Singer-Songwriters and Musical Open Mics Marcus Aldredge, 2016-04-01. Singer Songwriters and Musical Open Mics is an ethnographic exploration of New York City's live music events where musicians sign up and perform short sets. This sociological study dispels the common assumption that open mics are culturally monolithic and reserved for novice musicians. Open mics allow musicians at different locations within their musical development and career to interactively perform, practice and network with other musicians. Important themes in the book include the tension between self and society in the creative process, issues of creative authenticity and authorship, and on going cultural changes central to the Do It Yourself cultural zeitgeist of the early 21st century. The open mic's cultural antecedents include a radio format, folk hootenannies and the jazz jam session. Drawing from multiple qualitative methods, Aldredge describes how open mics have etched a vital organizational place in the western and urban musical landscape. Open mics represent a creative place where the boundaries of practicing and performing seemingly blur. This allows for a range of social settings from more competitive, stratified and homogenous music scenes to culturally diverse weekly events often stretching late into the night. *CareerXRoads 2001*

Against Ambience and Other Essays Seth Kim-Cohen, 2016-03-10. Against Ambience diagnoses in order to cure the art world's recent turn toward ambience. Over the course of three short months, June to September 2013, the four most prestigious museums in New York indulged the ambience

of sound and light James Turrell at the Guggenheim Soundings at MoMA Robert Irwin at the Whitney and Janet Cardiff at the Met In addition two notable shows at smaller galleries indicate that this is not simply a major donor movement Collectively these shows constitute a proposal about what we wanted from art in 2013 While we re in the soft embrace of light the NSA and Facebook are still collecting our data the money in our bank accounts is still being used to fund who knows what without our knowledge or consent the government we elected is still imprisoning and targeting people with whom we have no beef We deserve an art that is the equal of our information age Not one that parrots the age s self assertions or modes of dissemination but an art that is hyper aware vigilant active engaged and informed We are now one hundred years clear of Duchamp s first readymades So why should we find ourselves so thoroughly in thrall to ambience Against Ambience argues for an art that acknowledges its own methods and intentions its own position in the structures of cultural power and persuasion Rather than the warm glow of light or the soothing wash of sound Against Ambience proposes an art that cracks the surface of our prevailing patterns of encounter initiating productive disruptions and deconstructions
