Research-Based Practices for Teaching Common Core Literacy P. David Pearson,Elfrieda H. Hiebert,2015 This one of a kind resource will be invaluable to every teacher educator every curriculum director and every literacy coach whether or not they must meet Common Core Standards Bringing together perspectives from literacy luminaries each addressing their specialty this book offers an accessible fund of rich practices in literacy instruction The book serves two purposes First it assembles a body of knowledge and wisdom from

leading literacy researchers who each draw from a long career in the field to address topics of central importance to good literacy instruction. Second, these researchers connect established best practices and foundational research to the current challenge of instruction to meet Common Core Standards and other rigorous curriculum guidelines. The contributors point out strengths of the Common Core as well as issues and oversights that educators should be aware of. Closing chapters situate the Common Core within a continuum of educational policy and legislation. Contributors: Richard L. Allington, Monica T. Billen, Jay S. Blanchard, Robert Calfee, Gina N. Sharon Walpole, University of Delaware. This book gets way beyond generalities and polemics about the Common Core, taking a deep and measured dive into a wide range of essential topics within the standards. I read a lot and I can't think of the last time I read anything about the CCSS as engaging and thought provoking as this. Nell K.
