

# MATH BELL WORK

QUARTER 1 2 3 4

NAME: Emily Smith

MONDAY

Factor

$$x^2 - x - 20$$

$$(x - 5)(x + 4)$$

$$4a^2 - 25b^2$$

$$(2a + 5b)(2a - 5b)$$

TUESDAY

To solve a quadratic equation by taking notes:

1. Get the squared thing by itself.
2. Take the square root of both sides (watch!).
3. Get x by itself (use inverse operations).

Solve

$$4(x - 3)^2 = 20$$

$$(x - 3)^2 = 5$$

$$\sqrt{(x - 3)^2} = \pm\sqrt{5}$$

$$x - 3 = \pm\sqrt{5}$$

$$x = -3 \pm \sqrt{5}$$

WEDNESDAY

To solve quadratic equations

## Create Your Own Math Bellwork:

*Becoming an Outstanding Mathematics Teacher* Jayne Bartlett, 2013-07-24 Raising standards in mathematics is high on government education agendas and remains a key priority for schools. Schools strive to provide an outstanding education for their pupils preparing them to compete not only in a national but an international market. At the heart of this is the classroom and the classroom teacher. So how do you plan lessons that engage and motivate students and what makes a mathematics lesson outstanding? *Becoming an Outstanding Mathematics Teacher* aims to help teachers develop approaches to teaching and learning that take into account individual students' needs and abilities to best facilitate learning. Taking a fresh approach, it offers a wide range of techniques for planning lessons that allow them to use current resources including themselves in a more innovative way to produce outstanding results. With a strong focus on activating learning and supporting pupils as they connect mathematical concepts and processes and develop their individual learning journeys, the book covers a step by step approach to planning for learning, Assessment for learning and planning for progress, Developing effective questioning strategies to promote thinking skills in pupils, Techniques for differentiation to ensure all pupils make progress, Using the classroom environment to develop a culture of learning. Packed full of practical strategies and activities that are easy to implement and including sample lesson plans, this timely new book is essential reading for newly qualified and experienced mathematics teachers that want to ensure outstanding teaching and learning in their classrooms. *The Cornerstone* Angela Powell, 2009 Using classroom photographs, forms and dialogue examples, *The Cornerstone* shows how to design instructional routines that facilitate learning. **Unleashing Student Superpowers** Kristen Swanson, Hadley J. Ferguson, 2014-04-11 Turn students into learning superheroes. Every student has superpowers hidden inside and you hold the keys to unlock them. With this cutting edge handbook, transform your classroom into a place where students don't just get an education, they use their powers to create it. Discover specific, ready to use instructional journeys that foster an inquiry based student driven learning environment. Each research based journey supports one of the student superpowers: Wondering, Curating, Designing, Digital Inking, Gaming and Connecting. Helps students become deep thinkers as required by the CCSS. Includes step by step lesson frameworks aligned with the Common Core that fit into your regular day. **The Occasional Teacher Survival Guide**, 2020-03-17 If you are reading this, you have made a great decision and are invested in being the best Occasional Teacher you can be. Taking this step speaks volumes as to who you are as a teacher and the drive it takes to be successful at your job. I have been an occasional teacher for over a decade and I love what I do. This is one of the most challenging but equally and most importantly the most rewarding jobs you can have. Congratulations on choosing this as your profession. To Teach Is To Inspire. *Raising Reading Achievement in Middle and High Schools* Elaine K. McEwan, Elaine K. McEwan-Adkins, 2006-09-26 Strengthen student literacy achievement in middle and high schools. In response to the No Child Left Behind Act, NCLB raising literacy levels in secondary schools has taken on a new urgency. Recognized literacy author.

Elaine K McEwan focuses her revised second edition on enhancing the five big ideas for raising reading achievement with seven cognitive strategies of highly effective readers and more than twenty research based teaching for learning tips to infuse into daily content instruction Featuring reflection and discussion questions for reinforcement this indispensable guide demonstrates how to improve students literacy with these five teacher friendly strategies Focus on changing what you can change Teach the students who can t read how to read Teach every student how to read to learn Motivate all students to read more to read increasingly more challenging books and to be accountable for what they read Create a reading culture in your school With new programs designed for adolescent learners this update provides suggestions and developmental tools to effectively strengthen reading curriculum and instruction Reading specialists special education teachers literacy coaches intervention specialists and central office administrators can also use this essential tool for evaluating middle and high school reading programs and formulating school and district improvement goals **Thrust for Educational Leadership** ,1997

most effective ways to begin a school year and continue to become an effective teacher This is the most basic book on how to teach Every teacher and administrator needs to have a copy The book is used in thousands of school districts in over 65 countries and in over 1000 college classrooms It works and it s inspiring Included in this 3rd edition is a free 38 minute Enhanced CD Never Cease to Learn This bonus CD features Harry Wong with a special introduction by Rosemary Wong The motivational message delivered is one all educators must hear and see **El-Hi Textbooks & Serials in Print, 2003** ,2003

