovations appear to succeed while others fail To what extent do these institutions really empower citizens and in what ways can they be used by governments to control participation What lessons can be learned from these experiments Given the growing dissatisfaction with existing democratic systems across the world this book will be of interest to people seeking innovative ways of deepening democracy **The Democratic Revolution in Latin America** Howard J. Wiarda, 1990 **Democracies and**

Dictatorships in Latin America Scott Mainwaring, Aníbal Pérez-Liñán, 2013 Presents a new theory for why democracies and dictatorships emerge and then survive or collapse via analyses of political regimes in Latin America since 1900

Democratic Culture and Governance Luis Albala-Bertrand, 1992
