**School Mathematics Curricula** Catherine P. Vistro-Yu, Tin Lam Toh, 2019-04-26 This book sheds light on school mathematics curricula in Asian countries including their design and the recent reforms that have been initiated. By discussing and analyzing various problematic aspects of curriculum development and implementation in a number of East and South Asian countries and offering insights into these countries' unique approaches to supplementing school mathematics curricula, it contributes to shaping effective policies for implementation, assessment and monitoring of curricula. The book covers a wide range of issues: curriculum design, localization of curricula, directions of curricular reforms, mathematics textbooks, assessment within the curriculum and teachers' professional development, which are of interest to a wide international audience.

**Educating for the 21st Century** Suzanne Choo, Deb Sawch, Alison Villanueva, Ruth Vinz, 2016-10-20 All over the world, governments, policymakers and educators are advocating the need to educate students for the 21st century. This book provides insights into what this means and the ways 21st century education is theorized and implemented in practice. The first part, Perspectives: Mapping our futures in the making, uncovers the contradictions, tensions and processes that shape 21st century education discourses. The second part, Policies: Constructing the future through policymaking, discusses how 21st century education is translated into policies and the resulting tensions that emerge from top-down state sanctioned policies and bottom-up initiatives. The third part, Practices: Enacting the Future in Local Contexts, discusses on the ground initiatives that schools in various countries around the world enact to educate their students for the 21st century. This volume includes contributions from leading scholars in the field as well as educators from schools and those working with schools.

**Cases of Mathematics Professional Development in East Asian Countries** Swee Fong Ng, 2015-05-05 This book shows how video technology can be used to inform teachers' personal practice and provides new data and real world case studies not covered by any previous book on the subject. Initial chapters explore how practicing teachers can view their own recorded lessons and take steps to improve their methods, while subsequent chapters examine how pre-service and in-service teachers can use recorded lessons to improve how they teach selected concepts or to better convey specific learning processes such as mathematical modeling and problem solving.

**Asian Research in Mathematics Education** Bill Atweh, Lianghuo Fan, Catherine P. Vistro-Yu, 2023-05-17 This book focuses on the development of research in mathematics education cultures and its products from the perspective of local educators. It consists of contributions from Mainland China, Indonesia, Korea, Macao, Singapore, the Philippines and Turkey. This book examines the development of the culture of research in the respective countries and also reviews the research conducted in the recent past in mathematics education. It takes a critical stance through identifying the various accomplishments and identifying challenges for the future of research in terms of its diversification and quality. Divided into two sections, the first section considers factors around the development of a research culture in the respective countries by focusing on the means used to develop research expertise and quality. The

second section consists of overviews of the area of research and methodologies conducted in mathematics education in the various countries with the intention of highlighting the research topics conducted as well as discussing omissions of such research
