### How-To Video

### How to use this resource:

- Start by making a copy of the original document.
- Choose the templates you need for your quarters. Real life doesn't always give exact 9-week quarters on the calendar, so the templates are 8, 9, and 10-week tables.
- All other tables can be deleted.
- If you want to copy the CCSS standards straight in, then you can do so from the Uneditable version. Each standard is set as an image and can be pasted straight into the table where you want it. If you need to square in standards because you'd like to place in several for a certain week, then resize them.
- If you need to change some of the wording to match your state, use the Editable version.
- When done, delete all pages that you don't need, and save the file as a PDF to print and/or share.
