 What if everything we understood about gun violence was wrong In 2007 economist Jens Ludwig moved to the South Side of Chicago to research two big questions Why does gun violence happen and is there anything we can do about it Almost two decades later the answers aren't what he expected Unforgiving Places is Ludwig's revelatory portrait of gun violence in America's most famously maligned city Disproving the popular narrative that shootings are the calculated acts of malicious or desperate people Ludwig shows how most shootings actually grow out of a more fleeting source interpersonal conflict especially arguments By examining why some arguments turn tragic while others don't Ludwig shows gun violence to be more circumstantial and more solvable than our traditional approaches lead us to believe Drawing on decades of research and Ludwig's immersive fieldwork in Chicago including countless hours spent in schools parks playgrounds housing developments courtrooms jails police stations police cars and lots and lots of McDonald's Unforgiving Places is a breakthrough work at the cutting edge of behavioral economics As Ludwig shows progress on gun violence doesn't require America to solve every other social problem first it only requires that we find ways to intervene in the places and the ten minute windows where human behaviors predictably go haywire **I Got a Monster** Baynard Woods,Brandon Soderberg,2020-07-21 The explosive true story of America's most corrupt police unit the Gun Trace Task Force GTTF which terrorized the city of Baltimore for half a decade When Baltimore police sergeant Wayne Jenkins said he had a monster he meant he had found a big time drug dealer one that he wanted to rob This is the story of Jenkins and the Gun Trace Task Force GTTF a super group of dirty detectives who exploited some of America's greatest problems guns drugs toxic masculinity and hypersegregation In the upside down world of the GTTF cops were robbers and drug dealers were the perfect victims because no one believed them When the federal government finally arrested the GTTF for robbery and racketeering in 2017 the stories of victims began to come out revealing a vast criminal enterprise operating within the Baltimore Police Department Cops planted heroin to cover up a fatal crash that resulted from a botched robbery They stole hundreds of thousands of dollars faked video evidence and forged a letter trying to break up the marriage of one of their victims to keep his wife from paying a lawyer And a homicide detective was killed the day before he was scheduled to testify against the crooked cops I Got a Monster is the shocking history of the rise and fall of the most corrupt cops in America from Baynard Woods and Brandon Soderberg **Social Media and Living Well** Berrin A. Beasley,Mitchell R. Haney,2015-02-05
 What is well being Is it a stable income comfortable home and time shared with family and friends Is it clean drinking water and freedom from political oppression Is it finding Aristotle's Golden Mean by living a life of reason and moderation Scholars have sought to define well being for centuries teasing out nuances among Aristotle's writings and posing new theories of their own With each major technological shift this question of well being arises with new purpose spurring scholars to re-examine the challenge of living the good life in light of significantly altered conditions Social media comprise the latest

technological shift and in this book leading scholars in the philosophy and communication disciplines bring together their knowledge and expertise in an attempt to define what well being means in this perpetually connected environment From its blog prototype in the mid to late 2000s to its microblogging reality of today users have been both invigorated and perplexed by social media s seemingly near instant propagation Platforms such as Facebook Twitter YouTube Instagram and LinkedIn have been hailed as everything from revolutionary to personally and societally destructive In an exploration of the role social media play in affecting well being whether among individuals or society as a whole this book offers something unique among academic tomes an opening essay by an executive in the social media industry who shares his observations of the ways in which social communication conventions have changed since the introduction of social media His essay is followed by an interdisciplinary academic exploration of the potential contributions and detractions of social media to well being Authors investigate social media s potential influence on friendship and on individuals physical emotional social economic and political needs They consider the morality of online deception how memes and the very structure of the internet inhibit rational social discourse and how social media facilitate our living a very public life whether through consent or coercion Social media networks serve as gathering places for the exchange of information inspiration and support but whether these exchanges are helpful or harmful to well being is a question whose answer is necessary to living a good life

Sexing the Look in Popular Visual Culture Kathy Justice Gentile, 2020-05-15 With dramatic advances in media technology the practice of sexing or erotically enhancing images has become an increasingly widespread phenomenon The eroticized look as both noun and verb the thing or image that draws our look and the look that we bestow on images that elicit our visual physiological and emotional attention is the focus of the essays in this volume Every day whether we are out in the world or in the workplace or in the privacy of our homes we enter visual fields that heighten and distort reality distortions that often emphasize sexuality and erotic promise The contributors for this collection look at the sexualization of visual culture from a range of disciplinary perspectives including literature film studies history philosophy art history and media studies with gender and sexuality studies providing the encompassing critical framework that binds these essays into a coherent analytical project The essays in this collection offer new theoretical conceptions of perception and representation as well as rigorous reconsiderations of the polarized feminist debates over pornographic images Essays on literature and film range from an interrogation of Baudrillard s theory of seduction that posits femininity as a strategy of illusion and subversion to Bridget Jones s challenge to the prevailing disciplinary regime that prescribes rigid standards for feminine beauty to a reevaluation of the subversive potential of sexy female robots Other contributors consider the history of nudist images in US periodicals the proliferation of eroticized images of girls in new digital technologies gentlemanly masculinity in men s fashion in late Victorian England and a rape prevention campaign s unintentional reinforcement of persistent heterosexist misconceptions about rape
