Civic Education and Contested Democracy Wim de Jong, 2020-10-14 This book explores citizenship education and democracy in the Netherlands From the Second World War to the present day debates about civic education and democracy have raged in the country this book demonstrates how citizens social movements and political elites have articulated their own notions of democracy Civic education illustrates democracy as an essentially contested concept the transmission of political ideals highlights conflicting democratic values and a problem of paternalism Ultimately who dictates what democracy is and to whom As expectations of citizens rise they are viewed more and more as objects of a pedagogical project itself a controversial notion Focusing on what democracy means practically in society this book will be of interest to scholars of citizenship education and post war Dutch political history *Bibliography of the Indonesian Revolution* H.A.J.
