Crazy In America The Hidden Tragedy Of Our Criminalized Mentally Ill:

Crazy in America Mary Beth Pfeiffer, 2007-05-15 The American prison system today contains an estimated quarter of a million people who suffer from mental illness In this searing critique Mary Beth Pfeiffer shows how people suffering from schizophrenia bipolar disorder clinical depression and other serious psychological illnesses are regularly incarcerated simply because alternative care is not available and how once behind bars they are punished again and again for behavior that is psychotic not criminal Drawing on numerous case studies ranging from the story of a fifty six year old killer who thought he was Jesus Christ to a schizophrenic who plucked her eyes out while in solitary confinement Pfeiffer brings to light the wider failures behind a burgeoning crisis The growing lack of proper help for the mentally ill in society at large has led to the wrongful imprisonment of unprecedented numbers of people whose crimes are the result of psychosis Pfeiffer also lays bare the woeful absence of proper psychiatric care within the prison system Correctional officers lacking the training and even basic understanding to deal with disturbed inmates routinely resort to punitive measures like solitary confinement that are psychologically devastating Crazy in America is an indictment of a society that incarcerates its weakest and most vulnerable citizens causing them to emerge sicker more damaged and even potentially more violent than when they were first imprisoned It is a compelling and important examination of a shocking human rights abuse in our midst our persecution of those we are unable or unwilling to help

Criminal Trials and Mental Disorders Thomas L. Hafemeister, 2019-02-05 The complicated relationship between defendants with mental health disorders and the criminal justice system The American criminal justice system is based on the bedrock principles of fairness and justice for all In striving to ensure that all criminal defendants are treated equally under the law it endeavors to handle similar cases in similar fashion attempting to apply rules and procedures even handedly regardless of a defendant s social class race ethnicity or gender Yet the criminal justice system has also recognized exceptions when special circumstances underlie a defendant s behavior or are likely to skew the defendant s trial One of the most controversial set of exceptions often poorly articulated and inconsistently applied involves criminal defendants with a mental disorder A series of special rules and procedures has evolved over the centuries often without fanfare and even today with little systematic examination that lawyers and judges apply to cases involving defendants with a mental disorder This book provides an analysis of the key issues in this dynamic interplay between individuals with a mental disorder and the criminal justice system The volume identifies the various stages of criminal justice proceedings when the mental status of a defendant may be relevant associated legal and policy issues the history and evolution of these issues and how they are currently resolved To assist this exploration the text also offers an overview of mental disorders their relevance to criminal proceedings how forensic mental health assessments are conducted and employed during these proceedings and their application to competency and responsibility determinations In sum this book provides an important resource for students and scholars with an interest in mental health law and criminal justice

Justice Cases and Controversies Technology Crime and Ethics Ethics and Critical Criminology **Assaulted Personhood**

Craig C. Malbon, 2020-12-14 In 21st century America personhood is under daily assault sometimes with dire consequences. Scientist, ethicist, and ordained minister Craig C. Malbon encourages the reader to consider such assaults on personhood endured by victims of abortion, ageism, Alzheimer's disease, drug addiction, mental and physical disabilities, gender, gender orientation, racism, sexual preference, identity, politics, and our will to power over the other. In exploring personhood status, Malbon poses difficult questions for us: Is personhood assigned as all or nothing, or is it a sliding scale based upon criteria arbitrarily aimed at our vulnerabilities? Does the voiceless embryo and fetus have advocates who can speak to the moral question of abortion? Is the personhood of an economically insecure pregnant woman degraded to the point where lack of access to early termination of pregnancy results in coercive childbearing? Does being a member of the LGBTQI community target one for assaults on personhood to the extreme of being killed? In delving into the biology and psychology of assaults of self upon the other, Malbon sees powerful linkages of everyday assaults on personhood to darker, profound original sins that are foundational to the rise of the American empire: i.e., assaults on the indigenous Native Americans and assaults derivative to the institution of slavery upon Africans, African Americans, and their descendants. **Shaking the Gates of Hell** Sharon

