-  Oil splashes and/or surface currents may be removed at machine or should only be wiped up.
-  Prolonged contact with lubricants can cause injury to your skin. Use a protective skin cream.
-  After prolonged operation the lubricant and surface of the gear units may reach temperatures which can cause skin burns. After working on hot components wear protective clothing and protective gloves.
-  The applicable national, local and plant-specific regulations and requirements concerning accident prevention and environmental protection are to be observed.
-  To prevent faults it is necessary to carry out the regular maintenance and inspection work prescribed.
