the Western world Although marriage is a very private affair for the individuals who participate in it it also reflects and connects with many complex factors such as economic development culture differences political backgrounds and transition of traditions in both China and the Western world As a result an ordinary marriage between a Chinese person and a Westerner is actually an episode in a sociological grand narrative By employing a three dimensional multi level theoretical framework based on an integration of theories of migration sociology and gender and adopting a qualitative research paradigm this book aims to present a true picture of Chinese Western Intercultural Marriage with a focus on the Chinese perspective and the main body of this study combines three theoretical approaches in order to explore the intercultural marriage fully using a panoramic view By examining the history reality and the conflicts of Chinese Western intercultural marriage this books tries to find the connections between the micro private affairs and the macro national power and seeks the possibilities to construct the explanatory mechanism from macro reality nation state race to micro variables intercultural marriage It provides an academic perspective of producing the general knowledge on the basis of constructing a local knowledge In this way this study will provide more than an anecdotal description of Chinese Western Intercultural marriage but will present a profound analysis of the forces underpinning this cross cultural phenomenon Dr Qin Bo obtained his PhD in Sociology from the University College Cork National University of Ireland in 2012 He is a lecturer at the Party School of Sichuan Committee of the Communist Party of China in Chengdu and a Post doctoral Fellow of Fudan University in Shanghai