Delgado, 2020-01-07 *Shaking the Gates of Hell* Faith Led Resistance to Corporate Globalization breaks new ground by describing the global economy and its effects from the perspective of an integrated theology of the earth as primary revelation and the institutional powers of this world. It reaches the conclusion that hope lies in nonviolent resistance and ecological and social responsibility based on God's action in Jesus and in the triumph of God over the powers. This book describes today's interrelated social, economic, and ecological crises and makes the case that we face a living hell on earth if we do not address them. It provides an overview of the global economic system and offers a comprehensive theological analysis of the network of primary institutions that make up what Walter Wink calls the Domination System. It points readers in the direction of hope based on following the way of Jesus who lived in nonviolent resistance to the powers of his day. This new revised edition continues the powerful story of the original, extending the analysis of the global economy from the 2008 collapse and recession to its alleged recovery. It addresses the Obama administration's policies on economics, trade, and the environment and provides further reflections on American foreign and military policy in this so-called New American Century.

Therapeutic Justice Karen A. Snedker, 2018-06-14 This book examines Mental Health Courts (MHC) within a socio-legal framework. Placing these courts within broader trends in criminal justice, especially problem-solving courts, the author draws from two case studies with a mixed methods design. While court observational and interview data highlight the role of rituals and procedural justice in the practices of the court, quantitative data demonstrates the impact of incentives, mental health treatment compliance, and graduating patterns from MHC in altering patterns of criminal recidivism. In utilizing these methods, this book provides a new understanding of the social processes by which MHCs operate while narrative stories from

MHC participants illustrate both the potential and limitations of these courts. Concluding by charting potential improvements for the functioning and effectiveness of MHCs, the author suggests potential reforms and best practices for the future in tandem with rigorous analysis. This book will be of value and interest to students and scholars of criminology, law, and social work as well as practitioners.

Reassessing Solitary Confinement United States. Congress. Senate. Committee on the Judiciary. Subcommittee on the Constitution, Civil Rights, and Human Rights, 2012

Rescuing Soldiers of Misfortune Evan R. Seamone, 2018-12-06

This unique book concerns those veteran inmates who have failed to complete a readjustment process and who continue to wage their own personal wars to regain a sense of normalcy. Those veterans who have not yet redeployed home from combat even though they have relocated to the inherently traumatizing confinement setting. Aside from identifying factors that will help those seeking to be aware of the unique problems of incarcerated veterans and those advocating for them, the book attempts to help these individuals as well as correctional professionals understand veteran inmates and their unique needs which stem from military service. The text offers that programs must be implemented flexibly despite operational and budgetary challenges. The book clearly provides guidelines to develop relevant programs that do far more than simply warehouse troublesome individuals. Major topics include components of veterans' readjustment, military discipline and military discharge, the relationship between military service and crime, criminal manifestations of military service, war zone deployment and combat trauma, veterans' benefits and outreach during incarceration, popular approaches to divert veterans from confinement, attributes of veterans' groups in confined settings, institutionally based programs for veterans, veterans' dorms and urgency in the preparation for the coming storm of veteran offenders. This book, which represents years of research and the author's experience as a military lawyer in both prosecution and defense, is an important reference for a variety of readers including law enforcement and first responders, corrections professionals, mental health providers, lawyers, judges, and anyone who desires to understand the challenges faced by military veterans in conflict with the law.

Revolution in Penology Bruce A. Arrigo, Dragan Milovanovic, 2009

A critique of penal harm, the recursive pains of the imprisonment cycle, and the normalization of violence. The authors deconstruct the human agency, social structure, duality that sustains the prison form, its parts and segments understood as correctional principles, practices, and the prison industrial complex that is informed by and stands above them all.

This original, field-changing collection explores the plasticity and unfinishedness of human subjects and lifeworlds, advancing the conceptual terrain of an anthropology of becoming. People's becomings, trouble, and exceed ways of knowing and acting, producing new possibilities for research methodology and writing. The contributors creatively bridge ethnography and critical theory in a range of worlds on the edge, from war and its aftermath, economic transformation, racial inequality, and gun violence to religiosity, therapeutic markets, animal rights activism, and abrupt environmental change. Defying totalizing analytical schemes, these visionary essays articulate a human science of the uncertain and unknown and restore a sense of
