Craigslist Chicago Weed:

Public Health Intelligence and the Internet Arash Shaban-Nejad, John S. Brownstein, David L. Buckeridge, 2017-09-13
This book aims to highlight the latest achievements in epidemiological surveillance and internet interventions based on monitoring online communications and interactions on the web. It presents the state of the art and the advances in the field of online disease surveillance and intervention. The edited volume contains extended and revised versions of selected papers presented at the International World Wide Web and Population Health Intelligence W3PHI workshop series along with some invited chapters and presents an overview of the issues, challenges, and potentials in the field along with the new research results. The book provides information for a wide range of scientists, researchers, graduate students, industry professionals, national and international public health agencies, and NGOs interested in the theory and practice of computational models of web-based public health intelligence.

An Internet for the People Jessa Lingel, 2022-06-14
How craigslist champions openness, democracy, and other vanishing principles of the early web. Begun by Craig Newmark as an e-mail to some friends about cool events happening around San Francisco, craigslist is now the leading classifieds service on the planet. It is also a throwback to the early internet. The website has barely seen an upgrade since it launched in 1996. There are no banner ads. The company doesn't profit off your data. **An Internet for the People** explores how people use craigslist to buy and sell, find work and find love, and reveals why craigslist is becoming a lonely outpost in an increasingly corporatized web. Drawing on interviews with craigslist insiders and ordinary users, Jessa Lingel looks at the site's history and values, showing how it has mostly stayed the same while the web around it has become more commercial and far less open. She examines craigslist's legal history, describing the company's courtroom battles over issues of freedom of expression and data privacy, and explains the importance of locality in the social relationships fostered by the site. More than an online garage sale, job board, or dating site, craigslist holds vital lessons for the rest of the web. It is a website that values user privacy over profits, ease of use over slick design, and an ethos of the early web that might just hold the key to a more open, transparent, and democratic internet.

One by One Nicholas Bush, 2018-11-13
As seen on The Today Show. A page-turning memoir from a former opioid addict in an opioid-addicted community and an up-close look at America's new health crisis. Behind closed doors, millions of people abuse opioids. Nicholas Bush was one of them. In this beautifully raw and refreshingly honest memoir, Nicholas Bush boldly allows readers into his addiction-ravaged community. We see how heroin nearly claimed his life on multiple occasions, how it stole the lives of his young siblings and friends, and how it continues to wage a deadly toll on American neighborhoods, claiming thousands of lives and decreasing the average lifespan. But we also see that there is a way off of the devastating rollercoaster of opioid addiction, even for the most afflicted. Nicholas fights for recovery, claws his way out of a criminal livelihood, and finds his footing with faith and family, providing Americans with the inspirational story that is deeply needed today.