Children's Books in Print, 2007 ,2006 **Artforum** ,1965 *DIY - Mathematics Tricks and Strategies - Make YOur Own Book* Sarah Brown,2015-08-27 This book is designed for middle school and high school homeschooling The student will use this blank book template for their own writing and illustrations Students take their work more seriously when they feel like they are creating something real If math is part of this year s homeschooling plan this book will be very popular with your student There are many Make Your Own Book topics to choose from Use them for unit studies on a variety of homeschooling subjects These books should be used with a stack of library books If you can t get to the library you can study your topic online and record what you learn into this real book Not just a boring book report these little DYI books become treasures Not just for students Anyone who loves math loves to write and has always wanted to be an author poet or illustrator can take the next step with this real book template This is a beautiful little math notebook for very creative people If you have trouble remembering with math skills you should try using this book Using this book will make math fun because numbers will become like art to you If you LOVE math you will also love using this note book because the beauty of numbers will be so lovely when you express them in creative ways in this workbook If you have ever dreamed of being a mathematician math teacher or would love to write math books you will find an extra special use for this book Math has never been so inspiring Homeschooling Unschooling Use this book along with a stack of library books about the topic of mathematics Your child can make his or her own book of math tips and tricks **Coloring Math Book** Morgana Marshall,2021-03-13 Dear Parents and Teachers This is a workbook of games Exercises on addition and subtraction in an original and stimulating format that introduces children to the magical world of arithmetic by colouring and playing in an approach that never causes them to get bored The contents of the maths curriculum is aimed at the 1st grade and can be used alongside the traditional school textbook as an in depth study to make the subject softer and more assimilable When faced with learning difficulties excessive slowness or poor performance no one ever asks Does the child know how to learn From an early age we are often confronted with books poems pages and pages of history expressions and logarithms without having the necessary tools to learn about them successfully There are strategies to teach how to memorise dates formulas and mathematical expressions to make interesting what is boring and uninspiring in the eyes of children The mission of this book is not only to create a fun and entertaining moment for the child but to teach how to learn as well as how to do addition and subtraction We firmly believe that every child when placed in a suitable environment and when motivated and following their own inner developmental

design and guiding instincts will naturally ignite their own interest in learning working building completing initiated activities as well as testing measuring and controlling their strengths In this games and activity book we try to work on the quantity and repetition of many exercises by diversifying them from several points of view In this way children learn what is engraved in their level of awareness making the child aware of what they are learning combining practice and theory by facilitating through play the assimilation and memorization of the main rules of basic mathematics step by step Colouring pictures with numbers are drawn as a result of the exercises drawings where they have to connect the dots number crosswords follow mazes and pictures where they have to find the missing number build puzzles as they are solved and much more Inside there are various tests so that you can see in which area your child needs your support in case of difficulty

**What's My Mathematical Name?** Charles Lund, 2009-01-01 What's My Mathematical Name is a mathematics vocabulary game The object of the game is to guess the mathematical word association with each picture The purposes of this game are 1 To build students mathematics vocabulary 2 To help foster positive attitudes toward learning mathematics 3 To provide a pleasant change of pace activity for use before or on a holiday or special event or as a reward for good behavior There are many ways to use this game One way is to make a transparency of selected pages and then ask students to take a creative quiz Following such a quiz students can be provided with scissors and a magazine and asked to create one mathematical picture of their own Students should provide their picture and the jumbled spelling of the math term their picture represents on one side of their page and the correct answer on the other Another way to use the material in this book is as a part of a bulletin board display The pictures may be removed from the book laminated and then presented together for the class Still another possible way to organize a game using these cartoons and pictures is to display them around the room on a chalkboard for example Then have players move from picture to picture to identify the terms The person who unscrambles the most terms within a specified time limit is the winner How good is the mathematics vocabulary of the students in your classes How many creative pictures can they produce to exemplify mathematical terms Answers will vary but I think you'll be pleasantly surprised by the results created as they discover that math can be corny and fun **Play and Learn Math: Hundred Chart** Susan Kunze, 2019 Lively games and activities that use the hundred chart to teach number patterns and relationships place value addition subtraction multiplication and more **Bellwork, Math Teacher's Guide, Level 2 (1997)** BELLWORK Enterprises, Incorporated, 1997
